SHAREHOLDERS' MEETING

Shareholders realize their right to participate in the management of the Issuer at shareholders' meetings. In compliance with legal acts the Issuers shall call the annual shareholders' meeting as minimum once a year. Extraordinary shareholders' meetings shall be called as required.

1. Ensuring shareholders' rights and participation at shareholders' meetings

The Issuers shall ensure equal attitude towards all the shareholders – holders of one category of shares. All shareholders shall have equal rights to participate in the management of the Issuer – to participate at shareholders' meetings and receive information that shareholders need in order to make decisions.

1.1. It shall be important to ensure that all the holders of shares of one category have also equal rights, including the right to receive a share of the Issuer's profit as dividends or in another way in proportion to the number of the shares owned by them if such right is stipulated for the shares owned by them.

In the preparation of the policy, it is recommended to take into account not only the provision of immediate benefit for the Issuer's shareholders by paying dividends to them but also the expediency of profit reinvesting, which would increase the value of the Issuer in future. It is recommended to discuss the policy of profit division at a shareholders' meeting thus ensuring that as possibly larger a number of shareholders have the possibility to acquaint themselves with it and to express their opinion on it. The Report shall specify where the Issuer's profit distribution policy is made available.

Under the Commercial Law the distribution of profit shall be decided by the shareholders meeting. The policy of profit distribution has not been developed yet. The principle will be introduced as soon as the JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” annual result will be concluded with a profit and the previous years' losses will be covered.

1.3. In order to protect the Issuer's shareholders' interest to a sufficient extent, not only the Issuers but also any other persons who in compliance with the procedure stipulated in legislative acts call, announce and organize a shareholders' meeting are asked to comply with all the issues referred to in these Recommendations in relation to calling shareholders' meetings and provision of shareholders with the required information.

REMUNERATION POLICY

13. General principles, types and criteria for setting remuneration

The policy of the remuneration of board and council members – type, structure and amount of remuneration - is one of the spheres where persons involved has a potentially greater risk to find themselves in an interest conflict situation. To avoid it, the Issuer shall develop a clear remuneration policy, specifying general principles, types and criteria for the remuneration to be awarded to the board or council members.

13.1. The Issuers are called on to develop a remuneration policy in which the main principles for setting the remuneration, possible remuneration schemes and other essential related issues are determined. While preparing the remuneration policy Issuer should ensure that the remuneration of management and supervisory board members is proportionate to the remuneration of the Issuer's executive and managing directors and other employees.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” follows this principle of good corporate governance according to the current legislation and decisions of administrative bodies.

13.2. Without limiting the role and operations of the Issuer's management bodies responsible for setting remuneration to the board and council members, the drafting of the remuneration policy should be made a responsibility of the Issuer's board, which during the preparation of a draft policy should consult with the Issuer's council. In order to avoid conflicts of interest and to monitor the management board remuneration policy, the Issuer should appoint a responsible person having sufficient experience and knowledge in the field of remuneration for development of the remuneration policy.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” does not apply this good corporate governance principle as fixed remuneration policy will limit company's possibility to quickly involve necessary specialized staff.

13.3. Should the remuneration policy contain a remuneration structure with a variable part in the form of the Issuer's shares or share options or any other payments, including premiums, it should be linked to previously defined short-term and long-term goals and performance criteria. If remuneration depends on fulfillment of short-term goals only, it is not likely to encourage an interest in the company's growth and improved performance in the long-term. The scope and structure of the remuneration should depend on the business performance of the company, share price and other Issuer's events.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” does not foresee shares as remuneration for board, council members or other employees.

13.4. While setting the variable part of remuneration, Issuer should set limits on the variable component(s). The non-variable part of remuneration should be sufficient to allow the Issuer to withhold variable part of remuneration when necessary.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” does not apply this good corporate governance principle as in cases when there is a variable part of remuneration applied, its maximum amount is not limited as not to limit motivation of respective employees.

13.5. Where a variable part of remuneration provides Issuer's shares, share options or any other acquisition rights thereof, it should be desirable to prescribe a minimum non-used period of time.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” does not foresee shares as remuneration for board, council members or other employees.

13.6. Remuneration policy should include provisions that permit the Issuer to reclaim variable part of remuneration that were awarded on the basis of data which subsequently proved to be manifestly misstated. Such provision should be included in contracts concluded between the respective executives and the Issuer.

JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” does not apply this good corporate governance principle as criteria that are being used for calculation of the variable part of remuneration are easy to verify and possibility that they are manifestly mistaken is negligible.

13.7. Remuneration schemes that include Issuer’s shares as remuneration may theoretically cause loss to the Issuer's existing shareholders because the share price might drop due to a new issue of shares. Therefore, prior to the preparation and approval of this type of remuneration, it shall be required to assess the possible benefits or losses.

13.8. When preparing the remuneration policy where a variable part is in the form of the Issuer's shares or share options, the Issuer shall be obliged to disclose information on how the Issuer plans to ensure the amount of shares to be granted in compliance with the approved remuneration schemes—whether it is planned to obtain them by buying on a regulated market or by issuing new shares.

13.9. While drafting the remuneration policy and envisaging awarding options entitling to the Issuer's shares, the Stock Exchange rules regarding distribution of share options should be taken into account.

13.10. While setting remuneration principles with regard to board and council members, they should include general approach as to compensations, if any, in cases when contracts with the said officials are terminated (termination payments). Termination payments should not be paid if the termination is due to inadequate performance.

If the JSC „Daugavpils Lokomotīvu Remonta Rūpnīca” breaks the contracts with the board members, only according to RL law payments are made.
