Significant cirmcustances under which the Company works and which may influence the development of the Company

AB "Gubernija" works in difficult financial conditions and under other indefinite factors which may have influence on the perspectives of the activities for the Company. The Company has been working into a loss already for some years, so due to the loss or the changed conditions in the market and the economic crisis, the activities during the current period are complicated

An average number of employees on the list was accounted following the order No 141 on December 22, 2001 by the Department of Statistics to the Government of Lithuania of the Republic of Lithuania. On 31th March of the last 2010 year there were 192 employees, and on 31th March of the reporting year 2011 there were 186 employees

The interim financial statements are announced on the webpage of the Company http://www.gubernija.lt/.

II. POLICY OF ACCOUNTING

AB "Gubernija" in its practice follows the Laws on Joint-stock companies of the Republic of Lithuania, Laws on the Securities' market, other laws and regulatory acts of the Republic of Lithuania. The Company draws its financial reports in compliance with the Laws on Financial Reporting of the Republic of Lithuania, standards of International financial accountability, and the accounting policy of the Company.

Numbers in the financial accountability are given in a national currency, Litas (Lt). Operations made in a foreign currency are calculated in Litas according to the exchange rate of that day. The financial year of the Company starts on January 1 and is over on December 31.

The financial accountability for 31th December, 2010 is prepared on the base of the continuation of the activities.

III. CONTINUATION OF THE ACTIVITIES

During I quarters of the financial year 2011, the Company experienced a loss of 301 940 Lt. On 31 December, 2011 the private capital of the Company was LTL 8 095 448, and the short-term obligations for 31 March, 2011 overcame the short-term assets by LTL 20 800 876. In the opinion of the management of the Company, it can continue its activities if the interests and actions of the shareholders of the Company will match and will be estimated foresightly. Due to this reason, the financial accountability for 31 March, 2011 is prepared on the base of the continuation of the activities.

IV. PRINCIPLES OF ACCOUNTING

4.1. Intangible assets

The assets, having no material form are referred to the intangible assets which the Company disposes and using which expects to get some financial profit in the future, are accounted by its costprice, the reduced sum of the accumulated amortization and the loss of depreciation.

Amortization is calculated applying the directly proportional (linear) method during the rated periods of gaining some economical profit which match with the 1st annex of the Income Tax Act No.IX-675, the Republic of Lithuania on December 20, 2001 and the reserve acquisition value of which is 100 Lt. The computer software is amortized during the period of 3 years. The sum of amortization rated during the reporting cycle is declared in the report of the gross receipts in the article of the expenditures of the activities.

Expenditure for the maintenance of the intagible assets and other postexpenses are referred to the expenditure of the reporting period when they were experienced. The loss of the decrease of the value for the intangible assets and experienced due to the write-off of the assets are referred to the expenditure of the activities of the Company. Referring the intangible assets in the report of the gross receipts, the result of the contract- profit or loss- is declared in the part of other activities.

4.2. Tangible assests

Tangible assets are the assets, owned and monitored by the Company, which are expected to gain some economical profit in the future periods, which will be used longer than one year, the acquisition (production) costprice can be set credibly, and the value of which is bigger than the set reserve value for the certain group of assets.

Tangible assets are accounted by the acquisition cost price, the sum of the accumulated depreciation and the rated decrease of the value. The depreciation is not calculated for the land.

The depreciation is calculated applying the directly proportional (linear) method, depreciating the value of the assets to the residual value during the prospective period when the assets are used usefully. Depreciation is begun being calculated since the date of the next month when the assets are begun to be used. Expenditures of the depreciation is referred to the expenditures of the activities of the Company.

The Company applies the periods for the running of the long- term tangible assets which match with the 1st annex of the Income Tax Act No.IX-675, the Republic of Lithuania on December 20, 2001.

The assets are considered as the long- term if the period of their usage is longer than one year and the acquisition value is not less than LTL 100.

The profit or loss from the sale of the long-term tangible assets is defined as the difference between the incomes and the residual value for the ceded long-term tangible assets and is acknowledged in the report of the gross receipts as other incomes or expenses from the activities.

The acquisition cost price is increased by the value of the performed maintenance/ repair works and the period of the useful usage for these assets is specified, if the repair works of the long- term tangible assets extend the period of the useful usage for these assets and improve their utility. The value of the repair works is acknowledged as the expenses for the activities of the reporting cycle, if such repair works do not improve their utility and do not extend the period of the useful usage for these assets, but only maintain the suitable condition for exploitation.

4.3. The financial assets

The financial assets are registered only then when the Company gets or acquires the right to get money or other financial assets. The financial assets are acknowledged in the acquisition value for the first time, and later every day of performing the financial accountability depending on the aim of the assets acquisition:

- The financial assets for resale- by its real value;
- Long-term loans and receivable sums till the redemption- by the amortized cost price;
- Short- term loans and receivable sums till the redemption- by the cost price less depreciation;

The Company writes-off the financial assets or the part of them only when it loses the right to control the assets or the part of them. After ceding or writing- off the financial assets or the part of them, the result of ceding is declared in the reoprt of the gross receipts.

The profit or loss due to the changes of the true value for the financial assets is acknowledged in the reoprt of the profit (loss). The sum of amortization for the financial assets, rated by the amortized cost price for the reporting cycle is acknowledged as the income from the financial and investment activities in the report of the gross receipts.

4.4. Financial obligations

Financial obligations are registered in the reports only then when the Company accepts the obligation to pay money or with other financial assets. The Company accepts the financial obligation for the first time by the acquisition cost price, and later every day of performing the financial accountability it rates anew depending on the relation ro the prices in the market and the period of payment: the financial assets related with the prices in the market - by its real value; other long-term financial obligation- by the amortized cost price; other short- term financial obligations- the cost price.

The Company writes-off the fiancial obligation or a part of it only then when the obligation is completed, anulled or does not validate. After ceding or withdrawing the financial obligation the result of the contract is declared in the report of the gross receipts. The profit or loss due to the changes of the true value for the financial obligation is acknowledged in the report of the gross receipts. The sum of amortization for the financial obligation rated by the amortized cost price is acknowledged as the expenses from the financial and investment activities in the report of the gross receipts. The interest and the loss related to the financial obligations must be acknowledged as the expenses in the report of the gross receipts.

4.5. Resources

The acquired resources in the acounting are registered by their acquisition cost price. They are shown by the acquisition cost price or the net value of the prospective realisation in the balance: by the smaller one of those two. The cost price of the sold goods is set following FIFO method of the write-off for the resources of prices. The cost price of the acquisition consists of the acquisition cost price, expenses for transportation and other related expenses.

4.6. Receivable sums

The receivable sums are accounted by the true value. For the prospective decrease of the value for the receivable sums there is a formed reserve according to the investeration of the receivable sums and the evaluation of separate receivable sums.

4.7. Money and money equivalents

Money consists of odds of cash in the till, money on deposit, and odds of money at the trading stands (taken of the electronic cash registers). Money equivalents are made of short- term investment and the ones of the high liquidity which can be converted into cash quickly, the duration of these investments since the date of their acquisition do not overcome the period of three months and such investment is not sensitive for the sugnificant changes of their value.

4.8. Foreign currency

Contracts in the foreign currency are accounted following the official currency exchange rate which is valid on that date. Incomes and the loss from making such contracts and the monetary assets, and the translation of obligations from the foreign currency to the national currency for the end of the period are accounted in the report of the gross receipts.

4.9. Acknowledgement of incomes and expenses

The typical activity of the Company is production and sales of beer and soft drinks.

Incomes are acknowledged when they are earned. Increase of the economical profit for the Company is considered as incomes. The accumulated sums by the third parties and the value added tax are not acknowledged as incomes.

Incomes from the sales of the products are acknowledged when: the Company passes risk related to the sold production to the customer; the Company does not own and control the sold production; it is likely the Company will get some economical profit related to the contract of selling the products and which will be rated credibly; and the expenses related to the contract of selling the products can be rated credibly.

Expenses are acknowledged following the principles of accumulation and comparison during the reporting cycle when incomes related to them are earned without considering the time of payment.

The result of ceding the used long-term tangible and intangible assets, realization of the secondary production, other incomes, or expenses not related to the typical activities, except the financial and investment activities are referred to **other activities**.

Dividends, interest, fines, the incomes or the loss from the investment accounted by the method of the property, the result of ceding the financial assets, the result of the change for the foreign currency exchange rate are referred to **the financial and investment activities**. The income of dividends are acknowledged when the dividends are announced. The fines and the interest are acknowledged as incomes (expenses) when there are such.

4.10. The rent of activities- The Company is the tenant

The rent of the long-term tangible assets when the renter has a significant part from the profit of risk and property is classified as the rent. The fee for renting the activities (less any discounts received from the tenant) are acknowldeged as incomes in the report of the gross receipts proportionally during the whole period of the rent.

4.11. Description of business segments and the ways to spread incomes and expenses for the segments

The main business segments in the Company are selling beer and soft drinks and the service of marketing.

Expenses are spread among the main segments:

- 1. The cost price selling of the production is referred directly, according to the actually sold amount;
- 2. Expenses mentioned below are referred directly: expenses of selling, of the natural loss, of transportation and rent, of salaries, other taxes of activities, of deterioration of long-term tangible assets

Other expenses including utilities and means of communication are spread proportionally to the actual expenses of each segment.

4.12. Profit tax

Profit of the financial year 2011 is the loss is not taxable of 15 percent tax according to the Tax law of the Republic of Lithuania.

The deferred profit tax is accounted applying the obligation method to all temporary differences, occurring among the assets and the taxation base of obligations and their accounting value on the purpose to complete the financial accountability.

The valid tariffs of the profit tax are used for casting the deferred profit tax.

Payable sums of the profit tax in the future reporting cycles, which occur due to the taxable temporary differences, are considered as the obligation of the deferred profit tax. Retrieving sums of the profit tax in the future reporting cycles, which occur due to the ceding of scoring temporary differences and unimproved taxing loss and only in the amount, which the Company credibly expects to earn enough of the taxable profit in the future sufficient to use temporary differences, are considered as the assets of the deferred profit tax.

The assets of the deferred tax and the obligation are acknowledged as long-term. The assets of the deferred profit tax and the obligation are acknowledged when at the same time it is expected to retrieve the assets of the deferred profit tax and refund the obligation assets of the deferred profit tax.

V. THE POLICY FOR ADMINISTRATION THE FINANCIAL RISK

Risk of the sale debts. The Company controls risk of sales with the deferred payment setting the limits for every customer or their group. This risk is being constantly supervised, performing regular reviews of the customers' indebtedness.

Risk for the currency. The Company performs payments with the main suppliers in Euros, besides that considering the fixed ratio of Euro and Litas, and the provided introduction of Euro in the Republic of Lithuania in the future. The Company does not observe any significant risk of the currencies for the further activities of the Company.

Risk for the interest rate. The Company has loans due to which the fluctuation of the interest rate standards do not influence the results from the activities of the Company and do not increase the risk related to the interest rate.

VI. THE POLICY AND PROGRAMMES OF THE COMPANY IN THE SPHERES OF THE ENVIRONMENT PROTECTION, RECLAMATION, AND THE REDUCE OF THE POLLUTION

The policy of the Company is to satisfy all needs of the customers. Offer to match the demand.

To sell production of high quality. To search the market constantly in order to fulfill chosen aims and goals. Big attention is paid to learning of the executives. They participate in seminars and courses. The Company fulfills the task of the Ministry of Environment on the packaging waste collection for the second reclamation in order to reduce pollution of the environment.

VII. PRICING POLICY

There is an economist in the Company who evaluates precisely the structure of the cost price for the sold production, its profitability, and factors, which increase and reduce the profit. He knows the opinion of the customers about the sold production of the Company best. Moreover, he evaluates the pricing policy of the rivals, ductility of the market, economical conditions, and ways of selling. He performs market surveys how the pricing policy or the ways of selling alter for one or another good. The employees of the Company from the Sales department use a modern mobile business management system in everyday activities. Modern technologies enable the Company to shorten significantly the period from taking the order until its fulfillment, to prevent making mistakes in formation of the precise data base for buying and sales. Attention is paid to the advertising and promotional campaigns, and fulfillment of the public relations project.

Considering the actions in sales, the Company plans and sequences the advertising of goods in mass media.

The information system of the Company helps the employees from the Commerce department to monitor the development of sales and make right decisions on time observing the altered conditions in the market of the consumer goods or the economics of the country.
