The accompanying interim financial information for the period ended 30 June 2018, has been prepared in accordance with IAS 34, 'Interim financial reporting'. This financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2017, which have been prepared in accordance with IFRS as adopted by the EU.

The preparation of financial information in conformity with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial information, are disclosed below.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in future periods are addressed below.

Income taxes

Tax authorities have right to examine accounting records of the Company and its Lithuanian subsidiaries at any time during the 5 year period after the current tax year and account for additional taxes and fines. In the opinion of the Group's management, currently there are no circumstances which would raise substantial liability in this respect to the Group.

Dispute with the Bank of Lithuania re value of eTime invest UAB shares and payment for the shares of the Company – settled

There was a dispute between the Company and the Bank of Lithuania regarding the obligation of the Company to re-evaluate the non-monetary contribution and to amend the financial statements according to the international accounting standards, which was already settled.

On 15 February 2016, the Bank of Lithuania obliged the Company to re-evaluate the value of the shares of UAB eTime invest which, as a non-monetary contribution, were used to pay up part of the shares in the Company in 2014 during the merger with Baltic Champs, UAB. The Company appealed the decision of the Bank of Lithuania to the court, however, the first instance court rejected the Company's claim. The Company filed an appeal to the appeal court which sustained part of the above decision, requiring the Company to re-evaluate true value of 100 per cent of shares in UAB eTime invest, used for payment of part of authorized capital of the Company, and in case the conclusion would have been reached that the shares in the Company were not fully paid, to rectify situation as required according to applicable laws and regulations by 1 May 2016. The remaining disputed parts of the decision (regarding warning and instruction to retrospectively correct financial accounts for year 2015) were referred back to a court of the first instance.

In parallel to the above litigation, on 18 May 2018 a repeated retrospective valuation of 100% of shares in UAB eTime invest was completed and a new valuation report issued by UAB Newsec valuations. The Authority of Audit, Accounting, Property Valuation and Insolvency Management under the Ministry of Finance of the Republic of Lithuania checked the respective report on retrospective valuation of 100% of shares in UAB eTime invest of 18 May 2018 and determined on 11 June 2018 that it complied with the requirements of Article 22 of the Law of the Republic of Lithuania on the Bases of Property and Business Valuation. Taking this into account, the above instruction of the Bank of Lithuania has been duly fulfilled, which means that there is no dispute regarding payment for previously issued shares of the Company. Thus, all of them are fully paid-up.
