 - 2.1.1. 3,000 euros* for shares;
 - 2.1.2. 1,500 euros* for debt securities.
- 2.2. The application fee shall be paid by the due date specified in the invoice sent by the Exchange.

 - 2.3.2. 500 euros* for debt securities.

3. Annual fee for Issuers

- 3.1. Annual fees apply for Issuers whose securities have been admitted to trading on First North. The annual fee is an annual fee payable in the first month of every calendar year as a prepayment for that year. The annual fee for the first year shall be paid not later than two (2) business days before the first trading day.
- 3.2. In case securities are admitted to trading or trading is terminated during the year, the annual fee is charged pro rata to the months when the securities were traded on First North by dividing the annual fee by twelve and multiplying it by the number of months when the securities were traded. Incomplete months count as full months.
- 3.3. The annual fee payable by an Issuer is calculated on the basis of the market value of the shares traded. The market value of shares is calculated as the arithmetic average of the market values obtained by multiplying the number of shares by the closing prices for all trading days of the previous calendar year or by offer price (in case of offering). Upon admission to trading, the market value of shares is calculated as the product of the number of shares and the weighted average price of transactions recorded with the Issuer CSD during the ten (10) trading days preceding the decision on admission to trading. Where this cannot be estimated, the calculations are made on the basis of the Issuer's owners' equity as stated in the Issuer's latest audited financial report.
- 3.4. Annual Fee for Share Issuers:
 - 3.4.1. 3,000 euros*, if the average annual market value of shares is up to 5,000,000 euros;
 - 3.4.2. 3,000 euros* plus 0.02% from the average annual market value of previous year that exceeds 5,000,000 euros, if the average annual market value is more than 5,000,000 euros;
 - 3.4.3. 6,000 euros* plus 0.002% from the average annual market value of previous year that exceeds 20,000,000 euros, if the average annual market value is more than 20,000,000 euros.
- 3.5. Annual Fee for Debt Security Issuers:
 - 3.5.1. 1,000 euros*, if the total nominal value of debt securities is up to EUR 10,000,000;
 - 3.5.2. 1,000 euros* plus 0.005% from the total nominal value of debt securities that exceeds 10,000,000 euros, if the total nominal value of debt securities is more than 10,000,000 euros;
 - 3.5.3. 3,000 euros* plus 0.001% from the total nominal value of debt securities that exceeds 50,000,000 euros, if the total nominal value of debt securities is more than 50,000,000 euros;
 - 3.5.4. 3,500 euros* plus 0.0001% from the total nominal value of debt securities that exceeds 100,000,000 euros, if the total nominal value of debt securities is more than 100,000,000 euros;
 - 3.5.5. 50% discount shall apply to Issuer which has shares admitted to trading on Baltic First North markets or Nasdaq Baltic regulated market.

4. Termination of trading

- 4.1. Upon termination of trading, the Issuer shall pay to the Exchange a trading termination fee in the amount of the Issuer's annual fee for one year*, calculated from the moment of submission of an application for termination of trading.

No trading termination fee is charged in the following cases:

- 4.1.1. termination of trading in shares or units of an investment fund;
- 4.1.2. termination of trading in debt securities and other securities admitted to trading for a fixed term when such a term arrives;
- 4.1.3. termination of trading due to admission to Nasdaq Baltic regulated market.

5. Fees applicable to Advisers

- 5.1. Advisers shall pay a single and non-refundable contract fee of 1,500 euros* upon receiving the status of an Adviser. The contract fee shall be paid by the due date specified by the Exchange in the invoice, but not later than on the date of and before signing the agreement with the Exchange.

- 5.2. Advisers shall pay an annual fee of 2,000 euros* for the right to provide advisory services to Issuers on First North. The annual fee is payable in advance at the beginning of each year.

Adviser who has not signed an agreement with at least one Issuer, whose securities are admitted to trading to First North, shall pay 50% of the annual fee set forth in previous sentence (1,000 euros*).

Aforementioned discount applies also to Certified Advisers who have signed an agreement with debt securities Issuer covering the admission period only.

- 5.3. If the status of an Adviser is received or terminated during the year, the annual fee is charged pro rata to the months when the Advisor had the status of an Adviser, by dividing the annual fee by twelve and multiplying it by the number of months when the Adviser had the status of an Adviser. Incomplete months count as full months.
