13. Transactions involving derivative financial instruments conducted over the reporting period, other than those referred to in section 11 herein:

Within reporting period there were no executions of such transactions.

14. Types of derivative financial instruments referred to in section 11 of the Annex, the related risks and quantitative limits and methods used to assess the risks incurred by the collective investment undertaking in relation to transactions involving derivative financial instruments. Description of how derivative financial instrument may be used to hedge investment instrument transaction (position) against risk:

Within reporting period there were no executions of transactions involving derivative investment instruments.

15. Total value of liabilities arising on transactions involving derivative financial instruments at the end of the reporting period:

Within reporting period there were no completions of transactions involving derivative investment instruments. Therefore, there were no liabilities related to use of derivative financial instruments.

16. Risk, related to derivative investment instruments taken by financed collective investment entity:

16.1. The sum of the direct potential risk extent of the feeder collective investment undertaking and the actual derivative financial instruments risk of the master collective investment undertaking that is proportional to the feeder collective investment undertaking investments to the master undertaking:

The collective investment undertaking is a non-master investment undertaking.

16.2. The sum of the direct potential risk extent of the feeder collective investment undertaking and the extent of potential maximum risk that was taken by the master collective investment undertaking according to transactions on derivative financial instruments and that was determined in the founding documents of the master collective investment undertaking and that is proportional to the feeder collective investment undertaking investments to the master undertaking:

The collective investment undertaking is a non-master investment undertaking.

17. Analysis of the current investment portfolio's compliance (non-compliance) with the collective investment undertaking's investment strategy (investment trends, investment specialisation, geographical area, etc.):

The fund's investment portfolio is in line with the fund's investment strategy.

The fund's assets are invested in shares of companies operating in Russian Federation. No more than 33% of the subfund's assets may be invested in companies based in other CIS countries (including the former CIS countries).

The fund's investment portfolio comprises shares of 15 to 25 different companies. A low level of diversification of the investment portfolio enables the subfund to ensure maximum control over the selected positions and an effective structure of the subfund.

18. Factors that had the major impact on the structure of investment portfolio and changes in its value over the reporting period:

Fluctuations of stock and commodity prices had the greatest impact on investment portfolio value changes.

V. RETURN ON INVESTMENTS AND RISK INDICATORS OF THE COLLECTIVE INVESTMENT UNDERTAKING

19. Benchmark index (if selected) and its brief description:

Information is provided in the annual report.

20. Change in unit (share) value for the same period, change in annual return (gross and net) on investments, and change in value of benchmark index (if selected), and other indicators over the last 10 years of the fund's operation:

Information is provided in the annual report.

21. Average return on investments, average change in value of investment unit and average change in value of benchmark index (if selected) over the last three, five, ten years (average net return on investments, average change in unit value and average change in value of benchmark index are calculated as a geometric mean of annual changes in net return on investments, annual changes in unit value and annual changes in value of benchmark index, respectively):

Information is provided in the annual report.

22. Other indicators revealing the risks pertaining to the investment portfolio:

Information is provided in the annual report.

VI. FINANCIAL POSITION OF THE COLLECTIVE INVESTMENT UNDERTAKING

23. The financial statements of the collective investment undertaking have been prepared in accordance with the requirements of the Lithuanian laws and legal acts:

23.1. Statement of net assets:

23.3. Explanatory notes.

23.3.1. General information:

Details of the collective investment undertaking:

Name	INVL Russia TOP20 Subfund
Type, legal form	Open-ended type special investment fund for investments in transferable securities, with no rights of a legal entity
Date on which the Securities Commission (currently the Bank of Lithuania) approved the documents on the formation of the collective investment undertaking	29 October 2010
Duration of operation	Indefinite period
Location	Vilnius

Details of the management company:

Name	INVL Asset Management UAB
Company code	126263073
Office address	Gynėjų str. 14, LT-01109 Vilnius
Register at which all data about the undertaking is stored and compiled	State enterprise Centre of Register, Vilnius branch
Telephone number	8 700 55 959
Fax number	8 5 279 06 02
Email address	info@invl.com
Website address	www.invl.com
Licence No	VJK-005
Manager of the collective investment undertaking, other individuals making investment decisions	Vytautas Plunksnis (Board Member); Tomas Krakauskas (Director of Investment Management Department); Vaidotas Rūkas (Head of Funds Management); Dainius Bložė (Fund Manager).

Details of the depository:

Name	SEB bank AB
Company code	112021238
Office address	Gedimino av. 12, LT-01103 Vilnius
Telephone number	(8-5) 268 28 00
Fax number	(8-5) 268 23 33

Details of the audit company engaged to audit the annual financial statements:

Name	PricewaterhouseCoopers UAB
Company code	111473315
Office address	J.Jasinskio 16B, LT-03163 Vilnius
Telephone number	(8-5) 239 2300

Reporting period

From 1 January 2016 to 30 June 2016.

23.3.2. Accounting policies:

Regulatory legislation adopted in the preparation of the financial statements

INVL Asset Management UAB manages the assets of the subfund, keeps the subfund's accounting records and prepares its financial statements in compliance with Business Accounting Standards (BAS), Lithuanian Law on Accounting, Lithuanian Law on Collective Investment Undertakings and other legal acts. The subfund's assets are denominated in the euros, however, investments may be made in different foreign currencies. The management company uses derivative financial instruments to mitigate the negative effects of fluctuations in foreign exchange rates.

The financial year of the subfund coincides with the calendar year. The subfund's financial statements are prepared within four months following the end of the financial year. The fund's accounting records are kept in euros, and all amounts in these financial statements have been presented in an official currency of the Republic of Lithuania. As from 1 January 2015, Lithuania joined the euro area and adopted euro as its official currency. Between the period from 2 February 2002 to 31 December 2014, the litas was pegged to the euro at an exchange rate of LTL 3.4528 to EUR 1. The subfund converted the accounting records and the comparative figures from LTL to EUR in line with Business Accounting Standard 40 *Adoption of Euro*. No gain or loss was recognised on change of official currency.

Investment policy and structure of investment portfolio

The subfund's objective is to strive for maximum return on investments in shares of Russian companies.

The subfund's assets are invested in the financial instruments of entities (companies and CIUs investing in such companies) operating in the Russian Federation. The subfund's investment portfolio mostly comprises investments in shares. No more than 33% of the subfund's assets may be invested outside the territory of Russian Federation in the financial instruments of companies operating in other CIS countries (including the former CIS countries). The subfund's investments are based on strategic and tactic approach of distribution of assets and frequent adjustments to the portfolio to ensure higher growth of portfolio value.

The subfund's portfolio comprises the shares of 15-25 different companies. Low diversification of the subfund's investment portfolio allows ensuring maximum control over the selected positions and effective subfund structure. Up to 100% of the subfund's investment portfolio consists of investments in shares.

When no better investment possibilities are available in the market, up to 10% of the subfund's assets may be invested in bonds and other forms of non-equity securities (government and corporate). The subfund's investments may be made in bonds with different maturity and credit rating.

INVL Russia TOP20 Subfund invests in shares of developing markets that have significant fluctuations in prices, therefore, continuous changes on stock exchanges may give rise to substantial fluctuations in the subfund's net asset value.

Financial risk management

The subfund's assets are invested in the following financial instruments in line with the defined objectives and investment policy of the subfund:

- shares, depository receipts in respect of shares and harmonised investment units (shares) of collective investment undertakings with primary investment trend focused on shares, depository receipts in respect of shares;
- bonds and other forms of non-equity securities and harmonised investment units (shares) of collective investment undertakings with primary investment trend focused on bonds and other forms of non-equity securities;
- other securities which carry the right to acquire or dispose of the transferable securities or which result in cash settlements set on the basis of transferrable securities, currencies, interest rates, yield, commodities and other indices and instruments;
- other harmonised investment units (shares) of collective investment undertakings with primary investment trend focused on transferrable securities, raw materials, commodities, currencies, interest rates, yields, other indices;
- special collective investment undertakings (alternative investment, private equity, real estate) and collective investment undertakings that are not regulated under the Lithuanian Law on Collective Investment Undertakings (investing directly in commodities, raw materials, currencies, etc.);
- money market instruments and harmonised investment units (shares) of collective investment undertakings with primary investment trend focused on money market instruments;
- deposits held with credit institutions;
- derivative financial instruments linked with the above-mentioned financial instruments, financial indices, interest rates, currencies or exchange rates, provided they are used for risk management purposes.

23.3.2. Accounting policies (continued)

The subfund's investment portfolio should be composed in compliance with the investment portfolio's diversification requirements and investment restrictions as set forth in the Lithuanian Law on Collective Investment Undertakings.

The subfund's exposure to financial risks is managed through the diversification of the investment portfolio based on diversification principles defined in the fund's rules.

The Investment Committee decides on the composition of the subfund's investment portfolio in view of the current risk level of the portfolio and the effects of decisions made on the overall risk level of the portfolio. The subfund's portfolio risk is assessed periodically and reported at the Meeting of the Investment Committee at least on a quarterly basis.

The subfund's investment portfolio risk is assessed on the basis of constituent securities in view of:

- issuer's credit rating;
- price sensitivity to interest rate shifts;
- historical and expected fluctuations in price of nominal currency;
- maturity;
- yield;
- weight of securities in total investment portfolio.

No more than 20% of the subfund's net assets may be invested in transferable securities and money market instruments issued by companies of the group, which is required to prepare the consolidated financial statements.

Shares held by the subfund together with the management company or other managed collective investment undertakings in an issuing body may not carry over 1/10 of the voting rights at the issuer's general meeting of shareholders.

The subfund may acquire no more than as follows:

- 10% of the non-voting shares of an issuing body;
- 10% of the debt securities and other forms of non-equity securities of an issuing body;
- 25% of the units or shares of another collective investment undertaking;
- 10% of the money market instruments of a single issuing body.

The management company reviews the investment strategy at least once during a 3-year period and makes amendments, if necessary.

Policies for recognition of increase and decrease in assets and liabilities

Calculation of net asset value (NAV) includes as follows:

- value of assets;
- value of liabilities;
- difference between the value of assets and the value of liabilities reflects the value of net assets.

Calculation of assets and liabilities is based on their fair value, which reflects the value of net assets, at which the sale of these assets are mostly probable.

Financial assets are recorded when the subfund receives or obtains a contractual right to receive cash or any other financial assets. Planned transactions, guarantees and sureties received are not recognised as assets of the subfund for as long as they do not meet the definition criteria of financial assets. Assets acquired are recorded on the date of settlement.

Financial liabilities are recorded when the subfund assumes a commitment to pay cash or any other financial assets. Planned transactions, guarantees and sureties granted but not yet executable are not recognised as liabilities of the subfund for as long as they do not meet the definition criteria of financial liabilities.

23.3.2. Accounting policies (continued)

Liabilities are calculated in line with the requirements of Business Accounting Standards. Liabilities (or part of them) are written off only when they extinguish, i.e. when contractual liabilities are settled, annulled or have expired.

When calculating the value of net assets, the value of assets and liabilities denominated in foreign currencies is determined using the accounting exchange rate of the euro against foreign currencies published by the Bank of Lithuania and effective on the valuation date.

Rules on deductions to the accumulating company and the depository

The fee charged by the management company for the management of the subfund is paid from the subfund's assets.

The fee to the management company includes as follows:

- performance fee – no more than 15 (fifteen) percent on increase in the subfund's net asset value;
- management fee – no more than 1.5 (one point five) percent on the subfund's average annual net asset value.

The fee to the management company does not include the fee charged by the management company for the distribution and change of the subfund's units (subfund change fee is charged on change of the subfund's units into the units of another subfund):

The sale price of the subfund's unit is equal to the sum of the value of the subfund's unit and no more than 2 (two) percent of the fee to cover distribution costs.

The change price of the subfund's unit is equal to the sum of the value of the subfund's unit and no more than 0.25 percent of the fee to cover subfund change costs.

The distribution/subfund change fees that are included in the sale/change price of the subfund's unit are paid by the participant for the subfund's units acquired under the agreement for purchase/sale of the fund's units.

The distribution fee and subfund change fee are not included in the calculation of net asset value.

The fee to the management company is calculated on accrual basis on each business day on the basis of the subfund's net asset value and increase in the value of the subfund's unit on that day following the principle of simultaneity. The fee to the management company is payable on a monthly basis by the 10th (tenth) calendar day of the following month.

The calculation period for performance fee is from 1 January to December 31 of each calendar year. The performance fee is calculated on the basis of the *High Water Mark* principle. The performance fee is calculated on each business day by deducting the performance fee from daily increase in the value of the subfund's unit as defined in the fund's documents. Under the High water mark principle, the performance fee is deducted from the daily increase in the value of the subfund's unit only when the value of unit is higher than any of the previous values of the fund's unit.

After the end of the calendar year, the rate of asset management fee is reviewed. All overpayments during the calendar year are refunded to the subfund over 30 (thirty) calendar days after the end of the financial year, and all underpayments should be covered to the management company by the subfund over 30 (thirty) calendar days after the end of the financial year. Overpayments refunded by the management company to the subfund are added to the subfund's net asset value.

The fee to the depository for the services rendered by the depository under the agreement is paid from the subfund's assets and it may be no more than 0.5 (point five) percent of the subfund's average annual net asset value.

The fee to the depository represents the fee charged on:

- the services of the depository; it is calculated on accrual basis on each business day on the subfund's net asset value. The fee is calculated based on assumption that one year has the actual number of business days;
- custody of the subfund's assets; it is calculated on accrual basis on each business day on the value of securities and in view of the country of custody. The fee is calculated based on assumption that one year has the actual number of business days;
- movements on the accounts of financial instruments; it is calculated on each business day of transactions in the accounts of financial instruments.

The fee to the depository is payable for each preceding quarter by the 10th (tenth) day of the following quarter.

After the end of the calendar year, the rate of asset custody fee is reviewed. All overpayments during the calendar year are refunded to the fund over 30 (thirty) calendar days after the end of the financial year, and all underpayments should be covered to the depository by the fund over 30 (thirty) calendar days after the end of the financial year.

Overpayments refunded by the depository to the fund are added to the fund's net asset value.

23.3.2. Accounting policies (continued)

Investment valuation methods, investment revaluation intervals

- The fair value of financial instruments traded on regulated markets of the Baltic states (Riga, Tallinn or Vilnius Stock Exchange) is determined with reference to the average quoted market price on the date of valuation, and the fair value of financial instruments traded on other than aforementioned regulated markets is determined with reference to the closing price, except when:
 - the financial instruments have been quoted on several regulated markets, in which case their fair value is based on the inputs of the regulated market, which has a higher liquidity, regularity and frequency of trade in these financial instruments;
 - based on the defined criteria, it is impossible to select reasonably the market, the inputs of which should be used to determine the fair value of the financial instrument, in which case the fair value is based on the inputs of the regulated market, in which the issuer's registered place of business is located;
 - the financial instrument has not been quoted during the last trading session, in which case the fair value is based on the last known average market price or closing price, however not more than 30 calendar days ago, if no events have occurred since the last trading date that would make the current market price significantly lower or higher than the last known price;
 - the financial instrument has not been quoted for more than 30 calendar days as at the valuation date or has been quoted less frequently than defined in the management company's procedure for the calculation of the fund's net assets, in which case the fair value is determined similarly as for the financial instruments that are not traded on regulated markets.

The procedure for valuation of financial instruments that are not traded on regulated markets is as follows:

Equity securities

- based on the valuation of independent business valuer qualified to be engaged in such activities, unless no more than 1 year has passed after the valuation and no events have occurred after the valuation that would make the current market price significantly lower or higher than that determined by the valuer;
- when the above-mentioned valuation is not available or the above-mentioned conditions are not met, the valuation is based on earnings (before tax) per share (using the weighted average number of shares in issue during a certain period) of a comparable company multiplied by earnings per share of the company in question;
- when due to certain reasons the above-mentioned valuation techniques cannot be used, the valuation is based on the probable selling price determined under the selected valuation technique defined in the management company's procedure for the calculation of the subfund's net asset value, which is generally accepted and widely applied in the finance market;

The valuation of debt securities and money market instruments is made in accordance with the methodology for the calculation of net asset value approved by the Bank of Lithuania or based on the following valuation techniques if they reflect more accurately the value of these financial statements:

- profitability of Lithuanian securities is determined with reference to the average profitability, given the lowest bid price and the highest ask price for particular issue of securities on that day provided by at least three primary dealers (SEB Bankas AB, DNB Bankas AB, Swedbank AB);
- the fair value of foreign securities and non-quoted securities is determined under one of the following methods:
- based on profitability data and (or) prices provided by Bloomberg, Reuters or any other international news agencies, information sources;
- based on the value of securities with analogous maturity, analogous rating and similar issue conditions;
- based on the probable selling price determined under the valuation technique of relevant financial instrument defined in the management company's procedure for the calculation of the subfund's net asset value;
- where it is impossible to determine the price of securities based on the above-mentioned methods, the value of securities is determined under the accumulated interest method (by amortising the value of securities).

The value of derivative financial instrument is determined with reference to the last market price of previous analogous transaction, provided there were no significant changes in economic circumstances over the period from the date of transaction to the date of valuation. If this condition is not met, the valuation is based on the probable selling price determined under the selected valuation technique defined in the management company's procedure for the calculation of the subfund's net asset value, which is generally accepted and widely applied in the finance market; the valuation of units (shares) of collective investment undertakings is based on the last quoted redemption price.

Dividend income is recognised when the right of the shareholders to receive their payment is approved.

23.3.2. Accounting policies (continued)

The valuation of time deposits held in banks is based on the amortised cost.

The valuation of cash and cash held in credit institutions is based on the nominal value.

The valuation of money market instruments with the redemption term or the remaining time to redemption not longer than 397 days or with yields regularly updated in line with money market conditions at least once during 397 days, or the risk of which (including credit and interest rate risks) is very similar to the risk of financial instruments, the redemption term and yields of which satisfy the aforementioned characteristics, may be based on the amortised cost method.

The valuation of other assets is based on the probable selling price determined under the selected valuation technique defined in the management company's procedure for the calculation of the subfund's net asset value, which is generally accepted and widely applied in the finance market.

The valuation of all investments is conducted on each business day.

Rules on valuation of investment units

The initial value of the subfund's unit, which was available before the first calculation of net asset value, was equal to EUR 28.9620 (twenty eight euros point nine thousand, six hundred and twenty euro cents).

The subfund's net asset value for the current day is calculated by midday (12am) of the following day.

The value of the subfund's unit is calculated by dividing the subfund's net asset value by the number of all subfund's units in issue as at the date of calculation. The total value of all units of the subfund is always equal to the subfund's net asset value. The value of the subfund's unit is determined as four figures after the decimal point and rounded according to the mathematical rules of rounding.

The value of the subfund's unit is announced not later than by midday (12am) of the following day after the calculation of net asset value, on the website at address: www.invl.com.

Cash and time deposits

Cash includes cash balances at accounts opened with credit institutions, overnight deposits and deposits with undefined maturity the repayment of which may be demanded in full or in part at any time without losing accumulated interest thereon (demand deposits).

Time deposits include a deposit amount with the specific deposit repayment date indicated in the deposit agreement, including the deposits with maturity of three months or less that cannot be taken from the account opened with the credit institutions without losing accumulated interest thereon. Time deposits are shown with accumulated interest thereon.

Amounts receivable and amounts payable

Amounts receivable represent amounts due to the subfund on sale of investments, amounts due on guarantee contributions and other amounts receivable under contracts. Amounts receivable also include amounts due from the management company that upon receipt are deducted from expenses for the reporting period, other than those defined in the subfund's rules or which exceed the established limits.

Amounts payable represent amounts due to other subfunds to which the participant move, amounts due to the participants or their beneficiaries, amounts due to the distributors, amounts payable under the service agreement, and other amounts payable and receivable not specified elsewhere.

Subsequent events

Significant events subsequent to the end of the reporting period have been disclosed in Note 14.

23.3.3. Notes:

Note 1. Net asset value, number and value of units

Information is provided in the report's Clause 5.

Note 2. Number and value of units distributed and redeemed over the reporting period

Information is provided in the report's Clause 6.

Note 3. Investment portfolio structure

Information is provided in the report's Clause 11.

Note 4. Breakdown of investments by the criteria that meet the investment strategy

Information is provided in the report's Clause 12.

Note 5. Change in value of investments

Items reported in the statement of net assets	Change					Balance at 30 June 2016
	Balance at 31 December 2015	Acquired over the period	Sold (redeemed) over the period	Increase in value*	Decrease in value*	
Time deposits	-	-	-	-	-	-
Money market instruments	-	-	-	-	-	-

Note 6. Results of sale of investments

During the first six months of year 2016, the undertaking had no sale transactions involving financial instruments other than those measured at fair value.

Note 7. Derivative financial instruments

Information is provided in the report's Clauses 13, 14 and 15.

Note 8. Costs of intermediary fees

Information is provided in the report's Clause 8.

Note 9. Dividends and other benefits assessed and/or paid to the participants that do not result in changes in units

Information is provided in the report's Clause 26.

Note 10. Borrowings and loans granted

Information is provided in the report's Clause 27.

Note 11. Third-party guarantee commitments in respect of the undertaking's yield

There were no third-party guarantee commitments in respect of the undertaking's yield as at the end and over the reporting period.

Note 12. Related-party transactions over the financial year and previous financial year

No transactions were drawn with the related persons during the reporting period.

Note 13. Significant effect of changes in accounting estimates, or if these were not made, adjustments to comparative information due to changes in accounting policies or correction of errors

During the reporting period from 1 January 2016 to 30 June 2016, the fund applied accounting policies consistent with those applied in the previous year.

Note 14. Brief description of significant events after the end of the reporting period, that, if not disclosed, might have material impact on the ability of users of these financial statements to make decisions

Here were no significant changes in assets and liabilities after the period closed.

Note 15. Significant changes in assets and liabilities that occurred after the date of calculation net asset value and that were not included in net asset value

There were no significant changes in assets and liabilities after the end of the reporting period.

Note 16. Other significant information on the financial position of the collective investment undertaking, factors and circumstances that had impact on assets and liabilities of the collective investment undertaking

There is no other significant information on the subfund's financial position.

24. The full text of the audit's conclusion:

Information provided in the annual report.

25. Information on investment income and expenses of the collective investment undertaking over the reporting period:

I.	Income from investing activities	-
1.	Interest income	-
2.	Realised gain (loss) on investment in:	109.054
2.1.	equity securities	42.961

1.4.	audit fee	631
1.5.	deductions of other fees and charges	6.016
2.	Other expenses	54
	Total expenses	51.511
III.	Net income	973.372
IV.	Payments (dividends) to holders of investment units	-
V.	Re-invested earnings	973.372

26. Other significant information on the financial position of the collective investment undertaking, factors and circumstances that had impact on assets and liabilities of the collective investment undertaking:

There is no other significant information on the subfund's financial position.

VII. INFORMATION ON PAYMENT OF DIVIDENDS

27. Information on dividends declared and/or paid:

The fund did not pay and did not account for any dividends payable to its clients over the reporting period.

VIII. INFORMATION ON COLLECTIVE INVESTMENT UNDERTAKING'S BORROWINGS FOR ITS OWN NEEDS

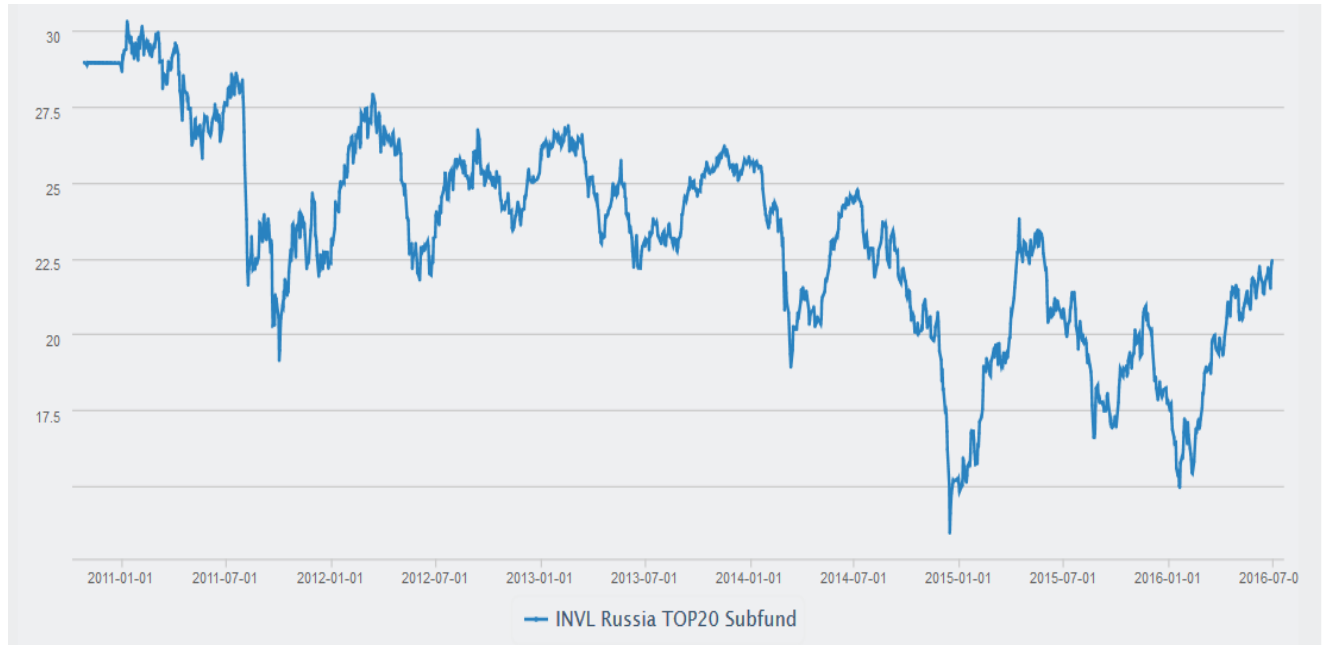

28. Collective investment undertaking's borrowings for its own needs as at the end of the reporting period:

The fund had no borrowings for its own needs as at the end and over the reporting period.

IX. OTHER INFORMATION

29. Explanations, comments, graphic illustrations and other important information on the activities of collective investment undertaking enabling the investor to assess appropriately all changes in and results of operations of the undertaking:

Picture 1. Change in value of unit since start of the fund's operations

X. ACCOUNTABLE PERSONS

30. First and last names (names of legal entities), addresses, titles and registration numbers of permits to engage in relevant activities of consultants whose services were used in the preparation of the financial statements (finance dealer firms, auditors, etc.):

No services of consultants were used in the preparation of these financial statements.

31. First and last names, job titles and workplace of persons who prepared the financial statements (if other than employees of the company):

The financial statements were prepared by the employees of the management company.

32. Statement made by the management company's head of administration, chief financier, persons who prepared the financial statements and consultants to confirm that information contained in the financial statements is true and fair and that there are no omissions of facts that might substantially affect the values of reported items:

I, Darius Šulnis, Director General of INVL Asset Management UAB, hereby confirm that information contained in these financial statements is true and fair and that there are no omissions of facts that might substantially affect the values of reported items.

(signature)

I, Aušra Montvydaitė, Head of Funds Accounting of INVL Asset Management UAB, hereby confirm that information contained in these financial statements is true and fair and that there are no omissions of facts that might substantially affect the values of reported items.

(signature)

33. Persons responsible for information contained in these financial statements:

33.1. Members of the undertaking's managerial bodies, employees and head of administration responsible for the preparation of financial statements;

Full name	Darius Šulnis	Aušra Montvydaitė
Job position	Director General	Head of Funds Accounting
Telephone number	8 700 55 959	8 6 264 5582
Fax number	8 5 279 06 02	8 5 279 06 02
Email address	darius.sulnis@invl.com	ausra.montvydaite@invl.com

33.2. When the financial statements have been prepared by or with assistance of consultants, please specify their full names, telephone and fax numbers, email addresses (if a consultant is a legal entity, please specify its name, telephone and fax numbers, email address and full name(s) of a consultant's representative(s)); please indicate, which specific sections have been prepared by or with assistance of consultants and the scope of their liability.

No services of consultants were used in the preparation of these financial statements.
