## Important events that affected results of the Group's activities in reporting period

Due to the financial crisis, state government orders for a number of medical services during January - February 2009 were decreased from $4 \%$ to $20 \%$ compared to 2008 average monthly orders (income) and for some services up to $27 \%$. To compensate the drop of government orders during January-March 2009, the volume of paid medical services from patients was increased twice compared to the corresponding period of 2008. Accordingly, the staff salaries and wages calculation and conditions were revised. The percentage of wages related to the quantity and the quality of the services were increased.

Rules published on 13.02 .2009 by the Cabinet of Ministers have changed the conditions for financing of medical services; government orders are partly replaced by patient's payments.

HCISA decreased the quota on hospital services for the second quarter of 2009. The decrease of financing was partiallycovered by the increase of patients payments, resulting $53 \%$ of average monthly income compared to 2008 average monthly income.

In order to maintain high quality services, improvements in the control system and risk management are in process. X-ray equipment of the surgery clinic located at Patversmes st. 23 is upgraded. Installation of a new elevator to facilitate therapy and purulent surgery departments is done to render substantially improved services for patients, particularly for aged patients and patients with motions injuries. Further plans are initiated to develop patients care sectors, improve other hospital, ambulatory and paid services to increase income.

State government orders for the hospital services of LJMC from July is decreased, but from September is terminated. LJMC Board had worked out and is implementing the optimization plan based on the future financing and transition to the paid medical service.
