PROCEDURE FOR AMENDMENT OF THE COMPANY'S BY-LAWS

According to the By-laws of VST, AB, By-laws of the company could be amended only by General Meeting of Shareholders and come into force after registering in the State Enterprise Centre of Registers.

EMPLOYEES OF THE COMPANY

The average number of employees in the end of June, 2008 was 1 845 and, compared with the end of June, 2007, decreased by 83. The average monthly brutto salary increased from 2 005 LTL to 2 348 LTL.

The Company seeks to implement preventive personnel policies which would foster professionalism and loyalty to the Company among the employees. Internal selection procedures continue to be organized, spurring the employees towards the realization of their professional goals and ambitions at other positions within the Company. In the first half of 2008, fifteen internal selection processes were organized. About 3.24 percent of employees changed their positions, 2.10 percent of them (39 employees) were promoted to higher positions.

The Company has been collaborating closely with academic institutions, accepting their students for internships. In the first half of 2008, fifty-one students from various academic institutions — Kaunas University of Technology, Klaipėda University, Vytautas Magnus University, Kaunas Technical College, Šiauliai College, College of Žemaitija did their field training in the Company. The Company continues to maintain its programme for the funding of studies, which provides partial (50 percent) financial support for the academic studies in electrotechnics.

The Company maintains a Collective Agreement, signed on 30 May 2008. The purpose of this Collective Agreement is to ensure effective work in the Company and to represent the interests of all of the Company's employees. It sets the social and professional terms as well as guarantees pertaining to work, working conditions, and remuneration. The Company sponsors cultural and sporting activities organized by the unions. In 2008, the unions received LTL 21 000 from VST, AB.

In 2008, the Company has continued its consistent personnel management policies directed towards the development of employees' skills that match the Company's strategic goals. The added value created by personnel management is the development of professional leaders. The workshops conducted by client service specialists help to implement one of the strategic goals of the Company — to develop a strong culture of high-quality customer service. In the first half of 2008, about LTL 137 425 has already been invested by the Company into the development of employees' competencies.

THE COMPANY'S ACTIVITY REVIEW

The Company's revenue is constantly growing due to increasing sales of electricity. In the first half of this year the Company received revenue of 582.8 million LTL from sales. As to compare during the same period last year revenue from sales amounted to 522.9 million LTL.

The net profit in the first half of this year amounted to 34.2 million LTL, last year – 30.3 million LTL.

More information on financial result of VST, AB activities in the first half of this year is presented in interim financial report for six months of 2008.

INFORMATION ON TRANSACTION OF ASSOCIATED BODIES

Transactions of associated bodies were not made during the first six months of 2008.

KEY RISK FACTORS

Production and sales of electric power in Lithuania is regulated by the state more than other industry branches. Price caps for services are set by the National Control Commission for Prices and Energy. Therefore the pricing policy of the company is not flexible enough. Unplanned changes in the political situation of the country and legal regulations would have a negative influence on the company's operation.

The key economic risk factor is insufficient capacity of the company and its contractors quickly eliminate the damages, which occur in result of natural calamities. Due to the disorders of electric power supply the incomes may be lost and losses may occur.

FACTORS AFFECTING OPERATIONS OF THE COMPANY

Parliament of the Republic of Lithuania passed the Law on the Nuclear Power Plant on 28 Juny 2007, that states the plan to construct a new nuclear power plant in Lithuania and the formation of the National Investor for the implementation of the project. Participation of Latvia, Estonia and Poland is also expected.

On 29 April 2008, The Government of the Republic of Lithuania made the establishment contract of the national investment body LEO LT, AB.

The Government of the Republic of Lithuania and the national investor, managing the main part of the Lithuanian power system through its subsidiaries, shall implement the strategic goal of Lithuania, namely, integrate in a complex manner the power system of the Republic of Lithuania into the power transmission systems of the states of the European Union and internal power markets.

The National Investor will be formed consolidating AB "Lietuvos energija", AB "Rytų skirstomieji tinklai" and VST, AB. These changes in the future will influence the working environment of VST, AB.

The key economic risk factor is insufficient capacity of the company and its contractors quickly eliminate the damages, which occur in result of natural calamities. Due to the disorders of electric power supply the incomes may be lost and losses may occur.

The company is facing the risk known to many Lithuanian companies – the lack of qualified employees and labor force due to the emigration to other countries. There is a shortage of qualified personnel in the divisions of the company. The qualifications of the lowest employees' level are still not satisfactory. Emigration of staff to other EU countries is becoming more and more important. This risk is being reduced by personnel policy and the average salary level increase.

INFORMATION RELATING TO ENVIRONMENTAL PROTECTION ISSUES

The joint stock company VST is an electrical energy supply and distribution enterprise. Unlike some electricity-producing enterprises, it has little impact on the environment. The possibility of certain activities of this share-issuing firm being limited or stopped because of damage to the environment is not great.

In order to protect the large population of white storks in Lithuania, energy producers, along with the Ministry of the Environment and the Ecology Institute, are seeking effective ways of preserving stork breeding places. This spring the company continued its drive to protect storks' breeding places. The majority of the storks that spend the summer in Lithuania come to the Western part of Lithuania, therefore this spring employees of this firm carefully moved around 250 stork nests onto metal poles. This is the fourth year that the joint stock company VST has carried out the stork nest moving operations at its own expense. The firm's efforts to protect stork nests are appreciated not only by the Ministry of the Environment but also by environmental protection workers involved in protecting our national bird and by the residents of farmsteads where the storks have taken up residence.

INFORMATION ON THE SUBSIDIARIES OF THE COMPANY

During the period of January – June of 2008 the Company had no subsidiarines.

IMPORTANT EVENTS DURING THE REPORTING PERIOD

On 20 May 2008, the national investment body LEO LT (Lietuvos Elektros Organizacija –Lithuanian Electricity Organisation) was established. With the establishment of the national investment body LEO LT, the joint stock company VST became a subsidiary of LEO LT, with VST's principal activity – the supply and distribution of electrical energy – remaining unchanged; likewise the firm's structure and management. The joint stock company LEO LT consists of three firms: the mostly state-controlled Lietuvos energija (Lithuanian Energy) and Rytų skirstomieji tinklai (Eastern Distribution Networks) plus the joint stock company VST.

At a general shareholders' meeting of the joint stock company VST on 8 July 2008, the new subsidiary's Board of Directors was chosen and confirmed. Members of the previous Board were appointed to the new Board, with a mandate to continue overseeing their responsibilities: Electricity Network Services to be managed by Rytis Borkys; Legal and Administrative Services to be managed by Gytis Kundrotas; and Financial Services to be managed by Lina Minderienė. The CEO of the firm, Aidas Ignatavičius, was appointed Chairman of the Board.

Quality of Client Services

Once again this year, the Company's top priorities were provision of quality services and consistent improvement of the client service culture. In 2008 and beyond, the quality of services provided will continue to be improved and training will be arranged for employees whose duties include direct service provision to clients. About 200 employees participated in training sessions in May and June on "Effective Provision of Service to Clients". There will be more such training sessions in August and September, when it is expected that about 300 more employees will participate.

In its mission for improved provision of service to clients, the joint stock company VST has participated in the "March – Good Client Service Month" promotion for three years in a row. During the month of March, clients were requested to assess the specialist services provided to them and to give comments, praise and suggestions.

Last year a new service was offered to commercial/institutional clients: remote declaration of meter readings, which has received a great deal of attention this year. This service simplifies the meter reading declaration procedure, saves clients' time and makes the firm's work more efficient.

As electronic services become more popular, the joint stock company VST intends to offer its commercial/institutional clients a new electronic invoicing (E-invoice) service. The E-invoice will be an electronically-transmitted VAT invoice from the firm for services rendered, i.e. electrical energy consumed. For the moment the E-invoice service is limited to VST clients who use Hansabank Internet Banking (hanza.net, telehanza.net, or Telehansa) services. However, discussions are under way with other banks for extension of the E-invoice services. The convenience of this method of payment is that it is no longer necessary to send invoices or other information in paper form. The whole meter reading declaration and payment for services received procedure is performed electronically, simply and swiftly.

Investments

The principle investments of the joint stock company VST are aimed at improving the quality of services provided. During the first half of this year, the firm invested 46.4 million LTL into improving the 0.4–10 kV high tension electricity network in the Kaunas, Klaipėda and Šiauliai regions and into connecting new consumers. This year it plans to invest about another 54.5 million LTL. The firm's total planned investment for 2008 is about 144 million LTL.

In the first half of 2008, the 10 kV section of the reconstruction of the Taika 110/10/6 kV transformer substation in the city of Klaipėda was completed (project value 6.9 million LTL); the power transformer of the Tytuvėnai 35/10 kV transformer substation was changed (project value about 1.1 million LTL); the 10 kV automatic installations of the Uostas transformer substation in the city of Klaipėda were reconstructed (project value about 200,000 LTL); the Gedminai 110/10 kV transformer substation in the southern part of the in the city of Klaipėda was reconstructed (project value about 9.7 million LTL); and work continued on the reconstruction of Migla transformer substation (project value about 6.2 million LTL) in Mažeikiai.

Given the continuing rapid growth of urbanisation along the Kaunas–Klaipėda arterial highway in the sector from IX Fort to Babtai, a new 35/10 kV transformer substation with two 35 kV cable lines has been constructed at Giraitė (project value about 5.8 million LTL) to improve connection of new consumers to the firm's networks.

Assistance Projects

This year the firm has provided assistance to innovative projects in the fields of education, culture and scholarship designed to assist the most vulnerable members of the community.

As on previous occasions, VST has provided assistance to the children's section of Kaunas Medical University. The firm's funds were used to furnish 11 "play corners" with educational toys, drawing materials and children's books and magazines. The main aim of this project was to help make the hospital environment more similar to a home environment in order for young patients to feel better and [recover their health more rapidly.

The Company is a participant in the "Dovana ateičiai" (A Gift for the Future) project initiated by the Ministry of Education and Science and the information technology firm Microsoft Lietuva. The Ministry of Education and Science, together with a number of Lithuanian business firms, created a plan to computerise the school system using second hand computer technology that has been donated by firms and other organisations. In the second phase of the project, the Company has donated computers to some schools in Western Lithuania that were among the least computerised in the country. Representatives of VST, in an effort to assist children living in public care institutions to spend their leisure time meaningfully, visited twenty public care institutions in the Kaunas, Klaipėda and Šiauliai regions and presented the children with subscriptions to the youth journal "Gatvė" (Street).

The Company also supported regional activities: the Raseiniai Bards' Club, the Griškabūdis high school, the Jurbarkas social services centre, the "Aušra" museum of Šiauliai, the administration of the Mažeikiai Region Local Government, the Šakiai Childrens' Home, the Šiauliai Region Local Government Ethnic Culture and Traditional Trades Centre, the Gargždai Cultural Centre, the Skaudvilė community, the Šilutė Culture and Entertainment Centre, the Lithuanian Red Cross, the cultural centre of Kelmė, the Smalininkai special school, the Pakruojis primary school "Versmė", the administration of the Radviliškis Region Local Government, the management of Žagarė Regional Park, the organisation of the City of Šiauliai birthday celebrations "Šiauliai Days 2008", the Šačiai village community of Skuodas region and other projects.

Collaboration

The joint stock company VST collaborates with the academic community. For several years the Company has been awarding personal scholarships to the most promising students of the Faculty of Electricity Engineering and Control Systems of the Kaunas University of Technology. It is expected that this autumn, such scholarships will be awarded to students for the fifth time. This year VST is also funding an international conference being organised by the Gediminas Technical University in Vilnius.

PLANS AND FORECASTS OF THE COMPANY OPERATION

In 2008 the Company does not plan any changes in the key operation and is going to continue distributing electric power by medium and low voltage lines and supplying electric power to the consumers. VST, AB plans to continue reconstruction and modernization works, and improvement of customer service quality.

EXPLANATORY LETTER

The explanatory letter discusses material changes in financial statements and the reasons for such changes. Financial statements have been prepared in accordance with the International Financial Accounting Standards (IFAS).

Corporate activities

VST, AB is the owner of electric power distribution network (medium and low voltage power lines, transformer substations and other distribution equipment). The main activity of the Company is the distribution of electricity through medium and low voltage power networks and supply of electric power to its consumers in Kaunas, Klaipėda and Šiauliai regions. It is responsible for the security, reliable performance, maintenance, management and development of such networks.

Company supplied services to 712.8 thousand customer objects at the end of the third quarter of this year.

Revenue and expenses

Through the first half of this year the Company sold 4,63 percent more electric power and totally amounted to 2 037 million kWh (Table 1) compared with the same period of 2007. The revenue from these sales amounted to 582.8 million LTL, that is by 12.98 percent more in comparison with the same period of the previous year.

Expenses of the electricity power purchase of the first half of this year increased by 11.99 percent and amounted to 310.4 million LTL when in the same period of 2007 purchase amounted to 277.2 million LTL.

Net financial activity expenses in the first half of 2008 decreased by 2.3 millions when in the same period of 2007 amounted to 6.0 million LTL.

Table 1. Electric power sales and expenses.

Indicators	Units of measure	1st half, 2008	1st half, 2007	Variation, thous. kWh	Variation, percent
Electricity purchased	thous. kWh	2 214 300	2 134 639	79 661	3.73%
Electricity sold (active)	thous. kWh	2 037 729	1 947 614	90 115	4.63%
Network (transportation) losses	thous. kWh	164 649	174 979	(10 330)	-5.90%
Consumption for own needs	thous. kWh	11 921	12 044	(123)	-1.02%

The net profit of the Company, through the first half of this year increased by 12.71 percent and amounted to 34.2 million LTL when in the same period of 2007 amounted to 30.3 million LTL. The increase was due to the decreased in net financial expenses (3.7 million LTL).

Balance sheet

Throughout the first half of 2008, investments into the development and maintenance of electric power distribution networks and other assets amounted to 57.9 millions LTL. The investments decreased by 1.03 percent compared with the same period last year (investments into the development and reconstruction of electric power network amounted to 58.5 million LTL in first half of 2007).

Trade and other receivables increased by 37.74 percent and amounted to 74.4 million LTL when in the same period of 2007 amounted to 54.0 million LTL due to the increase in the volume of trade.

Throughout the first half of 2008, prepayments, deferred charges and accrued income, compared with the same period of 2007 increased from 4.7 million LTL to 13.1 million LTL due to higher payments to contractors, prepayments of income and social taxes.

An increase in the number of new costumer connection made an influence to the deferred income, which rose by 38.93 percent and amounted to 213.9 million LTL when in the same period of 2007 amounted to 154.0 million LTL. Throughout the first half of 2008, trade and other payables decreased by 28.27 percent and amounted to 77.2 million LTL when as the same period of 2007 amounted to 107.7 million LTL due to a decreased in electric energy and reconstruction and maintenance liabilities.

Non-current assets

Through the first half of this year the value of non-current assets increased by 32.10 percent and amounted to 2 653.5 million LTL when at the end of first half of 2007 amounted to 2 009.0 million LTL. Difference was due to the evaluation of Company's non-current assets (except for construction in progress) made by external independent appraiser. The evaluation was carried out on the basis of replacement cost method except for other assets (which have no business features to the Company's activity) that were evaluated on the basis of comparable price method.

Current assets

Throught the first half of 2008, the value of current assets increased to 841.0 million LTL when in the same period of 2007 amounted to 243.5 million LTL. Current assets increased due to a increase in long terms borrowings.

Financial liabilities

The biggest part of Company's financial debts are loans that amounted to 756.8 million LTL.

Financial liabilities (short-term and long-term) to banks increased by 102.49 percent throught the first half of this year and amounted to 756.8 million LTL when in the first half of 2007 amounted to 373.8 million LTL.

Deferred income tax liability, net increased by 44.36 percent from 192.9 million LTL – first half of 2007 to 278.5 million LTL – first half of 2008.

Cash Flow

Through the first half of this year, cash flow from the main activities increased by 6.02 percent and amounted to 217.1 million LTL when as the same period of 2007 was 204.7 million LTL.

Net cash flows from investing activities throught the first half of this year was 58.0 million LTL and compared with the same period of 2007 increased by 1.47 percent.

Net cash flows from financing activities throught the first half of 2008 was 377.4 million LTL and copared with with the same period of 2007 increased 459.4 million LTL.

Net increase in cash and cash equivalents throught the first half of this year increased by 8.18 times and amounted to 536.5 million LTL when as the first half of 2007 was 65.6 million LTL.

Parameters of the Company's operation

Parameters	2008 January- June	2007 January- June	Change, percent
EBITDA margin (percent by turnover)	31.84%	33.17%	
Operating profit margin (percent by turnover)	8.12%	9.71%	
Profit/ loss before taxes (percent by turnover)	7.73%	8.55%	
Net profit margin (percent)	5.83%	5.80%	
Return on assets (ROA), (percent)	0.98%	1.35%	
Return on shareholders equity (ROE), (percent)	1.61%	2.20%	
Return on capital employed (ROCE), (percent)	1.44%	2.45%
