INDEPENDENT AUDITOR'S REPORT

to the Shareholders of Daugavpils Lokomotīvu Remonta Rūpnīca AS

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Daugavpils Lokomotīvu Remonta Rūpnīca AS and its subsidiaries (together as the Group) set out on pages 6 to 37 of the annual report. These consolidated financial statements comprise the statement of financial position as at 31 December 2013, and the statement of comprehensive income, statement of cash flow and statement of changes in equity for the period from 1 January 2013 to 31 December 2013 (the Financial year), and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

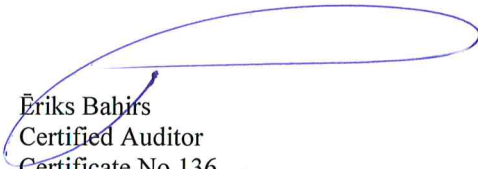

In our opinion, the above mentioned consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2013, and of its financial performance and its cash flows for the financial year in accordance with International Financial Reporting Standards as adopted by the European Union.

Report on Other Legal and Regulatory Requirements

We have read the management report for the financial year as set on page 4 and did not identify material inconsistencies between the financial information contained in the management report and that contained in the financial statements.

REPORT OF THE MANAGEMENT

Type of operations

Basic activity of AS "DAUGAVPILS LOKOMOTĪVJU REMONTA RŪPNĪCA" is railway rolling stock overhaul repair, maintenance and upgrade, manufacturing and repair of its spare parts. AS "DAUGAVPILS LOKOMOTĪVJU REMONTA RŪPNĪCA" provides a repair services of all types of railway rolling stock - diesel - electric locomotives and electric trains.

Performance of the Group during the financial year

In 2013 the consolidated net sales of the Group amounted to 25,6 million EUR (18% decrease in respect of net sales 2012).

The Group completed the year 2013 with a loss of 242 thousand EUR. In 2013 the Group exported its products to 8 countries, the total export volume amounted to 23,2 million EUR (in 2012 - 28 million EUR), while net sales in Latvia amounted to 2,4 million EUR (in 2012 - 3,3 million EUR). The main directions of export in 2013 were EU countries: Lithuania and Estonia, and the third countries: Russia, Belarus and Uzbekistan.

During the reporting year, the Group has continued the acquisition of new products' manufacturing technology, using the equipment, that was purchased in 2011 in cooperation with ERDF funds. In 2012 the implementation process of a new resource planning system has been started, which is planned to be implemented till the end of 2014.

Financial risk management

The policy of financial risk management of the Group is described in financial report's Notes 25

Future prospects

In 2014 the Group will continue the development in the sector of railway rolling stock repair and spare parts production, as well as continuing the started new projects in 2013. The Group plans to expand its customer base in the rolling stock repair and spare part production sector, as well as to attract customers to a new strands. The Group will continue the project of modernization of the existing infrastructure with ERDF funds financing assistance. Part of this project is expected to be completed at the end of 2014.

The Group's key priority remains - higher quality control for the services and goods produced and the extension of offered services and goods produced nomenclature.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

II. ACCOUNTING POLICIES

(1) Basis of preparation

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union (IFRS).

The consolidated financial statements have been prepared using the measurement bases specified by IFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies below.

The consolidated financial statements are presented in accordance with IAS 1 Presentation of Financial Statements (Revised 2007). The Group has elected to present the 'Statement of comprehensive income' in one statement.

Preparation of the financial statements in compliance with the IFRS requires critical assumptions. Moreover, preparation of the statements requires from the Management to make estimates and judgments applying the accounting policies adopted by the Group. Critical estimates and judgments are represented in Note (22) to accounting policies.

a) Standards, amendments and interpretations effective in the current year

IAS 1 Financial Statement Presentation – Presentation of Items of Other Comprehensive Income - Amendment (effective for annual periods beginning on or after 1 July 2012).

The amendments to IAS 1 change the grouping of items presented in Other Comprehensive Income. Items that could be reclassified (or 'recycled') to profit or loss at a future point in time (for example, upon derecognition or settlement) would be presented separately from items that will never be reclassified. The amendment did not have any impact the Group's financial statements.

IAS 12 Income Taxes – Recovery of Underlying Assets - Amendment (effective for annual periods beginning on or after 1 January 2013).

The amendment clarified the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured at fair value will be recognized on a sale basis. Furthermore, it introduces the requirement that deferred tax on non-depreciable assets that are measured using the revaluation model in IAS 16 always be measured on a sale basis of the asset. This amendment did not affected the Group's financial position and performance.

IAS 19 Employee Benefits - Revised (effective for annual periods beginning on or after 1 January 2013).

The revised standard includes a number of amendments that range from fundamental changes such as removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and re-wording. The amendments have no significant impact on Group's financial statements.

IFRS 1 First-time Adoption of IFRS - Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters - Amendment (effective for annual periods beginning on or after 1 July 2013).

The amendment provides guidance on how an entity should resume presenting IFRS financial statements when its functional currency ceases to be subject to severe hyperinflation. This amendment did not affected the Group's financial statements.

IFRS 1 First-time Adoption of IFRS - Government Loans - Amendment (effective for annual periods beginning on or after 1 July 2013).

The amendment addresses how a first-time adopter would account for a government loan a below-market rate of interest when transition to IFRS. This amendment did not affected the Group's financial statements.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

IFRS 13 Fair Value Measurement (effective for annual periods beginning on or after 1 January 2013).

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather describes how to measure fair value where fair value is required or permitted. This amendment did not affect the Group's financial statements.

IAS 32 Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities - Amendment (effective for annual periods beginning on or after 1 January 2013).

This amendment clarifies the meaning of "currently has a legally enforceable right to set-off" and also clarifies the application of the IAS 32 offsetting criteria to settlement systems which apply gross settlement mechanisms that are not simultaneous. The amendments have no significant impact on Group's financial statements.

IFRS 7 Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities - Amendment (effective for annual periods beginning on or after 1 January 2013).

The amendment introduces common disclosure requirements. These disclosures would provide users with information that is useful in evaluating the effect or potential effect of netting arrangements on an entity's financial position. The amendments have no significant impact on Group's financial statements.

IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine (effective for annual periods beginning on or after 1 January 2013).

This interpretation only applies to stripping costs incurred in surface mining activity during the production phase of the mine ('production stripping costs'). The Group does not involved in mining activities and, therefore, the interpretations does not affect the Group's financial statements.

Improvements to IFRS issued in 2011 (effective for annual periods beginning on or after 1 January 2013).

Amendments has been made to IFRS 1, IAS 1, IAS 16, IAS 32 and IAS 34. Improvements consist mostly of a mixture of insignificant changes and clarifications in the different areas. These amendments did not have any significant effect on Group's financial statements.

b) Standards, amendments and interpretations, which are not yet effective and not yet adopted by the Company

IFRS 10 Consolidated Financial Statements (effective for annual periods beginning on or after 1 January 2014).

IFRS 10 replaces the portion of IAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements. It also includes the issues raised in SIC-12 Consolidation — Special Purpose Entities. IFRS 10 does not change the consolidation procedures, rather changes whether an entity is consolidated by revising the definition of control. The Group is considering the impact of the standard on the Group's financial statements.

IFRS 11 Joint Arrangements (effective for annual periods beginning on or after 1 January 2014).

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities — Non-monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities using proportionate consolidation. Instead, jointly controlled entities that meet the definition of a joint venture must be accounted for using the equity method. The Group is considering the impact of the standard on the Group's financial statements.

IFRS 12 Disclosures of Involvement with Other Entities (effective for annual periods beginning on or after 1 January 2014).

IFRS 12 includes all of the disclosures that were previously in IAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in IAS 31 and IAS 28. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. The Group is considering the impact of the standard on the Company's financial statements.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

IAS 27 Separate Financial Statements - Revised (effective for annual periods beginning on or after 1 January 2014).

As a result of the new IFRS 10 and IFRS 12, revised IAS 27 is limited to accounting for subsidiaries, jointly controlled entities and associates in separate financial statements. The Group is considering the impact of the standard on the Company's financial statements.

IAS 28 Investments in Associates and Joint Ventures - Revised (effective for annual periods beginning on or after 1 January 2014).

As a result of the new IFRS 11 and IFRS 12, revised IAS 28 has been renamed as IAS 28 Investments in Associates and Joint Ventures, and describes the application of the equity method to investments in joint ventures in addition to associates. The Group is considering the impact of the standard on the Group's financial statements.

IFRS 10, IFRS 11 and IFRS 12 - Transition guidance - Amendment (effective for annual periods beginning on or after 1 January 2014).

These amendments provide additional transition relief to IFRS 10, 11 and 12, limiting the requirements to provide adjusted comparative information to only the preceding comparative period. For disclosures related to unconsolidated structured entities, the amendments will remove the requirements to present comparative information for period before IFRS 12 is first applied. The Group is considering the impact of the standard on the Group's financial statements.

IFRS 9, Financial Instruments Part 1: Classification and Measurements (effective for annual periods beginning on or after 1 January 2015, not yet adopted by the EU).

The IFRS 9 replaces those parts of IAS 39 relating to the classification and measurement of financial assets. The Group is considering the impact of the standard on the Group's financial statements.

IAS 36, Recoverable amount disclosures for non-financial assets - Amendment (effective for annual periods beginning on or after 1 January 2014).

The amendment remove the requirements to disclose the recoverable amount when a cash generated unit contains goodwill or indefinite lived intangible assets but there has been no impairment. The Group does not expect, that this amendment to have significant impact on the financial statements.

IAS 39, Novation of derivatives and continuation of hedge accounting - Amendment (effective for annual periods beginning on or after 1 January 2014).

The amendment will allow hedge accounting to continue in a situation where a derivative, which has been designated as a hedge instrument, is novated (i.e. parties have agreed to replace their original counterparty with a new one) to effect clearing with a central counterparty as a result of law or regulation, if specific condition are met. The Group currently does not apply hedge accounting, consequently, the Group does not expect, that this amendment to have significant impact on the financial statements.

IFRS 10, IFRS 12 and IAS 27 - Amendments (effective for annual periods beginning on or after 1 January 2014).

The amendments introduce a definition of a investment entity as an entity that (i) obtain funds from investors for the purpose of providing them with investment management services, (ii) commits to its investors that its business purpose is to invest funds solely for capital appreciation or investment income and (iii) measures and evaluates its investments on a fair value basis. The Group does not expect, that this amendment to have an impact on its financial statements.

c) Standards, amendments and interpretations, which are not yet effective and not yet endorsed by the EU

IFRS 9, Financial instruments: Classification and Measurement, IFRIC 21 - Levies (effective for annual periods beginning on or after 1 January 2014).

IAS 19, Defined benefit plans: Employee contributions - Amendment (effective for annual periods beginning on or after 1 July 2014).

Improvements to IFRS issued in 2012 (effective for annual periods beginning on or after 1 July 2014).

Improvements to IFRS issued in 2013 (effective for annual periods beginning on or after 1 July 2014).

for the period ended 31 December 2013

(2) Reclassification of comparatives

Certain items have been classified differently than in previous year financial statements. Reclassification does not have the impact on the financial results. The previous year comparatives have been reclassified accordingly and are comparable.

Reclassified assets, liabilities, revenues or expenses	2012	2013	Amount EUR
	Name of line item	Name of line item	
Net gains from foreign exchange rate fluctuations	Finance costs	Other income	72 904
Salary expenses	Administrative expenses	Cost of sales	860 863
Mandatory state social insurance contributions	Administrative expenses	Cost of sales	204 542
Rental income	Other income	Revenue	70 562
Other income	Other income	Revenue	49 916

(3) Methods of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries. The financial year and accounting principles of the Company and subsidiary companies are the same. Financial statements of subsidiaries are included in the consolidated financial statements of the Group based on the full consolidation method. Taking into consideration that all subsidiaries of the Company were established by the Company, no goodwill of acquisition has appeared. Subsidiary companies are consolidated from the time of its incorporation till their disposal.

(4) Foreign currencies

(a) Functional and presentation currency

Items are shown in the financial statements of the Group as measured using the currency of the primary economic environment in which the Group operates (the functional currency). Financial statements are presented in Latvian lat (Ls), which is the Group's functional and presentation currency.

In accordance with the Riga Stock Exchange requirements all balances are presented in euro (EUR). For the purposes of disclosures translation is performed applying the official exchange rate adopted by the Bank of Latvia EUR / LVL (1 EUR = LVL 0.702804) for the period from 1 January 2012 to 31 December 2013.

(b) Transactions and balances

	31.12.2013.	31.12.2012.
	Ls	Ls
1 USD	0,515	0,531

1 LTL	0,204	0,204
1 RUB	0,0156	0,0174

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(5) Segment disclosure

An operation segment is a component of the Group which qualifies for the following criteria: (i) engages in business activities from which it may earn revenues and incur expenses; (ii) whose operation results are regularly reviewed by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and (iii) for which discrete financial information is available.

Operation segments are reported in a manner consistent with the internal reporting provided to the Group's chief operating decision maker being the Board of the Company.

(6) Income recognition

Net sales represent the total of goods and services sold during the year net of discounts, value added tax. Main operation of the Group are repair and modernization of railway rolling stock. Taking into account the type of repair and modernization work and complicity of the order the period of provisioning the services could reach 3-6 months.

Income related to repair and modernization services are recognised on the basis of completion. Expenses connected with repair service agreement are recognized in the moment when occurred. When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. When the outcome of a contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue is recognised over the period of the contract. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense at recognition.

The Group apply the stage of completion method to determine the correct amount of revenues to be recognized in a given period. The stage of completion is measured by reference to the contract costs incurred up to balance sheet date as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion. They are presented as inventories or other assets, depending on their nature.

The Group presents as an asset the gross amount due from the customers for contract work for all contracts in progress for which costs incurred plus recognized profit (less recognized losses) subtracting progress billings. Progress billings not yet paid by customers and retention are included within "Trade receivables".

The Group presents as a liability the gross amount due to customers for contract work for all contracts in progress for which progress billings exceed costs incurred plus recognized profit (less recognized losses). Advances received from customers are disclosed under "Other liabilities".

Income from sales of goods in Latvia is recognized when the customer has accepted the goods. Income from sales of goods outside Latvia is recognized in accordance with the terms of delivery. Income from provision of other services is recognized by reference to the stage of completion of the services.

Interest income or expenses are recognized in the statement of comprehensive income for all loans and borrowings assessed at amortized cost applying the effective interest rate method.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(7) Intangible assets

Intangible assets mainly consist of licenses and patents. Intangible assets are stated at historical cost, less accumulated amortization. Depreciation is calculated from the moment as the assets are available for use. Intangible assets depreciation is calculated on a straight-line method to allocate the purchase price up to the estimated residual value of the useful life, using the following periods:

	Depreciation % per annum
Licenses and patents	20

In cases where an intangible asset's financial statement value is greater than its estimated recoverable amount, respective asset's value is reduced to its recoverable value. Recoverable value is the higher of fair value of intangible investment, less costs to sell or value in use.

(8) Property, plant and equipment

Property, plant and equipment (PPE) are initially accounted at the purchase cost. Purchase cost includes costs, which are directly related to the purchase of PPE. In financial statements PPE are recognised at purchase cost less depreciation and any impairment losses. See Note (11) for modification of these policies in the first adoption of IFRS.

Subsequent costs are shown in the asset's carrying amount or recognised as a separate asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revaluated amounts to their residual values over their estimated useful live, as follows:

	Depreciation % per annum
Buildings	1,1 - 20
Technological equipment	4 - 20
Other machinery and equipment	20

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Where the carrying amount of an asset exceeds its estimated recoverable amount, it is written down immediately to its recoverable amount. The decrease in the value of assets is recognised as an expense.

Costs of borrowing to finance assets under construction and other direct charges related to the particular asset under construction are capitalised during the time that is required to complete and prepare the asset for its intended use as part of the cost of the asset. Capitalisation of the borrowing costs is suspended during extended periods in which active developments are interrupted.

Gains or losses on disposals are determined by comparing the proceeds with the carrying amounts and are recognised within the statement of comprehensive income for the relevant period.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(9) Impairment of tangible and intangible assets

All tangible and intangible assets of the Group have their estimated useful lives and they are amortised or depreciated. Assets that are subject to amortisation and depreciation are revaluated every time when events or circumstances evidence of probable non-recoverability of their carrying amount. Loss from value decrease is recognised at difference between book value of the asset and its recoverable value. Recoverable value is the higher of an asset's fair value less costs to sell and its value in use. In order to determine decrease of the value, assets are classified based on the lower level of identifiable cash flows (cash-bearing units). Assets, which value has been decreased, are assessed at the end of every reporting year to identify the probable value decrease reservation.

(10) Inventories

The inventories are stated at the lower of cost and net realisable value. Cost is determined using the FIFO method. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. When the net realisable value of inventories is lower than their cost, provisions are created to reduce the value of inventories to their net realisable value.

(11) Loans and trade receivables

Loans and trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment. A provision for impairment is established when there is objective evidence that the Group will not be able to collect all amounts according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective rate. Changes in provisions are recognized in the statement of comprehensive income.

(12) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash and the balances of the current bank account.

(13) Share capital and dividends

Ordinary shares are classified as equity. Dividends to be paid to shareholders of the Group are represented as liabilities during the financial period of the Group, when shareholders of the Group approve the dividends.

(14) Borrowings

Borrowings are recognised initially at fair value net of transaction costs incurred. Borrowings are subsequently stated at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(15) Provisions

Provisions are recognized, when there is a present obligation as a result of current or previous years events, it is probable that an outflow or resources will be required, and the amount has been reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation.

(16) Fair value estimation

In respect of financial assets and liabilities held in the balance sheet at carrying amounts other than fair values, the fair values are disclosed separately in notes.

The carrying value of trade receivables and payables are assumed to approximate their fair values. The fair value of financial instruments for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments unless there is information on market prices.

(17) Employee benefits

The Group pays social security contributions for state pension insurance and to the state funded pension scheme in accordance with Latvian laws. State funded pension scheme is a defined contribution plan under which the Company pays fixed contributions determined by the law and they will have no legal or constructive obligations to pay further contributions if the state pension insurance system or state funded pension scheme are not able to settle their liabilities to employees. The social security contributions are recognised as an expense on an accrual basis.

(18) Accrued liabilities for unused annual leave

Amount of accumulated unused annual leave is determined by multiplying the average day rate of employees for the last six months of the financial year by the amount of accrued but unused annual leave at the end of the reporting year.

(19) Grants

Grants or subsidies received for the acquisition of fixed assets or other non-current assets are recorded as deferred income and recognized as an income in the statement of comprehensive income on straight-line basis over the useful life of the assets acquired. Other subsidies or grants to cover the expenses are recognized as an income in the same period when the respective expenses have arisen and all material conditions in respect of the grants received has been fulfilled. Grants are recognized in the financial statements in the period, in which the grants are received.

(20) Income tax

Corporate income tax is calculated in accordance with tax laws of the Republic of Latvia. Effective laws provide for 15 % tax rate.

Deferred income tax is provided in full using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, where the deferred income tax arise from recognition of the assets and obligations resulted from transactions, which are not the business combination, and at the moment of transaction do not affect profit or loss neither in the financial statements nor for the taxation purposes, the deferred income tax is not recognised. Deferred income tax is determined using tax rates (and laws) that have been enacted by the balance sheet date and are expected to apply when the deferred income tax is settled.

The principal temporary differences, in general, arise from different tangible assets depreciation rates as well as provisions for slow-circulating goods, other provisions as well as tax losses carried forward. Where an overall deferred income tax arises it is only recognised to the extent it is probable which the temporary differences can be utilised.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(21) Earnings per share

Earnings per share are determined dividing the net gains or losses attributable to shareholders of the Company by the average weighted quantity of the shares in the reporting period.

(22) Related parties

Related parties are considered as shareholders of the Company and associated companies, Board and Council members, their close family members and companies, in which the previously mentioned persons/companies have significant influence or control. Also companies located in ultimate control or significant influence by the controlling member are related parties.

(23) Critical accounting estimates and judgements

In order to prepare financial statements in accordance with IFRS it is necessary to make critical estimates. Therefore, preparing these financial statements the Management must make estimates and judgements applying the accounting policies adopted by the Group.

Preparation of financial statements in compliance with IFRS require estimates and assumptions affecting value of assets and liabilities shown in the financial statements, and disclosures in the notes at the date of the balance sheet as well as income and expenditures recognised in the reporting period. Actual results may differ from these estimates. Scopes, the most-affected by assumptions are impairment test of tangible assets, assumptions and estimates of the Management on calculation of stage of the completion of the repair services contract, tangible asset classification between components as well as recoverable receivables and inventories as well as disclosed in the relevant notes.

Impairment test

The Group uses *IAS 36 Impairment of Assets* guidance in verification of potential impairment losses. This procedure requires a considerable management decision. Taking into consideration that the estimation of potential sales value of the largest long-term assets of the Group - the real estate and equipment with the carrying value as at 31.12.2013. of EUR 13 019 221 (31.12.2012. - EUR 11 046 921) that is used in principal activity of the Group - is subjective, as well as the low level of liquidity in the real estate market, the Group carried out the calculation of recoverable value of assets by the value in use method. In estimation of the future cash flow the management of the Group evaluated, among other factors, useful life of asset, trends of economics and competitiveness, potential changes in technology and in activity of the Group, changes in the operational and financial cash flows of the Group.

Components of property, plant and equipment (PPE)

The Group accounts and depreciates PPE by its material components as per IAS 16. Estimates of the Group about allocation of PPE to its components and density of each part in total value of PPE are build on calculation which shows costs replacement of each component in total amount of costs replacement of each PPE.

Property, plant and equipment (PPE) useful life

The Group's management determines the useful life of PPE based on historical information, technical inspections, assessing the current state of the active and external evaluations. During the reporting year and previous year the Groups has not identified factors that indicate a need to change the useful life period of the Group's PPE. Total carrying amount of PEE at the end of the year is EUR 13 019 221 (31.12.2012. - EUR 11 046 921).

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

Stage of completion method for long-term contracts

The Group carries out an estimation of completion of the repair services at the balance sheet date, as stated in accounting policy in note (5). The accrued income for supplied repair and upgrading services at the year end are EUR 3 456 025 (31.12.2012. - EUR 5 279 223).

Recoverable receivables

The calculation of recoverable value is assessed for every customer individually. Should individual approach to each customer be impossible due to great number of the customers only bigger receivables shall be assessed individually. Receivables not assessed individually are arranged in groups with similar indicators of credit risks and are assessed jointly considering historical losses experience. Historical losses experience is adjusted on the basis of current data to reflect effect of the current conditions that did not exist at acquisition of the historical loss, effect and of conditions in the past that do not exist at the moment. The total carrying amount of receivables at the end of the reporting period is EUR 1 490 984 (31.12.2012. - EUR 2 592 347). Information on amount and structure of receivables is disclosed in Note (25) of the financial statements.

Valuation of inventories

In valuation of inventories the Management relies on the knowledge, considering the historical experience, general information, probable assumptions and future occurrences. Determining impairment of inventories, realisation probability and net selling value of the inventories shall be considered. The total carrying amount of inventory at the end of the reporting period is EUR 4 548 174 (31.12.2012. - EUR 3 405 627).

III. OTHER NOTES

(1) Segment Information

(a) Operation and reportable segment

Basic activity of the Group is repair and modernization of railway rolling stock, as well as producing, repair and sale of spare parts. The Group repairs and modernizes any kind railways rolling stocks (diesel-electric locomotives and electric trains), as well as producing and repairing large amount of spare parts and knots of rolling stocks. Since the Group's main activity is repair of railway rolling stocks and sale of related goods, the Group has only one reporting business segment. Operation segment is reported in a manner consistent with the internal reporting provided to the Company's chief operating decision maker being the Board.

(b) Geographical markets

The Group operates in Latvia by selling repair services and spare parts in domestic market, as well as exporting these services and spare parts.

The operations of the Group can be divided into several geographical segments, which are sales in Latvia, export of services segregated by registration place of railway rolling stock and sales of goods divided by the country of the residence of the client. Distribution of sales among these segments is as follows:

	2013	2012
	EUR	EUR
Russia	14 721 136	21 185 579
Estonia	5 600 395	3 580 987

c) Movement and components of deferred tax

Deferred tax liabilities (asset) at the beginning of the financial year	715 253	476 840
Deferred tax charged to the statement of comprehensive income	(56 208)	238 414
Deferred tax liabilities (asset) at the end of the financial year	<u>659 045</u>	<u>715 253</u>

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

Corporate income tax (continuation)

The deferred company income tax has been calculated from the following temporary differences between value of assets and liabilities in the financial statements and their tax base (tax effect 15% from temporary differences):

	31.12.2013.	31.12.2012.
	EUR	EUR
Temporary difference on depreciation of PPE and intangible assets	876 865	868 222
Gross deferred tax liabilities	<u>876 865</u>	<u>868 222</u>
Temporary difference on accruals for expected losses	(17 817)	(7 491)
Temporary difference on provisions for warranties	(38 255)	(36 919)
Temporary difference on provisions for impairment of inventories and receivables	(27 951)	(23 763)
Tax losses carried forward	(133 797)	(84 796)
Gross deferred tax assets	<u>(217 820)</u>	<u>(152 969)</u>
Net deferred tax liability (assets)	<u><u>659 045</u></u>	<u><u>715 253</u></u>

The Group offsets the deferred tax assets and the deferred tax liabilities only when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax is related to the same taxation authority. The offset amounts are as follows:

Deferred tax assets:		
deferred tax asset to be recovered within a year	(84 023)	(68 173)
deferred tax asset to be recovered within more than a year	(133 797)	(84 796)
	<u>(217 820)</u>	<u>(152 969)</u>
Deferred tax liabilities:		
deferred tax liabilities to be recovered within a year	13 550	28 887
deferred tax liabilities to be recovered after more than a year	863 315	839 335
	<u>876 865</u>	<u>868 222</u>
Net deferred tax liabilities (assets)	<u><u>659 045</u></u>	<u><u>715 253</u></u>

On 31 December 2013 total accrued tax losses are EUR 892 237, of which EUR 153 929 can be used until 2015 (including), but the remaining EUR 738 308 - indefinitely. Tax losses arised for both the Group's parent company, as well as its subsidiaries. It is not expected that some subsidiaries in the future will have sufficient taxable profit in order to utilize accrued tax losses. However, all of the accumulated tax losses are recognized as deferred tax assets in the Group's consolidated financial statements, because the Group plans to use them through reorganization of subsidiaries.

The movement of deferred tax assets and liabilities during the reporting period, without taking into consideration the offsetting of balances within the same tax jurisdiction, is as follows:

	Accelerated depreciation of PPE	Accruals for expected losses	Impairments of inventories and receivables	Provisions for warranty obligations	Tax losses carried forward	Total
	EUR	EUR	EUR	EUR	EUR	EUR

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(9) Earnings per Share (expressed in santims per share)

Since the Group has not executed any transactions that could cause changes in the share capital, which would change the amount of earning per share, the adjusted earnings per share is equivalent to the basic earnings per share.

Earnings per share are calculated by dividing the profit or loss of the reporting year by the average number of shares in the reporting year.

	2013	2012
Profit/(loss) attributed to shareholders of the Group (EUR)	(242 076)	1 032 066

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

Intangible assets and property, plant and equipment (continuation)

a) Deemed costs in the first IFRS financial statements

Preparing the first financial statement under IFRS, the Group evaluated a part of PPE - own real estate - at their fair value and by using it as their deemed costs at this date. Valuation was prepared by the independent expert AS BDO Invest Riga. Taking into consideration that it was prepared in 2007, which is later than transition date to IFRS as well as correction of market value of real estate at the end of 2007, the appraised value of real estate was decreased by 30%. Total effect of adjustment of real estate initial value was EUR 3 606 792.

In Company's individual financial statements, taking into account the selected revaluation policies for PPE, the increase of these assets' value in the amount of EUR 3 606 792 has been recognized in financial statements of 2007. In 2008 and 2009 in Company's financial statements the revaluation of PPE was performed under its estimated market (sales) price, and in the result the net book value of land and buildings has been reduced in 2008 for EUR 1 931 073 and in 2009 for EUR 410 947.

During the preparation of financial statements of the reporting year the management of the Group has prepared estimation of recoverable value of land and buildings by the value in use basis, with application of the future cash flow and discounting method. The current value of estimated future cash flows is higher than the residual value of assets as a result the impairment of assets value has not been recognised.

b) Capital commitment

During the reporting year, the Company has initiated agreements with the Latvian Investment and Development Agency (LIAA) within the EU co-funded project "High value-added investments' execution". Financing for the Company will be available of 35% of the eligible project costs, provided that the terms for the financing specified in the agreement will be satisfied. Within the project the Company has signed contracts with 18 suppliers for equipment purchases. Till the end of the year in accordance with the agreements advances have been paid for equipment in amount of EUR 1 384 380, which are recognized in the item "Assets under construction and advances." Following the signed agreements the Company has obligation to make total payments for equipment in the amount of EUR 3 643 867.

c) Other notes

All intangible and tangible assets of the Group are pledged in accordance with terms of Mortgage and Commercial pledge agreements as security for loans from banks (see Note (18)).

The total initial value of the fully depreciated tangible assets at the end of the year amounted to EUR 6 898 649 (31.12.2012. EUR 6 778 990).

The Council members do not receive additional remuneration for the performance of their duties.

(24) Tax Contingent Liabilities

The tax authorities may at any time conduct the tax audit for the last three years (for transfer pricing - for five years) after the taxation period and apply additional tax liabilities and penalties. The Management of the Group is not aware of any circumstances that could cause potential significant liabilities in the future.

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

(25) **Financial and capital risk management**

The Group's activity is exposed to various financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Management of the Group seeks to minimize potential adverse effects of the financial risks on the Group's financial standing. The Group does not use derivative financial instruments to hedge certain risk exposures.

(a) Market risk

(i) Foreign exchange risks

The Group acts internationally and is exposed to foreign currency exchange rate fluctuation risk arising from the currency fluctuations of euro, US dollar (USD) and Russian ruble (RUB) to lats and against other currencies fixed to euro. The risk of foreign currency comes from future commercial transactions, recognized assets and liabilities. The majority of raw materials are purchased by the Group in euro, rubles and US dollars, but the significant part of the production is sold in the domestic market and exported to the markets where USD and ruble dominate.

At the end of the year the Company has an open position in euro, but considering held in 2014 Latvian national currency changeover to the euro at the current exchange rate, 0.702804 LVL/EUR, it do not lead to currency risk.

The Group significant open currency positions:

The following table demonstrates the sensitivity to a reasonably possible change in currency rates on outstanding foreign currency financial assets and liabilities. With all the other variables held constant the Group's profit before tax is affected as follows:

	2013		2012	
	Change in exchange rates	Effect on profit before tax EUR	Change in exchange rates	Effect on profit before tax EUR
USD	+10%	71 307	+10%	152 465
	-10%	(71 307)	-10%	(152 465)
RUB	+10%	80 513	+10%	139 126
	-10%	(80 513)	-10%	(139 126)

AS "Daugavpils Lokomotīvu Remonta Rūpnīca"
CONSOLIDATED ANNUAL REPORT
for the period ended 31 December 2013

Financial and capital risk management (continuation)

(b) Interest rate risks

The Group is exposed to interest rate risk as the most liabilities are interest-bearing with the floating interest rate (Note (18)), while the main part of the Group's financial assets are interest-free receivables, therefore the Group is exposed to floating interest rate risk. In 2013 the Group's liabilities with floating interest rates increased, because the Group received additional loans.

	31.12.2013.	31.12.2012.
Financial liabilities with variable interest rate, EUR calculated in LVL	2 719 202	1 984 541
Financial liabilities with variable interest rate, USD calculated in LVL	520 868	727 559
Open positions, net, Ls	3 240 070	2 712 100

The following table demonstrates the sensitivity to a reasonably possible change in interest risk on outstanding currency financial assets and liabilities. With all the other variables held constant the Group's profit before tax is affected as follows:

	2013		2012	
	Increase/ decrease in basis points	Effect on profit before tax	Increase/ decrease in basis points	Effect on profit before tax
	EUR		EUR	
EUR	+30	17 292	+30	25 942
	-30	(17 292)	-30	(25 942)
USD	+30	2 664	+30	3 559
	-30	(2 664)	-30	(3 559)

(c) Credit risk

	31.12.2013.	31.12.2012.
	EUR	EUR
Maximum exposure to credit risk		
Trade receivables	1 490 984	2 592 347
Accrued income	3 456 025	5 279 223
Other receivables	141 877	38 473
Cash	216 880	41 157
	5 305 766	7 951 200

The largest concentration of credit risk arises from trade receivables and related accrued income. The Group controls its credit risk by constant monitoring the payment history of clients and by setting the crediting conditions individually. Furthermore the Group constantly monitors the book value of trade receivables to reduce the risk of bad debts. To reduce credit risks the Group requires advances or prepayment from the customers, which amount at the end of the year was EUR 2 343 949 (31.12.2012. -EUR 1 399 934).

Maturity analysis of trade receivables

	Gross amount	Accruals for bad and doubtful debtors	Trade receivables not impaired	split as: in due term	Past due*		
					< 90 days	90-180 days	> 180 days
31.12.2012. EUR	3 955 189	(1 362 842)	2 592 347	2 446 538	-	-	145 809
31.12.2013. EUR	2 870 751	(1 379 767)	1 490 984	1 425 368	-	-	65 616

* At the end of the reporting year receivable with a significant delay in payment terms amount to EUR 65,6 thousand (31.12.2012. -EUR 145,8 thousand) the net value of asset less any debts to third parties who bear the proportional risk for recovery of amounts receivable constitute obligations to the Group EUR 0 (31.12.2012. - EUR 68,3 thousand). Taking into account this arrangement, the Group's management has concluded that there is no need to make provisions for impairment losses.

	31.12.2013.	31.12.2012.
	EUR	EUR
Movement of provisions for decrease of trade receivables		
Provisions at the beginning of the year	1 362 842	1 354 575
Decrease of accruals for written off bad debts	(8 267)	(683)
Provisions created in the reporting period	25 192	8 950
Provisions at the end of the year	<u>1 379 767</u>	<u>1 362 842</u>

(d) Liquidity risk

The Group pursues a prudent liquidity risk management and maintain a sufficient quantity of cash and ensure the availability of financial funds through credit line facilities provided by banks. At the end of the reporting period the Group's current assets exceeded current liabilities by EUR 392 598 (31.12.2012. - EUR 2 248 620). Liquidity ratio at the end of the reporting period is 1,06 (31.12.2012. - 1,24). At the end of the reporting period the Group had unused credit line resources EUR 30 945 (31.12.2012. - EUR 82 716). Group's management monitors the operational forecasting of liquidity reserves, based on estimated cash flows. Most of the Group's liabilities are short-term. Management believes that the Group will have sufficient financial resources that will be generated from operating activities, for it not to be exposed to liquidity risk.

The following table shows the maturity structure of financial liabilities of the Company, that is based on non-discounted cash flows (excluding interest payments):

On 31 December, 2012	Total	<6 months	6-12 months	1-2 years	2-5 years
	EUR	EUR	EUR	EUR	EUR
Loans from Bank

All trade receivables, accrued income and other receivables are short - term, with a maturity 1 year or less.

(e) Capital Management

According to the Latvian Commercial Law requirements if the equity of the Company falls below 50% of the share capital, the Board is required to address shareholders to make decisions on Company's going concern. Equity of the Company meets the Latvian legal requirements. Company's management manages the capital structure on going concern basis. Part of the Group subsidiaries have negative equity and the Company has provided representation of future financial support. During the reporting period there were no changes in capital management objectives, policies or processes.

Group's management controls the external debt (borrowings) to total capital (gearing ratio). During the reporting year this figure has decreased significantly by 9%, which is associated with the reception of new loans. Equity to total assets at the end of the year remained at high levels at 42% (31.12.2012. - 45%).

	31.12.2013.	31.12.2012.
