MANAGEMENT REPORT

Background information on AS Norma

AS Norma's history dates back over 100 years: in 1891 Paulus Michelson founded a metal shop which has carried the Norma name since 1931. In 1973 seatbelt production started. Today, AS Norma is the leading car security system supplier for Russian car plants, and provides seat belts for many Western car industry groups. AS Norma shares are quoted on the main list of the Tallinn Stock Exchange.

AS Norma specializes in the manufacturing, sales, research and development of car safety systems and components. Technologies used for the main activities include metal processing, plastic moulding and galvanic coating of components.

In 2003, the AS Norma Group consisted of AS Norma and three 100%-parent-owned subsidiaries from which Eksamo Automaatika AS was sold on 30 December 2003.

At the end of 2003 the group employed 882 people, including 800 people at AS Norma. AS Norma is located in Tallinn, Estonia, at Laki St. 14.

*AS Norma consolidated using the equity method

Operations of AS Norma in 2003

1. Sales Revenue

Net sales of AS Norma Group amounted to 63.9 MEUR, a decrease of 1.4% compared to 2002. The parent company's sales revenue was 62.6 MEUR, 98% of the turnover of the whole group. The parent company's sales decreased by 1.3% in a year. The subsidiaries' consolidated sales were 1.3 MEUR. The share of export in the group's sales amounted to 98% and 40% of export went to Russia. Revenue from seatbelt and component sales amounted to 93% of the total sales of the group (94% in 2002).

2003 could be considered an active year on AS Norma's primary markets. Passenger car production in Russia increased by 1.7%, compared to 2002 (decrease of 0.4% at AvtoVAZ). Increasing competition on the ordinary seatbelt market and the strengthening of the euro in 2003 with regard to the rouble had a negative effect on Norma's sales and sales prices. The effect of the price drop on revenue was 1.5 MEUR. The largest customers in Russia were AvtoVAZ, GAZ, and Izhmaz.

In 2003, AS Norma's Western-bound sales reached 60% of total sales, amounting to 38.5 MEUR. Sales to Autoliv group companies totalled 34.8 MEUR (+22% from 2002). Seat belts accounted for 94.5% of products sold to Autoliv group. Other major Western clients included Karosa, Iris Bus, Renault V.I., Protektor, Saab Automobile AB.

Increased security requirements are also forcing Russian plants to adopt increasingly comprehensive safety systems. This means the share of airbags and seat belts with automatic pretensioners and related electronics used in such components will increase in the coming years. In 2003, Norma was contracted to develop a modern safety system for AvtoVAZ's new family cars, VAZ 1118, 1117, and 1119 (the Kalina). Production of cars equipped with safety systems is planned to begin in September 2005. The contract does not cover serial supply of components but does lay a good foundation for signing a contract on serial supplies.

2. Profitability

	Group			AS Norma (parent company)*		
	2003	2002	Change%	2003	2002	Change%
Net sales	63,9	64,8	-1.4	62,6	63,4	-1.3
Cost of goods sold	51,9	49,4	5.0	51,2	49,2	4.0
Administrative and selling expenses	4,1	4,8	-12.9	3,7	4,1	-9.6
Operating profit	7,8	11,9	-34.8	8,0	10,2	-21.7
Profit before tax	8,4	12,6	-33.3	8,4	12,6	-33.3
Net profit	8,2	12,4	-33.7	8,2	12,4	-33.7
Sales margin (%)	12,8	19,1	-33.0	13,1	19,5	-32.8

*AS Norma consolidated equity method

The group's net profit was 8.2 MEUR in 2003. Net profit fell 34% from 2002. Profit before tax decreased by 33% (i.e. 4.2 MEUR) to 8.4 MEUR. The group's sales margin fell from 19.1% to 12.8%. In 2002, disposals of buildings and real estate contributed to operating profit of 1.3 MEUR. Such an operating profit was not achieved in 2003. The decline in profit is a consequence of the decrease in the sales volumes and prices on the Eastern market.

In 2003 net sales dropped by 1%, whereas cost of sales increased by 5%. The company's gross profit decreased by 22%. R&D expenses decreased by 13%, general administrative expenses by 10%, and marketing expenses by 17%, thus 13% was saved on the general expenses of the accounting period.

The rise in the share of cost of goods sold in the group's revenue-expenditure structure continued (from net sales an increase from 76% in 2002 to 81% in 2003), including a 3% rise in the cost of raw materials (i.e. 1.2 MEUR), 13% increase in depreciation (i.e. 0.3 MEUR), and 5% decrease in wages and salaries (i.e. 0.4 MEUR), compared to 2002. Increase in the share of costs of raw materials was triggered by the use of purchased components instead of raw materials upon making safety belts for Autoliv. Sales to Autoliv group companies reached 34.8 MEUR in 2003, making up 55% of net turnover (growth of 22% from 2002).

98% of the group's net turnover (i.e. 62.6 MEUR) originated from the parent company, a decrease of 1%, compared to the previous period. The parent company's gross profit decreased by 20% and operating profit by 22%, reaching 11.4 and 8.0 MEUR respectively.

Personnel expenses of the group totalled 9.3 MEUR in 2003, a decrease of 9%, compared to last year. The share of personnel expenses in the net turnover decreased to 15% in 2003 (16% in 2002). There were 882 employees in the group at the end of 2003, which is 164 employees less than the previous year. The number of employees at the parent company decreased by 84 to 800. The average expenditure per employee stayed at 2002 levels.

The Dynamics of the Group Net Sales and Net Profit in 1995-2003 (in MEUR)

3. Liquidity management and use of capital

The group's equity increased by 4.0 MEUR or 9%, amounting to 50.6 MEUR by the end of the accounting year. The share of equity in the balance sheet was 82% (86% at the end of 2002). Distributable equity at the end of the year was 41.3 MEUR.

At the end of 2003, the share of cash and liquid securities amounted to 31% of total assets. Net working capital was 13.8 MEUR as of 31 December 2003, and fixed assets amounted to 17.7 MEUR. The group has no need for external funding.

In managing liquidity and making financial investments, AS Norma was traditionally conservative in 2003 as well. Aside from Estonian banks' Estonian kroon and euro deposits of varying terms of maturity, and interest fund shares, resources were also deposited on a short-term basis in Autoliv Finance International and a short-term loan was granted to Autoliv Autosicherheitst GMBH in the amount of 5 MEUR, which enabled to make a short-term euro investment at a higher interest rates than the market rates for euro deposits.

For more flexible management of financial resources within the group, and reducing interest expenses and need for external loans, a group cash pooling agreement is being used, allowing the subsidiaries to use the group's resources within the limits established by AS Norma.

4. Assets

The group's assets totalled to 61.5 MEUR at the end of the accounting period, 7.1 MEUR more than at the end of 2002, whereas 4.4 MEUR of its growth came from current assets. The latter reached 43.8 MEUR by the end of the period.

Customer receivables amounted to 12.9 MEUR at the end of the period, including 8.0 MEUR of accounts receivable from Autoliv group companies. In turn, accounts payable by AS Norma to the companies of the same group amounted to 6.2 MEUR. Although total customer receivables increased by 2.5 MEUR over the year, the accounts receivable from customers outside Autoliv group remained the same (5.0 MEUR). A provision for doubtful debts has been established in the amount of 0.6 MEUR, 78% of it being connected to accounts of Russian and Ukrainian customers.

The group's inventories amounted to 4.7 MEUR at the end of the accounting period, a decrease of 1.1 MEUR (19%), compared to the beginning of the period, making up 8% of assets. Raw materials and purchased components made up 60%, work in progress 22% and finished goods 13% of the inventories. Compared to 2002, material and component inventories decreased the most, from 3.7 to 2.8 MEUR, as did finished goods in stock, from 0.9 to 0.6 MEUR.

The group's non-current assets reached 17.7 MEUR at the end of 2003, a growth of 2.7 MEUR, making up 29% of assets. Tangible fixed assets increased by 1.7 MEUR to 16.0 MEUR – i.e. 26% of the group's assets. Intangible assets increased by 1.3 MEUR in 2003.

5. Highlights

1. A new automatic line was installed and launched to prepare Autoliv safety belt inertial wheel
2. Legal procedures for the merger of AS Norma and AS Norma Maja were completed
3. The subsidiary (100%) Eksamo Automaatika AS was sold
4. DNV Certification OY/AB issued a certificate to AS Norma, proving the company's quality management system's conformance to ISO/TS 16949 requirements.

6. Subsidiaries

In 2003, AS Norma group included three subsidiaries (AS Tööriistavabrik, Norma-Osvar ZAO, Eksamo Automaatika AS (was sold at the end of 2003)).

AS Tööriistavabrik field of activity is designing, manufacturing and repairing fixtures for plastic moulding dies. AS Tööriistavabrik is a strategic link in the Norma production chain. AS Tööriistavabrik sales in 2003 amounted to 2.1 MEUR and the net profit amounted to 0.1 MEUR. Its sales outside the group amounted to 0.9 MEUR.

Eksamo Automaatika AS provided maintenance and repair services for manufacturing equipment to the parent company and performs automation work for Norma as well as other firms. The company's turnover was 0.9 MEUR in 2003 and the net loss amounted to 16.0 th. EUR. Its sales outside the group amounted to 0.3 MEUR. Eksamo Automaatika AS was sold at the end of 2003.

The turnover of the Russian-based subsidiary Norma-Osvar ZAO was 2.4 MEUR in 2003 and the net loss amounted to 0.1 MEUR. Its sales outside the group amounted to 2.4 MEUR.

7. Investments

To reinforce manufacturing capacity and ensure effectiveness of manufacturing processes, 6.3 MEUR were invested in the group in 2003.

The largest investments in 2003 were the following:

Product and technology licenses	1.4 MEUR
Metal processing equipment	0.9 MEUR
Assembly lines	1.2 MEUR
IT	0.2 MEUR
Thermoplastic production	0.6 MEUR
Quality management systems	0.4 MEUR
Environmental protection	0.2 MEUR
Construction work	0.1 MEUR

8. Stock market and stock performance

AS Norma has issued 13.2 million ordinary shares, which give one vote per share. Dividends in the amount of 4.2 MEUR were paid out for activities in 2002 (i.e. 0.32 EUR per share).

AS Norma shares are quoted on the main list of the Tallinn Stock Exchange, and they are also traded on exchanges in Frankfurt, Berlin and Munich.

AS Norma shareholders whose share exceeds 3%, as of 31 December 2003:

Autoliv AB	51.0%
Nordea Bank Finland PLC Clients Account Trading	9.5%
Skandinaviska Enskilda Banken AB Clients	8.7%
Clearstream Banking Luxembourg S.A. Clients	3.7%
Firebird Republics Fund Ltd	3.0%

At the end of the accounting period (31.12.2003), the closing price of a share of AS Norma on the Tallinn Stock Exchange was 6.5 EUR.

Financial Statements

Management Board's Confirmation on the Financial Statements

The Management Board confirms the completeness and correctness of AS Norma 2003 financial statements as presented on pages 7-28:

- 1) the financial statements have been prepared in accordance with International Financial Reporting Standards;
- 2) the financial statements give a true and fair view of the financial position and the results of operations of AS Norma parent company and the group;
- 3) AS Norma and its group companies are going concerns.

The accounting principles presented on pages 14 to 17 and the notes to Financial Statements presented on pages 18 to 28 form an integral part of the Financial Statements.

Presentation of the current set of financial statements

The measurement currency of AS Norma is Estonian kroon. For the convenience of users and according to the Tallinn Stock Exchange Rules the information in these financial statements is presented in euros. The financial statements have been translated from the original in Estonian kroons. Because Estonian kroon is bound to euro with fixed exchange rate 1 euro = 15.64664 Estonian kroons, no foreign exchange differences result from the translation. All amounts shown in these financial statements are presented in thousands unless otherwise stated.

Accounting policies

Accounting principles

AS Norma consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) and under the historical cost convention except as disclosed in the accounting policies below, e.g. financial instruments which are shown at fair value.

Principles of consolidation

The consolidated income statements are prepared considering the will of the users of the financial statements to view related enterprises as a single economic unit, in which the financial statements of each company in the group are consolidated in accordance with International Financial Reporting Standards.

Consolidated financial statements include only transactions with companies not part of AS Norma Group.

The consolidated financial statements include the accounts of AS Norma and its subsidiaries (in which AS Norma has power to exercise control over the operations), which are consolidated line-by-line. All inter-company balances and transactions are eliminated. Investments in subsidiaries in parent company accounts are accounted using equity method.

Foreign currencies

All foreign currency transactions by AS Norma and the Group are recorded in Estonian kroons based on the exchange rate of the Bank of Estonia officially valid at the date of transaction.

Income statements of subsidiaries located outside of Estonia are translated into Estonian kroons based on average Bank of Estonia exchange rate for the year; assets and liabilities in foreign currencies are translated according to the Bank of Estonia exchange rate valid on 31 December.

Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, short-term deposits and other marketable securities with maturity date of 3 months or less (for example money-market fund shares).

Financial investments

Financial investments are classified into two categories: available-for-sale and held-to-maturity.

The held-to-maturity investments (bonds and loans issued by the enterprise) are carried at amortised cost using the effective yield method. Available-for-sale investments are carried at fair value. In case the market value cannot be reliably estimated, the investments are recorded at amortised cost. Unrealised gains and losses from revaluation of available-for-sale investments are included in the income statement. Financial investments are recorded at the date of the transaction.

Accounts receivable

Trade receivables are carried at amortised cost (original invoice amount less provision made for impairment of these receivables). The estimated collectibility of trade receivables is assessed on an individual basis, based

on the current credit information available. Trade receivables are discounted based on estimated collectible amount and allowance is recorded in the balance sheet account "Allowance for doubtful receivables". Collection of receivables that have been previously expensed as irrecoverable has been reported as an adjustment to doubtful receivables and adjustment to expense in the income statement of the reporting year. Irrecoverable trade receivables are written off the balance sheet.

Inventories

Raw materials both in warehouses and in production and goods for resale are recorded in the balance sheet at the lower of acquisition cost or net realisable value. Finished goods and work in progress are recorded at production cost (this consists of direct and indirect production costs). The cost of materials, semi-manufactured parts and finished goods is calculated using the weighted average cost method.

Property, plant and equipment

Assets with an acquisition cost of over 40 thousand kroons and a useful life of more than one year are considered as property, plant and equipment. Property, plant and equipment are recorded at acquisition cost less accumulated depreciation. Property, plant and equipment is written down to the recoverable amount (the higher of net realisable value or value in use), if recoverable amount is lower than net book amount. Improvements are capitalised if the value of a specific asset is qualitatively increased to a higher level or if it can be proved that income related to such expenses will arise in future accounting periods.

Depreciation is calculated using the straight-line depreciation method, based on estimated useful life as follows:

Buildings	18-26 years
Machinery and equipment	7 years
Motor vehicles	6 years
Other assets	3-5 years

Intangible assets

Intangible assets are reported at acquisition cost less accumulated amortisation. Amortisation of intangible assets is calculated using the straight-line method, based on estimated useful life as follows:

Development costs	5 years
Purchased licenses	3-10 years

Income tax

Until December 31, 2002 (according to the income tax law that took effect on January 1, 2000), only dividends paid by the company to resident natural persons and non-residents were subject to income tax (26/74 of net dividend paid). Since January 1, 2003 due to the changes in legislation, all dividends paid by the company are taxed. Tax rate is 26/74 of net dividends paid.

The company's potential income tax liability related to distribution of its retained earnings as dividends is not recorded in the balance sheet. The maximum possible income tax liability which would become payable if retained earnings would be fully paid out as dividends is disclosed in Note 24.

Dividend income tax will be recorded as an expense in the period dividends are declared.

Earnings per share

Basic earnings per share is calculated by dividing the net profit by the weighted average number of ordinary shares. The company has no potential ordinary shares and therefore the basic earnings per share and diluted earnings per share are equal.

Vacation pay reserve

The cost of the vacation pay reserve is recorded at the time the liability arises, that is, when the employee is entitled to claim vacation pay. Earned vacation pay is recorded in the income statement as an expense and in the balance sheet as a current liability.

Provisions and contingent liabilities

Provisions are recognised when a company has a present legal or contractual obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made, but the date of the settlement and the final amount of it are not certain. Valuation of the provision is done based on the assessment and experience of management on the opinion of independent experts, if necessary.

Warranties, guarantees and other contingent liabilities, which may occur as liabilities under certain future conditions, are disclosed in notes to the consolidated financial statements as contingent liabilities.

Related parties

For the purposes of preparation of financial statements, entities and individuals are considered related parties if one of the parties can exercise control or has significant influence over economic decisions made by other party. The following entities are considered as related parties by AS Norma:

- a) parent company (and parent company shareholders)
- b) subsidiaries
- c) other companies belonging to the Group
- d) members of the Management and Supervisory Board and their close relatives and companies related to them
- e) employees of the company.

Recognition of sales

Sales are recognised upon delivery of products and the transfer of all related risks of ownership to the customer and when the revenue and the costs of the transactions can reliably be defined. Invoices prepared in foreign currencies are translated into Estonian kroons according to the Bank of Estonia exchange rate valid at the invoice date.

Product development expenses

Product development expenses are generally reported in the income statement under research and development expenses. If income related to expenses incurred will arise in future reporting periods, such expenses are capitalised in the balance sheet account "Development costs".

Leases

Leases of property, plant and equipment where the company has substantially all the risks and rewards of ownership are classified as finance leases. Other leases are classified as operating leases.

The company is the lessee

Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased property or the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges (interest expense) so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated similar to acquired assets over the shorter of the useful life of the asset or the lease term.

Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

The company is the lessor

When assets are leased out under a finance lease, the amount equal to the net investment in the lease is recognised as a receivable (the aggregate of: the present value of the lease payments receivable by the lessor under a finance lease, and any unguaranteed residual value accruing to the lessor). Each lease payment received is allocated between the receivable and finance income. Lease income is recognised over the term of the lease using the net investment method, which reflects a constant periodic rate of return.

Assets leased out under operating leases are included in property, plant and equipment in the balance sheet. They are depreciated over their expected useful lives on a basis consistent with similar owned property, plant and equipment. Rental income is recognised on a straight-line basis over the lease term.

Segment reporting

Primary segment reporting format is presented based on the activities across business segments. Secondary segment reporting format is presented based on geographical area. Across company's product lines main product line is car safety belts. Other product lines (car security system components, automobile details, metalworks, real estate activities) account for less than 10% from net sales.

Expenses are allocated in proportion to product line's share from net profit. Assets (excluding equity and other securities, and loans), liabilities and investments are allocated according to their their relation to the segment. Depreciation is allocated according to the relation between fixed assets and product lines. Write-down on fixed assets is allocated based on the particular segment an asset is related to.

Notes to the financial statements

In thousands of Estonian euros (if not stated otherwise)

1. Cash and bank accounts	group		parent company	
	31.12.2003	31.12.2002	31.12.2003	31.12.2002
Cash and bank accounts	114	112	99	37
Short-term deposits	11 332	13 579	11 319	13 579
	11 446	13 692	11 418	13 616

As at 31.12.03, the short-term deposits include deposits with maturity date less than a month in the total amount of 3 095 thousand euros and 5 148 thousand Estonian kroons with interest rate between 2,02 – 2,35%, and other deposits in the total amount of 1 500 thousand euros and 100 260 thousand Estonian kroons with interest rate between 2,2 – 3,6%. Deposits in group treasury are in the total amount of 103 651 thousand Estonian kroons (see Note 26).

In order to increase the flexibility of cash management and to reduce interest expenses and need for borrowing, a cash pooling agreement is used. This allows all companies in the group to use the group's funds within pre-set limits established by AS Norma.

2. Available-for-sale investments	group and parent company	
	31.12.2003	31.12.2002
Interest fund shares of Hansapank	4 661	5 170
Money Market Funds shares	19	6
	4 680	5 176

The shares are valued at their market value on 31 December 2003.

3. Held-to-maturity investments	group and parent company	
	31.12.2003	31.12.2002
Bonds	2 995	3 044
	2 995	3 044

Short-term held-to-maturity investments include Ühispank, Sampo Pank and Hansa Capital 3-11 month bonds denominated in Estonian kroons and Hansapank's euro bonds in the amount of 301 thousand euros with 2,3-3,0% and 5,86% interest rate, respectively. Aforementioned investments are classified as held-to-maturity and are amortised based on acquisition cost and effective interest rate, accumulated interest is included in Note 5.

4. Accounts receivable	group		parent company	
	31.12.2003	31.12.2002	31.12.2003	31.12.2002
Trade receivables	4 953	4 899	4 127	4 317
Receivables to Parent Company Group entities	7 984	5 532	9 101	6 314
Allowance for doubtful receivables	-597	-650	-597	-650
	12 340	9 781	12 631	9 981

As at December 31, 2003, 78,3% of doubtful receivables were related to Russian and Ukrainian customers.

Based on the management decision, customer receivables from Russia (Avto VAZ, IZMAZ, Technobelt) in the total amount of 53 thousand euros were written off during the reporting year.

5. Other receivables and prepayments	group		parent company	
	31.12.2003	31.12.2002	31.12.2003	31.12.2002
Other receivables, incl.	5 011	13	5 010	11
Short-term loans (see note 8)	10	11	10	11
Short-term loan to Autoliv Autosicherheits GMBH (see note 26)	5 000	0	5 000	0
Advances to employees	1	2	0	1
Prepayments for services	244	271	235	151
Accrued interest	101	80	101	80
Prepaid expenses	425	52	417	51
	5 780	417	5 763	293

As at 31 December 2003, largest prepaid expenses include prepayment to Autoliv Sverige (for VAZ 1118 safety system development project) in the total amount of 299 (2002: 0) thousand euros, prepayment for software licenses to Autoliv France in the total amount of 68 (2002: 0) thousand euros, prepaid insurance in the total amount of 27 (2002: 30) thousand euros, prepaid amount media/press subscriptions in the total amount of 4 (2002: 7) thousand euros, and prepayment for heating fuel in the total amount of 7 (2002: 7) thousand euros.

6. Prepaid taxes	group		parent company	
	31.12.2003	31.12.2002	31.12.2003	31.12.2002
Prepaid income tax	23	17	6	2
Prepaid VAT	1 845	1 473	1 716	1 424
	1 868	1 490	1 722	1 426

7. Inventories	group		parent company	
	31.12.2003	31.12.2002	31.12.2003	31.12.2002
Raw materials	2 833	3 668	2 781	3 598
Work in progress	1 015	900	558	573
Finished goods	637	961	637	961
Goods for resale	229	262	0	0
Prepayments to suppliers	4	60	154	97
	4 718	5 851	4 130	5 229

In 2003, the obsolete and substandard materials were written down in the amount of 68 (2002: 52) thousand euros. Materials, unfinished and finished goods unsuitable for production and resale have been written off in the amount of 11 (2002: 52) thousand euros during the reporting period.

Previously written down materials (in 2002, in the total amount of 3 thousand euros) which now are used in production are written up to their original cost.

8. Held-to-maturity investments (over 1 year)	group and parent company	
	31.12.2003	31.12.2002
Held-to-maturity investments	256	557
Loans receivable	44	57
Other long-term receivables	32	0
	332	614

For cash flow management purposes, the company acquired 3 year fixed term bonds of Ühispank in the total amount of 256 thousand euros and with interest rate 5,15% per year.

Loans receivable consist long-term loans to employees of AS Norma:

Purpose	Balance as of 31.12.02	Incl. classified as short-term	Incl. classified as long-term	Issued loans in 2003	Paid back in 2003	Balance as of 31.12.03	Incl.		Interest rate in percent
							classified as short-term	classified as long-term	
Purchase and improvements of real estate	12	4	8		3	9	4	5	13
Student loans	54	5	49	8	17	45	5	39	0
Other	2	2	-	-	2	-	-	-	9
	68	11	57	8	22	54	10	44	

AS Norma has given loans to group employees according to group lending policies. Loans are guaranteed with two surety agreements, real estate or equity securities.

9. Subsidiaries

Name of the company	Participation	Location
AS Tööriistavabrik	100%	Estonia
Norma-Osvar ZAO	100%	Russia

AS Norma subsidiaries have issued only common shares.

Due to the concentration to main activity Eksamo Automaatika AS shares were sold on 30.12.2003.

On December 30, 2003 all the shares of subsidiary Ekasmo Automaatika AS in which AS Norma had 100% participating interest were sold for 64 thousand euros of which 8 thousand euros were deposited on Norma AS' bank account, 24 thousand euros is outstanding as short-term receivable from the buyer and 32 thousand euros is outstanding as long-term receivable from the buyer. AS Norma's loss from the sale was 0.3 thousand euros.

Eksamo Automaatika AS' assets and liabilities on the date of sale in thousands of euros:

Assets	date of sale 01.01.03		Liabilities	date of sale 01.01.03	
Cash and bank	1	3	Trade payables	12	3
Accounts receivables	27	69	Loans from parent company	26	21
Receivable from parent	41	55	Tax liabilities	38	38
Receivables and prepayments	1	2	Payables to employees	53	55
Inventories	107	44	Total short-term liabilities	129	116
Non-current assets	17	23	Owner's equity	64	80
Total assets	193	196	Total liabilities and owner's equity	193	196

Due to the sale of subsidiary, the assets on the Group's balance sheet decreased by 120 thousand euros in comparison to assets as at 31.12.02. AS Norma's 2003 consolidated annual report includes net sales of Eksamo Automaatika AS in the total amount of 889 thousand euros and respective net loss in the total amount of 16 thousand euros.

10. Property, plant and equipment (group)	Land and buildings	Machinery and equipment	Other equipment	Un-finished buildings	Prepay-ments	Total

The primary reporting format is business (product lines) segment and the secondary reporting format is the geographical segment.

Segments are based on the production of the company where main product group is safety belt and other products (car components, metal products, real estate management) account for less than 10% of total sales.

The division of costs is in line with the product's share in profit. Assets (except shares, other securities and loans), liabilities and investments are divided by their relation to the segments. Depreciation charge is allocated according to the relation between fixed assets and product lines. Write-down on fixed assets is allocated based on the particular segment an asset is related to.

By product lines (parent company)

Autoliv AB is a parent company of AS Norma. According to management assessment the intra-company trading transactions with Autoliv companies are based on market prices. The short-term loan issued to another Autoliv subsidiary earned slightly higher interest than market rate and also the short-term deposit placed in the Autoliv Finance earned slightly higher interest rate than market rate.

Salaries paid to the Management Board members during the year amounted to 458 thousand euros and to members of the Supervisory Board amounted to 48 thousand euros. According to the agreements signed with the Members of the Management Board the compensation paid at termination of the said contracts can amount from 0 to 12 months of salary depending on the terms of termination.

Loans to employees are disclosed in Note 8.

Cash pooling agreement

On 22.10.1999 Hansabank and AS Norma, with its subsidiaries, entered into a contract of cash pooling agreement under which AS Norma is defined to be the parent company. Cash pooling agreement includes AS Tööriistavabrik bank accounts.

27. Primary risks for the AS Norma Group

Credit risk

Credit risk reflects the potential loss, which may be caused by a business partner's inability to meet the assumed obligations. This is particularly important regarding the ability of our major customers to pay for goods supplied. Credit is primarily extended only to our long-term partners. In order to ensure the payments from our long-term clients, we are constantly monitoring and analysing their financial position and liquidity. If necessary, we have requested bank guarantees to ensure payment. Prepayment or a letter of credit is required for single transactions or new clients.

An allowance has been made to cover doubtful receivables. This allowance encompasses all accounts receivable, which are the object of dispute with the other party, and receivables, which the Management Board has reason to believe are not collectible.

The accounts receivable balance from the Russian and Ukrainian clients on 31.12.03 amounted to 4 216 thousand euros (31.12.02: 4 214). Write-down at the end of the period amounted to 468 thousand euros

(31.12.02: 499), therefore the net balance of receivables as at 31.12.03 amounted to 3 748 thousand euros (31.12.02: 3 715).

Currency risk

In 2003, 98.3% of AS Norma Group sales were export sales, made mainly in euro. The Group's expenses were primarily in Estonian kroons, euros, Swedish crowns and Russian roubles. Main sales and purchase contracts are denominated in euros. The risks related to other currencies than euro were monitored either by matching the incoming and outgoing cash flows of the same currency, or fixing contractual payments at euro exchange rate. Hedge accounting is not used.

Short-term investments are diversified between Estonian kroons and euros.

28. Contingent liabilities

AS Norma holds a guarantee contract in the amount of 433 thousand euros for guaranteeing import and interest duties, as well as the state duties. Also, AS Norma holds a guarantee contract in the amount of 499,8 euros for guaranteeing the prepayment for VAZ 1118 stage I safety system development in favour of I.D.P.S.a.r.l.

The company stands as a guarantor with 28 thousand euros for the usage of staff credit cards.

PROFIT ALLOCATION PROPOSAL FOR THE FINANCIAL YEAR

AS Norma net profit for 2003 is 128 332 544 EEK (8 201 923 EUR).

The Management proposal, which is agreed with the Supervisory Board, is to pay ordinary dividends to shareholders in the amount of 50% of the face value of the share in the total amount of 66 000 000 kroons or 5 kroons per share or 4 218 158 EUR (0.32 EUR per share).

Dividends are paid from previous periods' retained earnings.

The General Meeting of the Shareholders will set a fixed date for the list of shareholders with dividend rights.

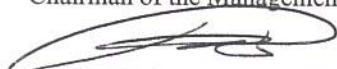

According to the Management Board's proposal, the list of shareholders with dividend rights will be fixed as at 01.06.2004 at 8:00 AM.

AUDITOR'S REPORT

(Translation of the Estonian original)

To the shareholders of AS Norma

We have audited the financial statements of AS Norma (the Parent Company) and the consolidated financial statements of the Parent Company and its subsidiary companies (the Group) for the year ended 31 December 2003 as set out on pages 7 to 28. These financial statements are translated into euros from the original in Estonian kroons. These financial statements are the responsibility of the Company's management board. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements give a true and fair view of the financial position of the Parent Company and the Group as at 31 December 2003 and of the results of their operations and their cash flows for the year then ended in accordance with International Financial Reporting Standards.

Urmas Kaarlep
AS PricewaterhouseCoopers

Tiit Raimla
Authorised auditor
