FINANCIAL INFORMATION

(All amounts are in EUR thousand, unless otherwise stated)

Basis of preparation

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017, as described in those annual financial statements.

The accompanying interim financial information for the period ended 31 March 2018, has been prepared in accordance with IAS 34, 'Interim financial reporting'. This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2017, which have been prepared in accordance with IFRS as adopted by the EU.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods are addressed below.

Income taxes

Tax authorities have right to examine accounting records of the Company and its Lithuanian subsidiaries at any time during the 5 year period after the current tax year and account for additional taxes and fines. In the opinion of the Group's management, currently there are no circumstances which would raise substantial liability in this respect to the Group.

The Group has created deferred tax liability on revaluation amounts of investment property and own assets. The applicable tax rate used was 15%, as it is planned that assets will be realized (if will be realized) after 2013 when the 15% corporate tax effect will be applicable to all Group's entities (except for the agricultural subsidiaries which are currently taxed at lower transition tax rate of 5%).

Business combinations

On 26 of February 2018 AUGA group AB has completed the purchase of 100% share of Raseinių agra UAB for EUR 2.4 million. Raseinių agra UAB was established in October 2017 as a result of spin-off procedure from Agra Corporation UAB, shareholders of which decided to withdraw from agricultural business and to focus in the area of investment property management. Raseinių agra UAB manages around 5,200 ha of agricultural land. The preliminary fair value estimation of Raseinių agra UAB is as follows:

Decision to form a reserve for granting Company's shares to employees

Based on shareholders' meeting on 30 April 2018 the Group decided to form a reserve of 3,300,000 ordinary registered shares of the Company with a total value of EUR 957 thousand. Shares may be granted until the next ordinary general meeting of shareholders, according to the terms of the rules for granting Company's shares to employees and (or) members of the bodies of the Company.

Regulatory oversight actions regarding Valuation report of the eTime invest UAB shares

The issue concerning claims of the Supervisory Service of the Bank of Lithuania (**Supervisor**), that valuation of UAB eTime invest (**eTime**) shares, by which as contribution in kind part of the shares of the Company has been paid up by Vretola Holdings Limited (**Vretola**), may be incorrect and hence part of the Company's shares may be not fully paid up, has not yet been finally settled.

Brief chronology of the main steps of the process as well as update on the most recent developments is provided below. More detailed description may be found in the previous annual consolidated financial statements of the Company (i.e. those of the years 2015, 2016 and 2017) as well as in respective material events announcements in relation thereto, which could be accessed at and www.auga.lt websites.

On 14.02.2014 the Company and some of its major shareholders (including Vetola) have executed merger agreement with UAB Baltic Champs Group (**BCG**) and Kestutis Juscius. Merger transaction under the latter merger agreement has been closed on 15.04.2014 (**Merger**). One of the constituent parts of the Merger transaction was increase of the Company's capital by issuing new shares, part of which was subscribed and acquired by BCG, which paid them up by contribution in kind, i.e. 100% of the shares of UAB Baltic Champs; whilst the remaining part of the newly issued shares (i.e. 14,151,252 shares with a nominal value of LTL 1 (equivalent of EUR 0.29) each) was subscribed and acquired by Vretola, which paid them up by contribution in kind, i.e., 100% of the shares of UAB eTime invest (herein eTime shares - **Assets**).

For the purposes of using the Assets as payment for part of the shares of the Company, the Assets were valued by Ober-Haus nekilnojamosis turtas UAB. According to their valuation report of the Assets (**First Valuation Report**), value of the Assets for the date of 28.02.2014 was LTL 16,700,000 (equivalent to EUR 4,836,654.31). In 02.2015 Supervisor forwarded to the Company conclusion (**Conclusion 1**) of the Authority of Audit, Accounting, Property Valuation and Insolvency Management (**Valuation Authority**) stating that the First Valuation Report does not comply with some provisions of the Law on Fundamentals of Property and Business Valuation.

On the basis of, amongst other issues, the Conclusion 1 on 15.02.2016 Supervisor decides that value of the Assets may be ungrounded, as a result of which part of the Company's shares issued during the Merger may be not fully paid up. Supervisor ordered the Company to re-evaluate (obtain new retrospective valuation) of the Assets and, if it would be established that the shares of the Company are not fully paid up, to rectify the situation (**Decision**).

On 18.03.2016 the Company filed a claim (**Claim**) to the competent administrative court of first instance challenging the Decision. On 19.12.2016 court of first instance rejects the Company's Claim; Company files an appeal against decision of first instance court on 19.01.2017. The hearing of the court of appeal took place in a written procedure on 18 April 2018. The Supreme Administrative Court of Lithuania sustained part of the Decision, requiring the Company to re-evaluate true value of 100 per cent of shares in UAB "eTime invest", used for payment of part of authorized capital of the Company, and in case the conclusion would have been reached that shares in the Company were not fully paid, to rectify situation as required according to applicable laws and regulations by 1 May 2016. The remaining disputed parts of the Decision (regarding warning and instruction to retrospectively correct financial accounts for year 2015) were referred back to a court of the first instance.

During the year 2017 the following has occurred:

- (1) Irrespective of the fact that the Company has been challenging the Decision and Claim has not been finally settled in courts, Supervisor has fined the Company (EUR 3,000 and EUR 14,000) and its general manager (EUR 150) for failure to implement the orders provided in the Decision.
- (2) Even though the Company has challenged the Decision in court, seeking to reduce potential negative consequences (further fines, etc.) to the Company and its stakeholders, the Company has ordered new retrospective valuation of the Assets to prove that the shares are duly paid/value of the Assets has been established correctly. New valuation report of the Assets was made and delivered to the Company by UAB Newsec Valuations on 02.10.2017 (**Second Valuation Report**). According to the Second Valuation Report, value of the Assets at the time for which they were valued (i.e. 15.04.2014) was LTL 16,900,000 (equivalent of EUR 4,894,578.31), i.e. LTL 200,000 (equivalent to EUR 57,924) higher than the value established in the First Valuation Report.

Regulatory oversight actions regarding Valuation report of the eTime invest UAB shares (continued)

Although during the process of second valuation valuers consulted both with the Supervisor and Valuation Authority, as well as supplemented the report in accordance with Valuation Authority's comments, it (Valuation Authority) nonetheless on 21.02.2018 issued its conclusion (**Conclusion 2**) that Second Valuation Report does not comply with some provisions of the Law on Fundamentals of Property and Business Valuation. After having reviewed the Valuation Authority's findings in the Conclusion 2 and discussed them with the valuers, the Company believes that items identified by the Valuation Authority as non-compliant with the law are of formalistic nature and should not materially impact the value of the Assets established by valuation/provided in the Second Valuation Report. Therefore, as well as in order to facilitate resolution of the matter as efficient and with as less potential negative impact as possible, the Company has agreed with the same valuers that they will issue new valuation report of the Assets, which will address Valuation Authority's comments of alleged non-compliance with laws provided in the Conclusion 2. The Company received new valuation report from the valuers and provided it to the Supervisor.

- (3) On 09.02.2018 eTime has concluded an agreement for sale of all its assets (i.e. participatory units in OOO Karakash Agro as well as claim rights to the latter company under the loan agreements) for EUR 3,082 million (i.e.: EUR 0.5 million for participatory units; and EUR 2.58 million for claim rights) plus up to EUR 0.78 million of interest, which may accrue on the price of claim rights until its final settlement.

Participatory units of OOO Karakash Agro and claim rights, which have been sold under the latter transaction, constituted almost all assets of eTime at the time for which eTime shares were valued (i.e. constituted the value of the eTime shares). Hence, in the opinion of the Company, sale of eTime assets in 2018 for the price close to the value of eTime shares, as established by the first and second valuations, is a strong indicator that, contrary to the allegations of the Supervisor, the value established by the two valuations was not incorrect and thus respective part of the shares of the Company should not be deemed as not fully paid up.

The financial statements of the Group and the Company continue to reflect the share capital issued to Vretola Holdings Limited in exchange of the in-kind contribution of the eTime shares as fully paid-up at 31 March 2018 as well as 31 December 2017. Management of the Company believes that it adheres to IFRS and its financial statements are transparent and reliable.

Termination of acquisition of shares of Arginta Engineering UAB

However, on 14 March 2018 AUGA group AB decided to terminate the share purchase agreement and instead, has chosen to cooperate on technology development with Arginta Engineering on a contractual basis. Following this agreement, AUGA group AB will pay a termination fee of EUR 715 000, due no later than 31 December 2018.
