## 2 ACCOUNTING PRINCIPLES

The principal accounting policies adopted in preparing the Group's and the Company's financial statements as of June 30, 2007 are as follows:

### **STATEMENT OF COMPLIANCE**

The financial statements of the Group and the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (further "the EU").

### **BASIS OF PREPARATION**

These Interim Financial Statements as of June 30, 2007 have been prepared according 34<sup>th</sup> International Accounting Standard (IAS 34) Interim Financial Reporting.

Audit has not been conducted for Interim Financial Statements as of June 30, 2007. Annual financial statements as of December 31, 2006 have been audited.

### **BASIS OF CONSOLIDATION**

The consolidated financial statements comprise the financial statements of AB Sanitas and its subsidiaries as of 30 June 2007. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies, that have been applied in Annual Financial Statements.

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions that are recognised in assets, are eliminated in full.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

### **FOREIGN CURRENCY TRANSLATION**

The Company's and Group's financial statements are presented in local currency of the Republic of Lithuania, Litas (LTL), which is the Company's functional and the Company's and Group's presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the functional currency ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to profit or loss. Non monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

The functional currency of the foreign operations, Jelfa S.A. and Hoechst-Biotika s.r.o., is Polish Zloty (PLN) and Slovak Crown (SKK) respectively. As at the reporting date, the assets and liabilities of these subsidiaries are translated into the presentation currency of AB Sanitas (LTL) at the rate of exchange ruling at the balance sheet date. Income statement items are translated using average monthly exchange rates and the total result of the accounting period in income statement is presented as a sum of monthly translated results. The exchange differences arising on the translation are taken directly to a separate component of equity. On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the income statement.

Lithuanian Litas is pegged to EUR at the rate of 3.4528 Litas for 1 EUR, and the exchange rates in relation to other currencies are set daily by the Bank of Lithuania.
