As at 30 March 2019, the Group had 3,824 employees (31 December 2018 – 3,813), the Company had 105 employees (31 December 2018 – 125).

The Company's management approved these financial statements on 5 September 2019. The Company's shareholders have a statutory right to approve or not to approve these financial statements and require that management prepare a new set of financial statements.

## 2 Accounting principles

### 2.1. Basis of preparation

Condensed interim financial information of the Lietuvos Energija UAB (hereinafter - the Company) and consolidated condensed interim financial information of the Company and its subsidiaries (hereinafter – the Group) for a three-month period ended 31 March 2019 has been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and applicable to interim financial reporting (International Accounting Standard (IAS) 34, 'Interim financial reporting'). This unaudited condensed interim financial information should be read together with the annual financial statements for the year ended 31 December 2018, which have been prepared in accordance with IFRS as adopted by the EU.

Financial year of Company and other Group companies coincides with the calendar year.

The accounting policies applied in the preparation of this condensed interim financial information are consistent with those of the annual financial statements for the year ended 31 December 2018.

#### a) New and amended standards, and interpretations

During six – month reporting period ended 30 June 2019 the Group and the Company for the first time adopted IFRS 16 „Leases“, that had material impact on Group's and Company's financial statements.

*IFRS 16, Leases* (effective for annual periods beginning on or after 1 January 2019). The new standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. All leases result in the lessee obtaining the right to use an asset at the start of the lease and, if lease payments are made over time, also obtaining financing. Accordingly, IFRS 16 eliminates the classification of leases as either operating leases or finance leases as is required by IAS 17 and, instead, introduces a single lessee accounting model. Lessees will be required to recognise: (a) assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value; and (b) depreciation of lease assets separately from interest on lease liabilities in the income statement. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. The value of assets being transferred under the lease agreement and related lease liabilities must be stated in the Group's and the Company's statement of financial position.

The Group and the Company applied IFRS 16 *Leases* starting from 1 January 2019 using the modified retrospective approach for the first time application of IFRS 16.

The Group and the Company performed the calculation of assets transferred according to the lease agreement and related liabilities under IFRS 16. At 1 January 2019, the Company recognised assets and liabilities managed under the right of use, which indicates the impact of the first-time adoption of IFRS 16 on the Company's financial statements. At 1 January 2019, the Group recognised assets and liabilities managed under the right of use, which indicates the impact of the first-time adoption of IFRS 16 on the Group's financial statements. The management of the Group is assessing whether the lease of state-owned land is in compliance with the criteria of IFRS 16.

*b) Impact of new standards' adoption on the the items in the statement of financial position*

The impact of the first-time adoption of IFRS 16 on the items of the Group's statement of financial position is shown in the table below:

|                                      | At 31 December 2018 | IFRS 16  | EUR thousands<br>At 1 January 2019 |
|--------------------------------------|---------------------|----------|------------------------------------|
| <b>ASSETS</b>                        |                     |          |                                    |
| <b>Non-current assets</b>            |                     |          |                                    |
| Property, plant and equipment        | 35.523              | (35.523) | -                                  |
| Right-of-use asset                   | -                   | 46.797   | 46.797                             |
| <b>EQUITY AND LIABILITIES</b>        |                     |          |                                    |
| <b>Non-current liabilities</b>       |                     |          |                                    |
| Lease liabilities                    | 14.334              | 9.843    | 24.177                             |
| <b>Current liabilities</b>           |                     |          |                                    |
| Current portion of lease liabilities | 5.220               | 1.431    | 6.651                              |

The impact of the first-time adoption of IFRS 16 on the Company's financial statements is shown in the table below:

|                                      | At 31 December 2018 | IFRS 16 | EUR thousands<br>At 1 January 2019 |
|--------------------------------------|---------------------|---------|------------------------------------|
| <b>ASSETS</b>                        |                     |         |                                    |
| <b>Non-current assets</b>            |                     |         |                                    |
| Right-of-use asset                   | -                   | 847     | 847                                |
| <b>EQUITY AND LIABILITIES</b>        |                     |         |                                    |
| <b>Non-current liabilities</b>       |                     |         |                                    |
| Lease liabilities                    | -                   | 637     | 637                                |
| <b>Current liabilities</b>           |                     |         |                                    |
| Current portion of lease liabilities | -                   | 211     | 211                                |

*Elected practical expedients on transition where the Group and the Company is a lessee*

Where the Group and the Company is a lessee the following practical expedients are applied on transition on a lease-by-lease basis. The Group and the Company:

1. applies a single discount rate to a portfolio of leases with similar characteristics (such as leases with similar maturity, class of leased asset and economic environment);
2. does apply transitional period adjustments to leases of low value (less than or equal to EUR 4 000).
3. excludes initial direct costs from leases which previously were classified as operating leases by applying the standard at the commencement date to determine the value of the right-of-use assets;
4. uses prior period information, for example, in determining the lease term if the contract provides an option to extend or terminate the lease. Consistently with the IAS 8, prior period information is used only for accounting estimates and judgments and is therefore not applicable to areas such as changes in indices or rates.

IFRS 16 does not specify how a lessee should distinguish and allocate the lease and non-lease components in the contract during the transitional period when the retrospective method is applied. The Group and the Company has chosen to apply a practical measure by accounting for each lease component and any related non-lease component as a single lease component consistently with accounting policy of the Group and the Company.

The Group and the Company has evaluated the assets used under lease contracts and related liabilities based on IFRS 16. As at 1 January 2019, the Group and the Company has accounted for right-of-use assets and liabilities that show impact of the first-time application of IFRS 16 on the Group and the Company's financial statements.

*IFRS 9: Prepayment features with negative compensation (Amendment)*

The Amendment allows financial assets with prepayment features that permit or require a party to a contract either to pay or receive reasonable compensation for the early termination of the contract (so that, from the perspective of the holder of the asset there may be 'negative compensation'), to be measured at amortized cost or at fair value through other comprehensive income. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Group and the Company.

*IAS 28: Long-term Interests in Associates and Joint Ventures (Amendments)*

The Amendments relate to whether the measurement, in particular impairment requirements, of long term interests in associates and joint ventures that, in substance, form part of the 'net investment' in the associate or joint venture should be governed by IFRS 9, IAS 28 or a combination of both. The Amendments clarify that an entity applies IFRS 9 Financial Instruments, before it applies IAS 28, to such long-term interests for which the equity method is not applied. In applying IFRS 9, the entity does not take account of any adjustments to the carrying amount of long-term interests that arise from applying IAS 28. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Group and the Company.

*IFRIC INTERPRETATION 23: Uncertainty over Income Tax Treatments*

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12. The Interpretation provides guidance on considering uncertain tax treatments separately or together, examination by tax authorities, the appropriate method to reflect uncertainty and accounting for changes in facts and circumstances. Management has assessed that adoption of interpretation for the first time had no significant effect on financial statements of the Group and the Company.

*IAS 19: Plan Amendment, Curtailment or Settlement (Amendments)*

The Amendments require entities to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after a plan amendment, curtailment or settlement has occurred. The Amendments also clarify how the accounting for a plan amendment, curtailment or settlement affects applying the asset ceiling requirements. Management assessed that adoption of new standard amendment for the first time had no significant effect on financial statements of the Group and the Company.

The IASB has issued the *Annual Improvements to IFRSs 2015 – 2017 Cycle*, which is a collection of amendments to IFRSs. Management assessed that adoption of improvements for the first time had no significant effect on financial statements of the Group and the Company.

- *IFRS 3 Business Combinations and IFRS 11 Joint Arrangements*: The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.
- *IAS 12 Income Taxes*: The amendments clarify that the income tax consequences of payments on financial instruments classified as equity should be recognized according to where the past transactions or events that generated distributable profits has been recognized.
- *IAS 23 Borrowing Costs*: The amendments clarify paragraph 14 of the standard that, when a qualifying asset is ready for its intended use or sale, and some of the specific borrowing related to that qualifying asset remains outstanding at that point, that borrowing is to be included in the funds that an entity borrows generally.

c) Standards issued but not yet effective and not early adopted

*Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. The amendments have not yet been endorsed by the EU. Management has assessed that adoption of new standard will have no significant effect on financial statements of the Group and the Company.

*Conceptual Framework in IFRS standards*

The IASB issued the revised Conceptual Framework for Financial Reporting on 29 March 2018. The Conceptual Framework sets out a comprehensive set of concepts for financial reporting, standard setting, guidance for preparers in developing consistent accounting policies and assistance to others in their efforts to understand and interpret the standards. IASB also issued a separate accompanying document, *Amendments to References to the Conceptual Framework in IFRS Standards*, which sets out the amendments to affected standards in order to update references to the revised Conceptual Framework. Its objective is to support transition to the revised Conceptual Framework for companies that develop accounting policies using the Conceptual Framework when no IFRS Standard applies to a particular transaction. For preparers who develop accounting policies based on the Conceptual Framework, it is effective for annual periods beginning on or after 1 January 2020.

*IFRS 3: Business Combinations (Amendments)*

The IASB issued amendments in *Definition of a Business (Amendments to IFRS 3)* aimed at resolving the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The Amendments are effective for business combinations for which the acquisition date is in the first annual reporting period beginning on or after 1 January 2020 and to asset acquisitions that occur on or after the beginning of that period, with earlier application permitted. These Amendments have not yet been endorsed by the EU. At the moment Management is assessing the effect of new standard amendment on financial statements of the Group and the Company.

*IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors: Definition of 'material' (Amendments)*

The Amendments are effective for annual periods beginning on or after 1 January 2020 with earlier application permitted. The Amendments clarify the definition of material and how it should be applied. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity'. In addition, the explanations accompanying the definition have been improved. The Amendments also ensure that the definition of material is consistent across all IFRS Standards. These Amendments have not yet been endorsed by the EU. At the moment Management is assessing the effect of new standard amendment on financial statements of the Group and the Company.

The management of the Group and the Company does not believe that other new and amended standards and their interpretations which the Group and the Company is required to apply from 1 January 2019 will have a material effect on financial statements of the Group and the Company.

The Group and Company's management do not believe the newly published standards, amendments and interpretations that are mandatory for the Group's and Company's reporting periods beginning on or after 1 January 2019 will have a material impact on the Group's and Company's financial statements.

Accounting policies applied to significant transactions within the Group in relation to the Group's restructuring are described in Note 3.

## 2.2 Right-of-use asset

Right-of-use asset is an asset, that represents a Company's/Group's right to use an underlying asset for the lease term. Company/Group recognize right-of-use asset to all leases, including leases of right-of-use assets in a sublease, except for leases of intangible assets, short-term leases and leases for which the underlying asset is of low value.

Initial measurement of the right-of-use asset

At the commencement date, Company/Group measures the right-of-use asset at cost. The cost of the right-of-use asset shall comprise: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received; any initial direct costs incurred by Company/Group; and an estimate of costs to be incurred by Company/Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition

required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Company/Group incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period. Company/Group recognize the costs described as part of the cost of the right-of-use asset when it incurs an obligation for those costs.

#### Subsequent measurement of the right-of-use asset

After the commencement date, a Company/Group measure the right-of-use asset applying a cost model. To apply a cost model, Company/Group measure the right-of-use asset at cost: less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability.

Company/Group apply the depreciation requirements in IAS 16 Property, Plant and Equipment in depreciating the right-of-use asset.

If the lease transfers ownership of the underlying asset to Company/Group by the end of the lease term or if the cost of the right-of-use asset reflects that Company/Group will exercise a purchase option, Company/Group shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, Company/Group shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Company/Group presents right-of-use assets separately from intangible and tangible assets in the statement of financial position.

### 2.3 Lease liability

#### Initial measurement of the lease liability

At the commencement date, Company/Group measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, Company/Group use the lessee's incremental borrowing rate.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date: fixed payments, less any lease incentives receivable; variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date; amounts expected to be payable by Company/Group under residual value guarantees; the exercise price of a purchase option if the Company/Group is reasonably certain to exercise that option; and payments of penalties for terminating the lease, if the lease term reflects Company/Group exercising an option to terminate the lease.

Variable lease payments that depend on an index or a rate include, for example, payments linked to a consumer price index, payments linked to a benchmark interest rate (such as LIBOR) or payments that vary to reflect changes in market rental rates.

#### Subsequent measurement of the lease liability

After the initial measurement, Company/Group measure the lease liability by: increasing the carrying amount to reflect interest on the lease liability; reducing the carrying amount to reflect the lease payments made; and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

Interest on the lease liability in each period during the lease term shall be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability. The periodic rate of interest is the discount rate or if applicable the revised discount rate.

After the commencement date, Company/Group shall recognise in profit or loss, unless the costs are included in the carrying amount of another asset applying other applicable Standards, both: interest on the lease liability; and variable lease payments not included in the measurement of the lease liability in the period in which the event or condition that triggers those payments occurs.

#### Reassessment of the lease liability

After the commencement date, Company/Group remeasure the lease liability to reflect changes to the lease payments. Company/Group recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, Company/Group recognise any remaining amount of the remeasurement in profit or loss.

#### Revised discount rate

Company/Group remeasure the lease liability by discounting the revised lease payments using a revised discount rate, if there is a change in the lease term. Company/Group determine the revised lease payments on the basis of the revised lease term or there is a change in the assessment of an option to purchase the underlying asset, assessed considering the events and circumstances described in the context of a purchase option. Company/Group determine the revised lease payments to reflect the change in amounts payable under the purchase option.

If either there is a change in the lease term or there is a change in the assessment of an option to purchase, Company/Group determine the revised discount rate as the interest rate implicit in the lease for the remainder of the lease term, if that rate can be readily determined, or the lessee's incremental borrowing rate at the date of reassessment, if the interest rate implicit in the lease cannot be readily determined.

#### Unchanged discount rate

Company/Group remeasure the lease liability by discounting the revised lease payments, if either:

- there is a change in the amounts expected to be payable under a residual value guarantee. Company/Group determine the revised lease payments to reflect the change in amounts expected to be payable under the residual value guarantee.
- there is a change in future lease payments resulting from a change in an index or a rate used to determine those payments, including for example a change to reflect changes in market rental rates following a market rent review. Company/Group remeasure the lease liability to reflect those revised lease payments only when there is a change in the cash flows (i.e. when the adjustment to the lease payments takes effect). Company/Group determine the revised lease payments for the remainder of the lease term based on the revised contractual payments.

Discounting revised lease payments, Company/Group use an unchanged discount rate, unless the change in lease payments results from a change in floating interest rates. In that case, Company/Group use a revised discount rate that reflects changes in the interest rate.

#### Lease modifications

Company/Group account for a lease modification as a separate lease if both:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification Company/Group:

- allocate the consideration in the modified contract;
- determine the lease term of the modified lease; and
- remeasure the lease liability by discounting the revised lease payments using a revised discount rate.

For a lease modification that is not accounted for as a separate lease, Company/Group account for the remeasurement of the lease liability by:

- decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. Company/Group recognise in profit or loss any gain or loss relating to the partial or full termination of the lease;
- making a corresponding adjustment to the right-of-use asset for all other lease modifications.

Company/Group present lease liabilities separately from other liabilities in the statement of financial position. Company/Group present interest expense on the lease liability separately from the depreciation charge for the right-of-use asset. Interest expense on the lease liability is a component of finance costs, presented in the statement of profit or loss and other comprehensive income.

## 2.4 Income tax

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss.

## 3 Critical accounting estimates and judgements used in the preparation of financial statements

Accounting estimates and judgments are continuously reviewed and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The preparation of financial information according to International Financial Reporting Standards as adopted by the EU requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosures of contingencies. Changes in the underlying assumptions, estimates and judgments may have a material effect on this financial information. The accounting estimates applied in preparing the condensed interim financial information are consistent with those used in preparing the annual financial statements for the year ended 31 December 2018.

#### Correction of error

The Group corrected the identified errors from the previous financial periods during the preparation of these interim financial statement. In 2019, the subsidiary AB „Lietuvos energijos gamyba“ of the Group reviewed financial statements accounting principles for revenues, receivables, and payables related to secondary power reserve, tertiary power reserve, and system restoration services (hereinafter – regulated activities), which are regulated by the National Energy Regulatory Council (NERC). Tariffs for these regulated activities for the next calendar year are set by NERC based on Group and AB „Lietuvos energijos gamyba“ forecasted expenses taking into account planned and factual revenue and expense variance in the prior financial year. In the financial statements, Group and AB „Lietuvos energijos gamyba“ reported regulated activities revenues using the accrual principle based on factual expenses incurred, i.e. regulatory activities revenues were recognized by Group and AB „Lietuvos energijos gamyba“ in such volume, which under NERC methodology, is permissible taking into consideration permissible return on investment and factual expenses for services provided incurred during the period. Due to variance between planned and factual revenues and expenses set by NERC, regulatory activities revenues and corresponding payables and other payables were corrected. Up until now, revenues were recognized in accordance to substance over form principle, following the assumption about NERC's ability to promptly and based on unilateral decision initiate legal act amendments, that would be necessary in order to establish an obligation for the company to refund the difference between mentioned regulatory planned and actual service estimates even if Group and AB „Lietuvos energijos gamyba“ is no longer providing regulatory services mentioned above.

In 2019, by reviewing accounting of previously mentioned operations, it was noted that payable or refundable amounts in the future periods depend on whether or not the Group and AB „Lietuvos energijos gamyba“ will provide these services and will carry them out in the future, i.e. these amounts are related to currently uncompleted agreements, and in such case, provision, contingent liabilities and contingent assets should not be accounted (under Conceptual Framework for Financial Reporting and under IAS 37 “Provision, Contingent Liabilities and Contingent Assets”).

The following retrospective corrections were made in the Group's financial statements:

- 1) As at 31 December 2018 and 1 January 2018 the Group corrected 2016 and 2017 regulatory activities revenues and decreased “Retained earnings” by EUR 289 thousand and in correspondence decreased “Other amounts receivable” balance sheet caption.
- 2) As at 31 December 2018 and 1 January 2018 the Group corrected 2016 and 2017 regulatory activities revenues and decreased “Other non-current payables and liabilities” caption by EUR 5,398 thousand and “Contract liabilities” caption by EUR 2,283 thousand, while 2018 “Revenue from contracts with customers” caption was increased by EUR 7,710 thousand. 1 January 2018 balance was corrected by increasing “Retained earnings” by EUR 511 thousand, while “Other non-current payables and liabilities” caption was decreased by the corresponding amount.
- 3) The Group had to recalculate deferred tax liability for 2018 and 2018 opening amount due to the reasons stated in No. 1 and 2 sections.

As at 31 December 2018 and 1 January 2018 the Group corrected previously recognized deferred tax asset, thus in correspondence correcting deferred tax liability by increasing “Deferred Tax Liability” caption balance by EUR 1,108 thousand and 2018 “Deferred income tax expenses” statement of comprehensive income caption was increased by EUR 1,075 thousand. 1 January 2018 statement of financial position due to this correction was adjusted in the following way: “Retained earnings” were decreased by EUR 33 thousand while “Deferred Tax Liability” caption was increased by the corresponding amount.

4) The Group had to recalculate current income tax liability for 2018 and 2018 opening amount due to the reasons stated in No. 1 and 2 sections.

As at 31 December 2018 and 1 January 2018 the Group correction previously recognized profit tax payable and increased "Income tax payable" balance caption by EUR 1,108 EUR thousand and 2018 statement of comprehensive income caption "Income tax expenses" was increased by EUR 1,075 thousand. 1 January 2018 statement of financial position due to this correction was adjusted in the following way: "Retained earnings" were decreased by EUR 33 thousand while "Income tax payable" caption was increased by the corresponding amount.

5) As at 31 December 2018 the Group reclassified part of other amounts receivable and contract liabilities, which by its nature, should have been classified as other non-current payables and liabilities. Due to this "Other non-current payables and liabilities" of statement of financial position caption was increased by EUR 800 thousand, "Other amounts receivable" caption was increased by EUR 289 thousand, while "Contract liabilities" were decreased by EUR 511 thousand.

6) As at 31 December 2018 and 1 January 2018 the Group did not reclassify part of other non-current payables and liabilities and contract liabilities, which by their nature, should have been classified as provisions. Due to this long-term "Provisions" caption was increased by EUR 4,875 thousand, and short-term "Provisions" caption was increased by EUR 2,765 thousand, while "Other non-current payables and liabilities" and "Contract liabilities" captions were reduced in corresponding amounts. 1 January 2018 statement of financial position due to this correction was adjusted in the following way: long-term "Provisions" caption was increased by EUR 5,034 thousand while "Other non-current payables and liabilities" caption was reduced by the corresponding amount.

The Group had to recalculate errors impact to non-controlling interests for 2018 and 2018 opening amount due to the reasons stated in No. 1 - 6 sections.

All amounts in thousands of euro unless otherwise stated

**Retrospectively corrected condensed interim statements of financial position:**

\*Certain amounts presented above do not correspond to the 2017 and 2018 Financial Statements but reflect corrections, disclosed in Note 3.

Provisions for employee benefits include a statutory retirement benefit payable to the Group's employees. The balance of provisions at the reporting date is reviewed with reference to actuarial calculations to ensure that estimation of retirement benefit liabilities is as much accurate as possible. The liabilities are recognised at discounted value using the market interest rate.

As at 30 June 2019 and 31 December 2018 the Company's provisions consist of the guarantee issued to the subsidiary for the loans granted to Energetikos Paslaugų ir Rangos Organizacija, UAB under cashpool agreements. During the first half-year of 2019 there were no movement in the Company's provision account.

## 17 Commitments and contingencies

#### Company's issued guarantees:

The Company guarantees that funds borrowed by the Group companies at the cash pool account are timely repaid to the Group companies that have lent funds. As at 31 December 2018, the Company's guarantee amounted to EUR 73,902 thousand. As at 30 June 2018, the Company's guarantee amounted to EUR 101,593 thousand.

On 5 December 2016, the Company and the European Investment Bank (Luxembourg) signed a guarantee and indemnity agreement under which the Company secured fulfilment of all current and future obligations of subsidiary Vilniaus Kogeneracinė Jėgainė UAB in the amount of EUR 190,000 thousand under the credit agreement signed on 5 December 2016 with the European Investment Bank for the term of 17 years. The guarantee cover the repayment of all types of amounts payable related to the usage of the provided loan to the European Investment Bank. The maximum amount of the guarantee has not been established. As at 31 December 2018, the Company's guarantee amounted to EUR 19,796 thousand. As at 30 June 2018, the Company's guarantee amounted to EUR 30,493 thousand.

On 31 May 2017, the Group's subsidiary Kauno Kogeneracinė Jėgainė UAB and Swedbank AB signed the credit agreement for the amount of EUR 120,000,000 (one hundred twenty million). Monetary liabilities of Kauno Kogeneracinė Jėgainė UAB to the bank under the credit agreement are secured by the guarantees issued by the Company and Fortum OYJ in proportion to the number of shares of Kauno Kogeneracinė Jėgainė UAB held, i.e. 51% of shares is held by the Company and 49% is held by FORTUM HEAT LIETUVA UAB. As at 31 December 2018, the Company's guarantee amounted to EUR 5,147 thousand. As at 30 June 2018, the Company's guarantee amounted to EUR 33,194 thousand.

#### Capital expenditure commitments:

The Group has significant property, plant, and equipment acquisition commitments, which will have to be fulfilled in upcoming years. As at 31 December 2018 the Group's commitments to acquire and build property, plant and equipment amounted to EUR 490,432 thousand. As at 30 June 2019 the Group's commitments to acquire and build property, plant and equipment did not change significantly.

#### Litigations:

There were no significant changes in legal disputes since 31 December 2018.

Based on the European Commission press release, the Group informs that on 3 June 2019 the European Commission has opened an investigation procedure to assess whether the application of the strategic reserve measure and, consequently, the allocation of funds of the public service obligations to the Company's subsidiary Lietuvos energijos gamyba, UAB, complied with EU State aid rules. The Group's management does not know any circumstances that could affect potential commitments regarding the initiated investigation.

Tax audits:

The Tax Authorities may at any time during 5 successive years after the end of the reporting tax year inspect the Company's books and accounting records and impose additional taxes or fines. The Group's management is not aware of any circumstances that might result in a potential material liability in this respect.

## 18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of directors that makes strategic decisions.

In management's opinion, the Group has four operating segments:

- Distribution (carried out by Energijos Skirstymo Operatorius AB)
- Strategic generation (carried out by Lietuvos Energijos Gamyba AB);
- Green generation (carried out by Vilniaus Kogeneracinė Jėgainė, Kauno Kogeneracinė Jėgainė, UAB, Eurakras UAB, Tuuleenergia OU, Vėjo Gūsis UAB, Vėjo Vatas UAB, VVP Investment, UAB, UAB Lietuvos Energija Renewables, Pomerania Inwall Sp.z.o.o)
- Commercial organisation (carried out by Lietuvos energijos tiekimas, Energijos Tiekimas UAB (until 31 May 2019), Geton Energy OÜ, Geton Energy SIA, Geton Energy sp.z.o.o.).
- Trade in gas (carried out by Lietuvos Energijos Tiekimas UAB, former Lietuvos Dujų Tiekimas UAB and LITGAS UAB).

The following services and entities comprise the other segments:

- support services (NT Valdys UAB, Technologijų ir Inovacijų Centras UAB, Verslo Aptarnavimo Centras UAB and Transporto Valdymas, UAB);
- non-core activities (Energetikos Paslaugų ir Rangos Organizacija UAB, Duomenų Logistikos Centras UAB);
- service entities (Elektroninių Mokėjimų Agentūra UAB);
- as well as parent company Lietuvos Energija UAB, which does not constitute a separate operating segment, however it is disclosed separately, as its net profit exceeds 10% of profit of all profit generating segments. The Group's support service entities and special purpose entities are aggregated to a single segment as none of them individually meet recognition criteria of an operating segment.

The Group has single geographical segment – the Republic of Lithuania, electricity sales in Latvia and Estonia are not significant for the Group. The chief operating decision-maker monitors the results with reference to the financial reports that have been prepared using the same accounting policies as those used for the preparation of the financial statements in accordance with IFRS, i.e. information on profit or loss, including the reported amounts of revenue and expenses. The primary performance measure is adjusted EBITDA, which is calculated based on data presented in the financial statements prepared in accordance with IFRS as adjusted for selected items which are not recognised under IFRS. The Group's Board does not analyse assets and liabilities of the segments.

Adjustments made by management and adjusted EBITDA

Adjustments made by management in calculating the adjusted EBITDA are presented below:

| Segment / adjustment made by management                                                                                             | 2019 I-II Q   | 2018 I-II Q     |
|-------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------|
| <b>Distribution</b>                                                                                                                 |               |                 |
| Recalculation of regulated activity revenue of Energijos Skirstymo Operatorius, AB                                                  | 19,132        | 33,329          |
| Compensation received for the previous periods                                                                                      | (2,613)       | -               |
| <b>Strategic generation</b>                                                                                                         |               |                 |
| Recalculation of regulated activity revenue of Lietuvos Energijos Gamyba, AB                                                        | (3,725)       | (2,463)         |
| Received compensation related to carried out projects in previous periods                                                           | (9,276)       | -               |

## 19 Business combinations

In accordance with Company's Board of Directors and Company's subsidiary Lietuvos Energija Renewables, UAB (hereinafter – Renewables) decisions, Renewables entered into share purchase agreement for 100% shares and shareholder's claim rights in Pomerania Inval Sp. z o. o. on 2 May 2019. Thereafter, the Company acquired indirect 100% shareholding in Pomerania Inval Sp. z o. o. because Company's subsidiary Renewables owns 100% of shares in Pomerania Inval Sp. z o. o., and the Company owns 100% of shares in Renewables. As at 30 June 2019, the ownership property right was fully owned by the Company's subsidiary Renewables. The total amount of the investment to Pomerania Inval Sp. z o. o. is EUR 20,737 thousand. The investment was fully paid as at 30 June 2019.

The Group applied the purchase method to account for these business combinations according to the provisions of IFRS 3. Under the latter method, the acquisition cost is measured as the sum of the fair values, at the date of exchange, of assets given, liabilities incurred and equity instruments issued in exchange for control of the business being acquired.

During business combination the Group established that the difference between the acquisition cost of the businesses and the fair value of the net assets acquired represents goodwill and/or one and/or several items of assets have probably been acquired.

The Group's management had not finalised the assessment of the initial accounting for business combinations as at 30 June 2019 as the period for the assessment of the business combination has not expired yet which will end when the necessary information about facts and circumstances that existed at the acquisition date will be obtained and which cannot be longer than one year after the acquisition date.

As at 30 June 2019, temporary values of assets and liabilities, the assessment of which was not completed, included as follows: fair value of net assets and value of assets and goodwill identified on business combination. During the assessment period the Group will recognise adjustments to the temporary values as if the accounting for business combination was completed at the acquisition date. Accordingly, the Group will review, if appropriate, comparative figures presented in the financial statements and also, if appropriate, will perform any changes in the impact of depreciation, amortisation or other income that were recognised in nearing the completion of the initial accounting.

On business combination, assets and liabilities of Pomerania Inval Sp. z o. o. were identified with the following fair values at the date of acquisition:

|                                                         | <b>Pomerania Inval Sp.z.o.o</b> |
|---------------------------------------------------------|---------------------------------|
