Economic environment

Since the autumn of 2011, the European economy has experienced a certain degree of cooling. Due to a low level of confidence among undertakings and consumers, stricter fiscal policy and toughening of financing conditions, mostly the economies of southern countries have shrunk. However, long-term loans provided to commercial banks by the European Central Bank have noticeably decreased tensions in the financial system at the beginning of this year. Restlessness and insecurity on financial markets has left its mark on the exporting industrial sector of Estonia, having nevertheless not been transferred to the sectors aimed at the domestic market. Growth continued in the last quarter in the sectors of the Estonian economy. The main risk factor in the development of the Estonian economy continues to be the weak outlook of the European economy, giving reason to expect a further decrease in the export of goods and services. Another factor that has a negative influence on undertakings and consumers is the pressure of inflation caused by a rise in energy prices and housing costs. On a positive note, the continuation of the growth rate in private consumption, so far, can be noted. The increase in consumption is supported by increased employment, growth in real wages and a rise in consumer confidence. In addition, the Estonian economic sentiment indicator - which had been in a downward trend for while - has risen, again this year, and currently indicates that undertakings are expecting a growth in economic activity. The main contributors to economic growth this year are the branches of activity aimed at the domestic market. Hopefully, recovery of the domestic market will balance out the slowing down of export growth, ensuring the continuation of moderate growth by the Estonian economy in 2012.

Main events

Satmatic Oy, a subsidiary of AS Harju Elekter, participated in speciality fairs in Finland: in February, at the fair Sähkö, Tele, Valo and AV in Jyväskylä, and in March, at the Pori construction fair.

To increase its productivity, AS Harju Elekter Teletehnika implemented the well-known principles of 5S from Lean production. 5S is, in a way, a tool that helps to see the value of a product from the customer's point of view and helps to reduce the wasting of resources. As of today, 5S teams have been formed, 5S standards developed, 5S audits are taking place and information boards have been mounted. The production process has been freed from excessive items and expenditure of time. The implementation of cost-efficient processes is continuing and the first major summary will be made in June.

Operating results

The financial indicators of the Group in the accounting year demonstrated significant improvements. Sales revenue increased by 23.8%, gross profit by 35.3% and operating profit 2.3 times.

SALES REVENUE

Sales revenue by segment:

| 1st quarter | Growth | EUR'0 | 00 | Struct | ture |
|------------------------|--------|--------|-------|--------|--------|
| Segment | Q/Q | 2012 | 2011 | 2012 | 2011 |
| Manufacturing | 25.6% | 10,412 | 8,293 | 89.2% | 88.0% |
| Real estate | -2.6% | 661 | 678 | 5.7% | 7.2% |
| Unallocated activities | 31.4% | 598 | 455 | 5.1% | 4.8% |
| Total | 23.8% | 11,671 | 9,426 | 100.0% | 100.0% |

The largest share of sales revenue, 89.2% (88.0%), was provided by production. The sales revenue on production received from customers outside of the Group increased by 25.6% to 10.41 million euros. The economic recovery has brought about a growth in the sales volumes of trade, which is why the sales volume of other non-segmented activities has increased the most (31.4%) in total. From the 143,000 euros sales revenue growth of other non-segmented activities, 100,000 euros was provided by the Swedish subsidiary.

Sales revenue by market:

| 1st quarter | Growth | EUR'0 | 00 | Shar | re |
|--------------------|-------------------------|--------|-------|--------|--------|
| Markets | \mathbf{Q}/\mathbf{Q} | 2012 | 2011 | 2012 | 2011 |

Note 7 Basic and diluted earnings per share

Basic earnings per share have been calculated by dividing the profit attributable to equity holders of the parent by the weighted average number of shares outstanding during the period.

Diluted earnings per share are calculated by considering the effects of all dilutive potential shares. As at the reporting date on 31.3.2012 the Group had 578.4 thousand dilutive potential shares. In accordance with the decision of the General Meeting of Shareholders held on 23 April 2009 the price of a share was established at the level of 1.10 euros. As to the share-based payments regulated by IFRS 2 requirements the subscription price of shares covers the costs of services that employees provide in the future for the share-based payments. The value of service for each issued share determined by an independent expert was 0.55 euros. Thus the subscription price per each share within the meaning of IFRS 2 is 1.65 euros and the potential shares become dilutive only after their average market price of the period exceed 1.65 euros.

| For the period | | January – 31 March | |
|---|---------|--------------------|--------|
| | Unit | 2012 | 2011 |
| Profit attributable to equity holders of the parent | EUR'000 | 580 | 182 |
| Average number of shares outstanding | Pc'000 | 16,800 | 16,800 |
| Basic earnings per share | EUR | 0.03 | 0.01 |
| Adjusted number of shares during the period | Pc'000 | 16,995 | 17,081 |
| Diluted earnings per share | EUR | 0.03 | 0.01 |

The average market price of the share of 1-3/2012 was 2.49 euros (1-3/2011 3.21 euros). The issue of shares would account for 954 thousand euros. In order to obtain the same amount 383.7 thousand (954/2.49) new shares at the average market price, in the comparable period 297.8 thousand (954/3.21) new shares. The difference between the number of dilutive potential shares and the number of shares issued at the market price which is 194.7 thousand shares (578.4-383.7) in 1-3/2012 and 280.6 (578.4-297.8) thousand shares could be interpreted as shares granted free of charge and the average number of shares has been adjusted by that number.
