- The annual report includes the profit made to the date of balance sheet only;
- All losses made over the accounting year or previous years have been taken into account;
- All depreciation amounts have been calculated and taken into account, regardless of whether the accounting year was ended with profit or loss;
- All costs and income pertaining to the accounting year have been taken into account, irrespective of the date of payment, as well as the date when invoice has been received or issued. The costs and income over the reporting period have been coordinated.

Income recognition and net turnover

Net turnover is a total amount of the value of products sold and services rendered over the year without discounts and value added tax. Income from the sale of products is recognized as soon as the most significant title is conferred on the customer and risks to the products and remuneration can be assessed properly. Income from service rendering is recognized as soon as the service is rendered. Other types of income are recognized as follows:

- Income from rent – at the moment it is generated;
- Income from penalty and delay payments – at the moment they are received;
- Dividends – at the moment legal rights to the dividends are established.

Capital assets and intangible assets

Capital assets and intangible assets have been reflected on the balance sheet in their purchase prices, excluding depreciation.

Depreciation of capital assets and intangible assets has been calculated according to the straight-line method. No depreciation of land has been calculated. In order to calculate depreciation of capital assets and intangible assets the following depreciation norms (% a year) approved by the Management has been used:

Intangible assets:

- Licences 20%
- Software 50%

Capital assets:

- Premises, buildings 1.1 – 1.9 %
- Equipment and machinery 2 – 20 %
- Other capital assets and inventory 10 – 50 %

Repair or maintenance costs of capital assets have been included in the profit and loss account of the period during which they have been incurred. Repair (renovation) and modernization costs that increase value of the capital assets or prolong period of using them have been capitalized and written off during the period they were used effectively.

Unfinished construction and costs of capital asset creation

Unfinished construction reflects costs of capital asset creation and costs of construction objects. The unfinished construction has been given in its initial value. The initial value includes construction costs and other direct costs. Depreciation of the unfinished construction has not been calculated, since the relevant assets have not been finished and put into operation.

Financial leasing

In cases capital assets have been acquired on conditions of financial leasing, leasing interest payments and payments considered as such have been included in the profit and loss account of the period they were incurred.

Receivables

Evaluation of the remaining amounts of materials and primary materials has been carried out by employing the FIFO method.

Inventory of low value has been recorded on the basis of purchase cost price written off 100% after having been put into operation.

Remaining amounts of finished products and unfinished products have been assessed according to their cost prices. The reserves at the amount of LVL 153 459 (EUR 218 352) have been established for stocks of slow-turnover.

Debts of debtors

Debts of debtors have been reflected on the balance sheet in their net values subtracting special provisions for doubtful debtors. Special provisions for doubtful debtors are created for those cases when the Management believes that the debtors are not likely to repay their debts.

Currency unit and recalculation of foreign currency

Indicators reflected in the annual report have been given in the national currency of the Republic of Latvia – lats (LVL). All transactions carried out in foreign currencies have been recalculated in lats according to the exchange rate of the Bank of Latvia set on day when the relevant transaction is takes place.

Notes (cont.)
Accounting policy (cont.)

Profit made or loss incurred as a result of fluctuations of exchange rates has been reflected in the profit and loss account of the corresponding period.

Data of the Financial report that are represented in EUR are recalculated in conformity with the exchange rate set by the Bank of Latvia as of 31.12.2013. : 1 EUR – 0.702804.

1 USD	0.515	0.531
1 RUB	0.0156	0.0174

Long-term and short-term items

Long-term items comprise amounts whose terms of receipt, payment or write-off fall due later than after the end of the corresponding accounting year. Amounts to be received, paid or written off in a year are given in the short-term items.

Other securities

Short-term investments in securities not quoted in stock exchange have been given in their purchase values.

Long-term investment revaluation reserve

Long-term invest revaluation reserve is reduced if the revaluated object has been removed or sold.

Provisions

Provisions are recognized if the Company has liabilities due to some event in the past and there is a possibility that in order to meet those liabilities resources promising economic gains could be diverted from the Company and if amount of liabilities can be assessed properly.

Holiday provisions are calculated by multiplying the average earnings of an employee by the average number of holidays not taken by an employee.

Provisions for warranty repairs. A warranty period of the Company's basic products is 2 years. In 2013 warranty repair costs accounted is only 1.73% of the net turnover. Since amount of the warranty repair costs is of no high importance, provisions for warranty repairs are not created.

Deferred tax

Deferred corporate income tax have been calculated according to the liability method regarding all temporary differences between values of assets and liabilities reflected in the annual report and their values for tax calculation. Deferred tax has been calculated by using the tax rate of 15% laid down the Law. The said temporary differences have mainly occurred because of using different rates when calculating depreciation of capital assets in financial accounting and tax calculation, as well as due to holiday provisions.

Risk management

Risk management is an integral part of management process of the holding companies. Risk management in the holding companies is controlled by the Council and the Board of the parent company. In its activities holding companies follows the general principles of risk management listed below:
