GENERAL INFORMATION

Artea Bankas AB was registered as a public company in the Enterprise Register of the Republic of Lithuania on 4 February 1992. The Bank is licensed by the Bank of Lithuania to perform all banking operations provided for in the Law on Banks of the Republic of Lithuania and the Charter of the Bank. In this document, Artea Bankas AB is referred to as the Bank, Artea Bankas AB and its subsidiaries (described in more detail in Note 2) - the Group.

The Head Office of the Bank is located in Šiauliai, Tilžės str. 149, LT-76348. At the end of the reporting period the Bank had 54 customer service outlets (31 December 2024: 54 outlets). As at 30 September 2025 the Bank had 1,130 employees (31 December 2024: 1,090). As at 30 September 2025 the Group had 1,277 employees (31 December 2024: 1,239 employees).

On May 5, 2025, the bank changed its name from AB Šiaulių bankas to AB Artea bank. The brand update reflects the strategic direction and goal of becoming the leading bank in Lithuania by 2029.

The Bank accepts deposits, issues loans, makes money transfers and documentary settlements, exchanges currencies for its clients, issues and processes debit and credit cards, is engaged in trade finance and is investing and trading in securities, as well as performs other activities set forth in the Law on Banks of the Republic of Lithuania and the Charter of the Bank

The Bank's shares are listed on the Baltic Main List of the Nasdaq Stock Exchange.

This condensed interim financial information for the nine months period ended 30 September 2025 has been prepared in accordance with IAS 34, "Interim Financial Reporting" as adopted by the EU. The condensed interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2024, which have been prepared in accordance with IFRS accounting standards ("IFRS"). Except for the points described below, all the accounting policies applied in the preparation of this condensed interim financial information are consistent with those of the annual financial statements of the Bank for the year ended 31 December 2024.

This does not include all the information necessary to prepare comprehensive financial statements prepared in accordance with IFRS accounting standards. However, selected explanatory notes are provided, which explain the events and transactions important for understanding the changes in the Group's financial position and performance since the last annual financial statements

New and amended standards and interpretations

The Bank's management do not believe that newly published standards, amendments and interpretations that are mandatory for the Group's and Bank's reporting periods beginning on or after 1 January 2025 will have a material impact on the Group's and Bank's financial statements, also there are no new standards, amendments and interpretations that are mandatory for the Group and the Bank with effect from 2025, and that would have a material impact on the Group's and the Bank's financial information.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates. In preparing these condensed interim financial statements, the significant judgements made in applying Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the period ended 31 December 2024, except for judgements and estimations used for calculation of impairment, which were revised to reflect the most recent economic forecasts. These assumptions and evaluations are described in more detail in notes 1, 10, and 11.

These financial statements combine the consolidated financial statements for the Group and stand-alone financial statements of the Bank. Such format of reporting was adopted to ensure consistency of presentation with the format prescribed by the Bank of Lithuania and applied for statutory reporting.

No significant amounts of the Group's and the Bank's income or expenses are of a substantial seasonal nature.

(All amounts are in EUR thousand, unless otherwise stated)

NOTE 1 LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES

Credit risk is the risk that the Group or Bank will incur losses due to customers' failure to meet their financial obligations to the Group or Bank. Credit risk mainly arises from lending activities and is the most significant risk in the Group's and Bank business. It also arises from investment activities (debt securities), from the Group's or Bank asset portfolio and from off-balance sheet financial instruments (e.g. lending commitments, guarantees, letters of credit).

The Group and Bank has a credit risk management system in place, which is continuously improved and includes lending policy, a system of credit risk limits, other credit risk management measures, as well as internal control and internal audit of credit risk management.

The Group and Bank assumes risk only in areas that are well known to it and in which it has gained positive experience, in order to avoid excessive risk in transactions that could have a negative impact on a large share of shareholders' equity, while at the same time ensuring an

adequate level of profitability which, given the increasing competition, would ensure the Bank's stable position in the market and increase the Bank's value.

When assessing the credit risk assumed, the Group and Bank follows the principles of prudence, conservatism and caution.

The Group and Bank credit risk management is organized in such a way as to avoid conflicts of interest between staff or structural units. When granting credit to clients, the Group and Bank follows the principle that profit must not be pursued at the expense of excessive credit

Maximum credit risk, disregarding collateral and other credit risk mitigation measures:

Through its subsidiaries, UAB "Artea Retrofit Fund 1" and UAB "Artea Retrofit Fund 2", the Bank has granted loans as an investment in a securitization instrument intended to finance multi-apartment building renovation projects.

The Bank's investments in securitization are carried out in several stages, across different investment tranches characterized by varying levels of risk.

Part of the investments made to date were into the tranche with the most significant risk. Therefore, in accordance with IFRS 9 requirements the loans granted to UAB "Artea Retrofit Fund 1" and UAB "Artea Retrofit Fund 2" are measured at fair value through profit or loss and are presented in the statement of financial position under the line item "Loans granted to customers."

At initial recognition, the fair value of these loans was determined to be equal to their acquisition cost. As of September 30, 2025, the net value of these loans amounted to EUR 6,4 million

During the nine-month period ended September 30, 2025, a loss of EUR 319 thousand was recognized due to an increase in the fair value of these loans.

The remaining portion of loans to UAB "Artea Retrofit Fund 1" and UAB "Artea Retrofit Fund 2", which are measured at amortized cost, had a net value of EUR 66,1 million as of September 30, 2025.

Loans are assigned to stages using the following principles (a deviation from these principles is allowed in the process of individual loan assessment based on contract-specific circumstances if it would result in more precise assessment of the risk of the contract):

 $\textbf{Stage 1} \ \text{loans: loans with no increase in credit risk observed}.$

Stage 2 loans: loans with an increase in credit risk observed. Main reasons for determining an increase in credit risk are: deterioration of borrower's financial status from the initial (this criteria is not applicable to the low credit risk loans, i.e. loans that have internal

borrower's financial status assessment grades "very good" or "good" or investment grade credit ratings by external credit rating agencies), payment delay of over 30 days, and other objective criteria showing an increase in credit.

Stage 3 loans: defaulted loans. Main reasons for determining a default are payment delay of over 90 days, bankruptcy of the borrower, termination of the contract, start of the foreclosure procedures and other objective criteria.

NOTE 1 LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES (CONTINUED)

As lending activities are oriented to Lithuanian market, the Bank and the Group held no significant direct loan positions in Russia, Belarus and Ukraine. Potential risk assessment for separate sectors has not demonstrated economic sectors for which risk would be increased. Due to potential increase in credit risk the Bank has individually assessed clients with loans

and finance lease contracts which have medium or high dependency from countries mentioned above through supply or sales chains or through holders structure and if increase in risk was determined credit stages for certain clients were reduced.

NOTE 2 SECURITIES

Securities in the trading book

Securities in the trading book are comprised of trading securities and other securities that cover insurance contract liabilities under unit-linked insurance contracts of life insurance subsidiary. These securities are measured at fair value through profit or loss.

Taking into account Artea Life Insurance investment strategy, which does not involve active trading or short-term profit seeking and is instead focused on holding securities to ensure liquidity, part of the securities was reclassified from the "Securities in the trading book" to "Investment securities". Both categories of securities continue to be measured at fair value.

Investments in subsidiaries

The Group's structure and ownership remained unchanged during the nine month period ended 30 September 2025 and the last three quarters of the comparative year ended 31 December 2024. During the first quarter of 2024, the Bank's directly owned subsidiary UAB

Šiaulių Banko Lizingas was liquidated. Details (date of registration, registered office address and company code) of the Group companies are disclosed in the additional information section "Bank's Company group". Bank's investments in subsidiaries consisted of:

| | Share in equity | 30 September 2025 | 31 December 2024 |
|---|-----------------|-------------------|------------------|
| Artea Life Insurance GD UAB | 100% | 42,015 | 37,910 |

| Artea retrofit fund 2 UAB | 100% | 100 | 100 |
| Total investments in subsidiaries at fair value | | 270 | 270 |
| | | | |

In accordance with the agreements with investors and the provisions of IFRS 10, the Bank does not have control over Artea retrofit Fund 1 UAB and Artea retrofit Fund 2 UAB, therefore these companies are not consolidated in the Group's consolidated financial statements. In accordance with the provisions of IFRS 9 applicable to contractually linked instruments, the investments in Artea retrofit Fund 1 UAB and Artea retrofit Fund 2 UAB are carried at fair value through profit or loss and are shown in the line 'Investments in subsidiaries' in the statement of financial position. The fair value of these investments was determined at initial recognition to be the same as their acquisition cost. Since initial recognition, there have been no circumstances that would have resulted in a material change in the fair value of the investment in Artea retrofit Fund 1 UAB and Artea retrofit Fund 2 UAB.

As at 30 September 2025, the net assets of the pension funds managed by the Group company UAB *Artea Asset Management* amounted to EUR 1,454,093 thousand, and the net assets of the investment funds amounted to EUR 109,934 thousand.

$\underline{\textbf{Impairment losses on investments in subsidiary companies}}$

When indications of impairment are identified, the Bank tests investments in subsidiaries for impairment. The Bank determines the recoverable amount of investments in subsidiaries based on the discounted estimated future cash flows that the subsidiary will generate. The future net cash flows of fund management and real estate management subsidiaries are assessed taking into account the planned cash inflows from fund management, and from the sale of financial and other assets held, less cash outflows related to management and development expenses. The discount rates are based on the current cost of capital of the

investments in subsidiaries. Group management uses estimates when forecasting cash flows and determining the discount rates used in the impairment testing.

Determination of impairment of goodwill and fund management rights

To determine impairment, goodwill and fund management rights are allocated to two cashgenerating units – the Bank's subsidiary UAB GD "Artea Life Insurance" and UAB "Artea Asset Management". The recoverable amount of UAB GD "Artea Life Insurance" is determined using embedded value calculations. Embedded value is equal to the sum of the value of the existing business and the value of free capital. The value of the existing business is calculated using management's assumptions regarding cash flows from the insurance portfolio and income from the capital employed, which are discounted to present value using a discount rate of 9.40% (2024 - 9.40%), reflecting the current market assessment of the time value of money and the related risks. The recoverable amount of UAB "Artea Asset Management" is determined using discounted cash flow calculations. The cash flows used in the calculations are based on the forecasts provided in the 2025-2030 budget approved by the management of the subsidiary. The forecast cash flows are discounted to present value using a discount rate that reflects the current market assessment of the time value of money and the related risks, which amounted to 9.9% (2024 - 13%). In Q3 2025 and in 2024 no impairment of goodwill and fund management rights was identified. The Group's management uses estimates when forecasting cash flows and determining the discount rates used in the goodwill impairment test. Changes in these estimates and assumptions may have a significant impact on the determination of goodwill. An increase of 1% in the discount rates used in the impairment assessment for 2024 and Q3 2025 (with other factors unchanged) would not result in any additional impairment

NOTE 4 DEPOSITS FROM CLIENTS (CONTINUED)

Hedge accounting

After renewed accounting policy Bank went to the IRS agreements which were accounted according hedge accounting principles. The Bank's objective is to mitigate the impact of changes in market interest rates on the fair value of certain balance-sheet items and to reduce volatility in profit or loss. In accordance with IFRS 9 — Financial Instruments, the Bank applies fair value hedge accounting for micro hedging relationships. For macro hedging relationships, hedge accounting continues to be applied under the principles of IAS 39, consistent with the

Bank's existing portfolio hedge framework. All fair value changes of both hedged items and hedging instruments are recognized directly in profit or loss under Financial income/expense from valuation of fair value hedging derivatives. The fair value adjustment of hedged items is presented in the statement of financial position as Fair value changes of hedged items in fair value portfolio hedge of interest rate risk. Hedging instruments are presented as Financial assets or financial liabilities held for trading and hedging derivatives.

The Bank at this moment applies only fair value hedge accounting.

Reserve for acquisition of own shares

On August 15, 2024, the Bank received permission from the European Central Bank (ECB) to repurchase up to 13,745 thousand of its own shares.

During the twelve-month period ending on December 31, 2024, the Bank acquired 10,343 thousand of its own shares, paying EUR 8,375 thousand for them.

As of December 31, 2024, the Bank held 10,343 thousand of its own shares, with a carrying amount of EUR 8.375 thousand.

On January 24, 2025, the Bank completed a share buyback program on the regulated market, which had been in effect since November 4, 2024. During this period, the Bank acquired 5,092 thousand of its own shares, representing 74% of the maximum number of shares that could be acquired under the limit set during the program's validity, for EUR 4,345 thousand, paying an average price of EUR 0.853 per share.

On April 30, 2025, the Bank's Management Board, implementing the decision of the Bank's Annual General Meeting of Shareholders held on March 31, 2025, regarding the acquisition of own shares, resolved to approve a new share buyback program for the Bank's own shares (ISIN code LT0000102253), the sole purpose of which is to reduce the Bank's share capital.

This share buyback program is being carried out in accordance with the so-called "safe harbour" provisions set out in Article 5 of Regulation (EU) No. 596/2014 of the European Parliament and of the Council on market abuse, Articles 2–4 of the Commission Delegated Regulation (EU) No. 2016/1052 supplementing Regulation (EU) No. 596/2014 with regulatory technical standards concerning the conditions applicable to buy-back programmes and stabilization measures, and other applicable legal provisions.

On June 10, 2025, the Bank completed another share buyback program on the regulated market, which had been in effect since May 5, 2025.

During this period, the Bank acquired 2,540 thousand of its own shares, representing 96% of the maximum number of shares that could be acquired under the limit set during the program's validity, for EUR 2,226 thousand, paying an average price of EUR 0.876 per share.

The shares were repurchased based on the ECB's August 15, 2024 authorization to acquire up to 13,745 thousand of its own shares. As of June 30, 2025, the bank had 13,138 thousand of its shares, with a carrying amount of 11,085 thousand euros, and an average acquisition price of 0.84 euros.

On April 9, 2025, the Bank submitted a request to the ECB for authorization to acquire an additional 4.5 million of its own shares, and in total, it plans to allocate up to 5% of the 2024 profit for share repurchase activities this year.

On 23 September 2025, the Bank received authorisation from the European Central Bank (ECB) to acquire up to 4,500 thousand of its own shares (ISIN code LT0000102253). The shares may be repurchased within one year from the date of issuance of this authorisation.

As at 30 September 2025, the Bank held 2,540 thousand of its own shares with a carrying amount of EUR 2,143 thousand and an average acquisition price of EUR 0.84

As of September 30, 2025, the carrying amount of the reserve for acquiring own shares was EUR 20,000 thousand (EUR 20,000 thousand as of December 31, 2024).

Other Equity

Other equity consists of the amount corresponding to the obligation to provide the Bank's shares to Group employees as part of variable remuneration.

The Group's remuneration policy includes two main components – fixed remuneration and variable remuneration – as well as various additional benefits. Employees whose professional activities and/or decisions may have a significant impact on the level of risk assumed by the Group receive deferred variable remuneration.

Until 2018, the Group's incentive scheme provided for deferred payments in shares and cash, comprising no less than 40% of variable remuneration, to be paid in equal parts over a three-year period. Since 2019, under the Group's incentive scheme, employees whose professional activities and/or decisions may have a significant impact on the level of risk assumed by the Group receive 50% of the annual long-term incentive program in cash and 50% in Bank share options, with a maturity of 3 years. Since 2023, the maturity of the Bank's share options is 4–5 years. The number of options depends on the monetary value of the achieved results divided by the average price of the Bank's shares on the Nasdaq Vilnius Stock Exchange over the five months prior to the remuneration award. One option is converted into one ordinary share.

The Group assessed the fair value of the share options using the Black-Scholes model, which corresponds to Level 3 of the fair value hierarchy. Model inputs include:

- For the option granted on March 31, 2025: grant date (March 31, 2025), expiry dates (April 14, 2028; April 13, 2029; and April 12, 2030), share price on the grant date EUR 0.899, 3-year exercise price EUR 0.7683, 4-year EUR 0.74, 5-year EUR 0.736, expected Bank share price volatility 22%, risk-free interest rates 2.5% and 2.8%;
- For the option granted on March 31, 2024: grant date (March 31, 2024), expiry dates (April 14, 2028 and April 29, 2029), share price on the grant date EUR 0.709, exercise price EUR 0.577422, expected Bank share price volatility 25%, risk-free interest rates 3.5% and 2.3%;
- For the option granted on March 31, 2023: grant date (March 31, 2023), expiry dates (April 9, 2027 and April 14, 2028), share price on the grant date EUR 0.747, exercise price EUR 0.65, expected Bank share price volatility 26%, risk-free interest rates 5% and 2.3%;
- For the option granted on March 30, 2022: grant date (March 30, 2022), expiry date (April 11, 2025), share price on the grant date EUR 0.656, exercise price EUR 0.588, expected Bank share price volatility 28%, risk-free interest rate 0.1%.

The value of the options is included in the Other equity line in the statement of financial position. Other equity consists of:

Forward-looking macroeconomic scenarios

As environmental factors changed, assumptions and estimates used in probability of default (PD) estimations were changed. The scenarios used to calculate PDs were based on the latest available economic change scenarios published by institutions, Group's management assigned judgement-based probabilities to these scenarios. It should be noted that economic

forecasts used took into account ongoing Russia's invasion to Ukraine, as well as took into considerations uncertain situation regarding changes in USA tariffs. But without knowing result scenario of it significant uncertainties existed on how it will impact further global, country and sectors development trends. Due to such circumstances there is a significant probability that actual results may deviate from the estimated.

NOTE 13 LIQUIDITY, MARKET AND OPERATIONAL RISKS

Liquidity risk

Liquidity risk means the risk that the Bank is unable to meet its financial obligations in time or that it will not manage to receive financial resources during a short time by borrowing or selling the assets.

Liquidity risk management process

The liquidity risk management depends on the Bank's ability to cover the cash shortage by borrowing from the market and the liquidity of the market itself. Liquidity risk management is regulated by the Procedures for Liquidity Risk Management approved by the Board of the Bank. The management of the current and non-current liquidity risk is distinguished in the mentioned procedures. The current liquidity is based on the control of the incoming and outgoing cash flow. The non-current liquidity is managed on the limit system basis.

Tables below present the assets and liabilities according to their remaining maturity defined in the agreements. However, actual maturity of the particular types of assets and liabilities may be longer as, for example a portion of loans and deposits is extended and thus the real repayment terms of short-term loans and demand deposits move forward

The structure of the Group's assets and liabilities by maturity as at 30 September 2025 was as follows:

Operational Risk

Operational risk is the risk of loss due to inadequate or unimplemented internal control processes, staff errors and/or malpractice, and information system failures, or due to the impact of external events. Operational risk, unlike other risks (credit, market, liquidity), is not taken on purposefully with the expectation of gain but arises spontaneously in the course of the Bank's business.

In 2024, the Bank paid particular attention to strengthening the culture of operational and reputational risk across the Bank Group. At the beginning of the year, e-learning on operational risk management was updated and made available to all Group companies. The focus continued to be on improving outsourcing management processes, involving all Group companies. These processes have been updated in line with the requirements of the Digital Operational Resilience in the Financial Sector Regulation (DORA) for ICT services. In January 2025, the updated Outsourcing and ICT Service Management Procedures were approved.

Business continuity management remains one of the Bank's key priority areas. In 2024, a comprehensive business continuity testing exercise was carried out, which was successful and did not reveal any material weaknesses in the business continuity management. In January 2025, the Comprehensive Testing Report and the Action Plan were presented, approved by the RMC and presented to the Bank's Board. In March 2025, the Business Continuity Organisation Procedure was updated, and the Crisis Management Action Plan was developed and approved.

To ensure that business continuity recovery plans are effective and properly implemented in crisis situations, the Bank and Group companies regularly conduct tests and exercises. This allows to prepare in advance for potential crises and to ensure that the plans function as intended. To achieve this, the Bank is developing a Group Business Continuity Testing Programme, which was approved by the RMC in March 2025.

To enhance resilience and ensure operational stability, the Bank's business continuity, outsourcing and ICT management services, and operational and reputational risk culture will continue to be further developed and ensured at a comprehensive Group-wide level in 2025.

In order to increase resilience and ensure operational stability, in 2025, the Bank will continue to improve and ensure the continuity of its operations, outsourced services, information and communication technology management services, and the strengthening of its operational and reputational risk culture across the entire Group.

In the second quarter of 2025, the Comprehensive Testing Scenario Development Working Group assessed possible testing scenarios and submitted a draft Comprehensive Testing Scenario to the RVK for approval. A Quarterly Business Continuity Monitoring Report has also been prepared, which will be submitted to the RMC (Risk management committee), RC (Risk committee), and the Board.

NOTE 14 FINANCIAL ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Types of inputs used in valuation techniques determine the following fair value hierarchy:

- Level I Quoted prices (unadjusted) or public price quotations in active markets for identical assets or liabilities;
- Level II Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- \bullet Level III inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During nine months period ended 30 September 2025 the process of fair value measurement did not change significantly as compared to the process described in first quarter financial

statements for the year 2024. For the valuation of financial assets and liabilities purposes, estimates, valuation techniques and inputs used to develop those measurements have not changed significantly if compared to those described in annual financial statements for the year 2024.

Taking into account Artea Life Insurance investment strategy, which does not involve active trading or short-term profit seeking and is instead focused on holding securities to ensure liquidity, part of the securities was reclassified from the "Securities in the trading book" to "Investment securities". Both categories of securities continue to be measured at fair value

(All amounts are in EUR thousand, unless otherwise stated)

NOTE 15 SEGMENT INFORMATION

Business segments

In relation to adjusted strategy of the Bank, business model and strategic decisions are divided into three business lines – corporate, private and investment. Due to such reasons Group's segment information is provided in different form if compared to previous periods starting from 1 January 2025. Comparable segmentation information for 2024 is also provided using new form.

A summary of major indicators for the main business segments of the Group included in the Statement of financial position as at 30 September 2025 and in the Statement of comprehensive income for nine months period then ended is presented in the table below:

ACTIVITY RESULTS

"Artea" Bank Group's Results for the First Nine Months of 2025

- Profit. The Group earned EUR 48.4 million in net profit over the first nine months.
- Fee and commission income. Net fee and commission income grew 8% year-on-year to reach EUR 22.7 million.
- Deposit portfolio. The deposit portfolio increased by 11% since the beginning of the year, exceeding EUR 3.75 billion.
- Loan portfolio. The loan portfolio exceeded EUR 3.7 billion, growing 8% year-on-year.
- Share buyback. The Group received authorization to repurchase up to 4.5 million of its own shares.
- Partnership. "Artea" launched a strategic partnership with BC Žalgiris Kaunas.

"Our performance this quarter reflects solid execution of our strategy and the resilience of our business model. Net fees and commission income grew by 8% year on year. We continue to operate in a healthy macroeconomic environment, which—combined with our prudent underwriting—supports excellent asset quality across the portfolio.

We also launched a cost-optimization program aimed at simplifying our structure, increasing efficiency, and driving long-term profitability. Operating expenses, excluding costs related to strategic initiatives, are returning to normal levels. Our successful €300m Senior Preferred issuance — our second transaction this year —enhances our funding diversification.

I am also pleased to highlight an important strategic partnership with one of the most renowned sports clubs in the Baltic region – Žalgiris, Kaunas. This partnership will further strengthen the market position of the Artea brand," said Vytautas Sinius, CEO of Artea Bank.

Artea Bank Group earned EUR 48.4 million in unaudited net profit in the 9 months of 2025, down 24% from the same period in 2024. Operating profit before impairment and income tax

Overview of business segments

Corporate client segment

The volume of new business financing agreements decreased by 13% over the year and reached EUR 0.7 billion in the 9 months of 2025 (EUR 0.9 billion in the 9 months of 2024).

Since the beginning of the year, the business loan portfolio grew by 6% (EUR 117 million) and exceeded EUR 1.9 billion. Despite rapid growth, the quality of the loan portfolio remains high - in the 9 months of 2025, Cost of risk ratio (CoR) of the business loan portfolio was -0.19%.

Private client segment

Artea Bank has launched a long-term strategic partnership with the Žalgiris Kaunas sports club, aiming to further strengthen the awareness of its renewed brand and be closer to its customers. As part of this partnership, two new Žalgiris branded payment cards have been introduced – a unique offering in the market.

In the 9 months of 2025, the volume of new mortgages increased by 17% to EUR 220 million compared to the same period last year. Since the beginning of the year, the housing loan portfolio has grown by 14% (EUR 131 million) and exceeded EUR 1 billion. The morgage segment is experiencing pressure from declining interest rates, driven by EURIBOR trends and the newly introduced regulations on loan refinancing, which have encouraged customers to negotiate for more favorable terms.

Investment client segment

Artea Bank has strengthened its leading position in the bond issue market, with the value of bonds issued on behalf of corporate clients since the beginning of 2025 reaching EUR 195 million. Artea continues to expand the availability of this service and actively offers its customers even more digital investment tools. At the end of the Q3 2025, the value of investments under custody reached EUR 2 billion.

A record-high amount of EUR 1.45 billion has been accumulated in Artea Asset Management's 2nd and 3rd pillar pension funds. Investment returns have increased participants' assets by EUR 55 million since the beginning of this year alone, and by more than EUR 500 million since the last pension reform in 2019. Over this period, the total assets accumulated by clients have tripled.

Over the past five years, Artea has led in returns among all 3rd pillar pension funds compared to funds of the same risk group managed by other providers, as well as among 4 out of 9 of its 2nd pillar pension funds, compared to funds of the same age group managed by other providers²

REGARDING EXTERNAL ENVIRONMENT FACTORS

The Bank monitors the tense geopolitical situation in order to properly and promp1tly assess and determine the potential impact of these factors on its operations and asset quality. Currently, the most significant geopolitical factors are Russia's invasion of Ukraine and the state of international trade affected by U.S. tariff changes and the retaliatory actions of other countries

The Bank continuously monitors both financial and non-financial risks that could escalate due to Russia's war in Ukraine. The Bank's direct exposure in Russia. Belarus, and Ukraine is close to zero, as it does not operate in these countries. Secondary risk is also insignificant, since few clients depend on business relationships with these states.

Significant attention is given to managing non-financial risks arising from the war (such as IT, compliance, and operational risks) and to strengthening the business continuity framework to ensure the Bank's resilience under various scenarios.

The Bank also monitors and assesses financial risks that may arise from the international trade situation linked to U.S. tariff changes and countermeasures by other countries. These risks

could affect financial instrument prices or weaken borrowers' financial standing. The risk related to financial instrument prices in the Bank's balance sheet remains at an acceptable level, as the majority of the Bank's fair value investment portfolio consists of bonds. No significant direct impact on borrowers' financial condition has been identified so far, although increased competition could potentially deteriorate the financial situation of some borrowers in certain scenarios.

The greatest uncertainties and potential negative impacts stem from the indirect (tertiary) effects of geopolitical factors — namely, their influence on the overall economic environment. To assess this impact, the Bank uses scenario analyses and stress testing. These assessments indicate that the Bank's capital position remains strong, and it would be able to withstand significant shocks associated with economic downturns.

The Bank continues to closely monitor other geopolitical developments and is prepared to respond swiftly should any significant changes occur.

RATINGS

On September 15, 2025, the international credit rating agency Moody's Investors Service affirmed Artea Bank long-term deposit rating at Baa1. The outlook for the long-term deposit rating was confirmed as "stable." This is the highest rating in the bank's history. Moody's also affirmed the long-term Counterparty Risk Rating (CRR) at A3 and the long-term Counterparty

Risk Assessment (CR Assessment) at A3(cr). Additionally, the agency affirmed the bank's short-term deposit rating at P-2 and the short-term CR Assessment at P-2(cr). The Baseline Credit Assessment (BCA) was affirmed at baa3

COMPLIANCE WITH PRUDENTIAL REQUIREMENTS

Operational efficiency remains high. The Bank's capital and liquidity position remains strong, with regulatory risk limits being met with an adequate buffer. As of September 30, 2025, the Bank complied with all prudential ratios set by the supervisory authority.

The liquidity calculation methodology is currently being reviewed to align it with supervisory expectations and best practices. The review also includes adjustments addressing observations made by the European Central Bank during the 2025 inspection of the Bank's

liquidity risk management framework, identifying areas for improvement. The methodology review is planned to be completed by the end of 2025.

As a result of the methodology review, the LCR ratio decreased by 23 percentage points in the second quarter of 2025 and by an additional 34 percentage points in the third quarter. It should be noted that, if this revised methodology were applied retrospectively, the indicators for previous periods would be lower as well. Regardless of methodological differences, the financial group complied with all applicable prudential requirements both at the end of 2024 and throughout 2025.

The main financial indicators of the Group:

As of September 30, 2025, the updated MREL requirements (Minimum Requirement for Own Funds and Eligible Liabilities), established for the Financial Group in February 2025, remained in effect. The MREL requirements have been applicable since January 1, 2024.

- The Financial Group must comply with the minimum requirement for own funds and eligible liabilities, defined as 22.73% of risk-weighted exposure amounts (MREL-TREA) and 7.20% of leverage ratio exposure amounts (MREL-LRE)
- Subordinated instruments must account for 13.50% of risk-weighted exposure amounts (subordinated MREL-TREA) and 7.20% of leverage ratio exposure amounts (MREL-LRE).

The MREL requirement levels are reviewed annually by the supervisory authorities. The Financial Group's MREL requirements are summarized in the following table:

| | 2025/01/01 | 2025/09/30 |
|------------------------|-------------------------------|-------------------------------|
| | (requirement without buffers) | (requirement without buffers) |

or operating results in the future. There were also no transactions concluded in the event of a conflict of interest between the Bank's managers, controlling shareholders or other related parties' duties to the Bank and their private interests and/or duties.

DIVIDENDS

In 2018, the Supervisory Council approved the dividend policy. Carrying out its activities and planning the capital the Bank seeks to ensure a competitive return on investment through dividends and increasing stock value. The Bank shall pay dividends on two assumptions - when external and internal capital and liquidity requirements will be sustained, and the level of capital after dividends will remain sufficient to carry out all approved investment and development plans and other capital-intensive activities. Considering the above-mentioned principles and assumptions, the Bank shall seek to allocate at least 25 per cent of the earned annual profit to dividends.

The Ordinary general meeting of shareholders held on 29 March 2024 approved allocation of the profit of Artea Bank AB which included a pay-out of dividends - 0.0485 euro shall be paid for each ordinary registered share with a nominal value of 0.29 euro.

The Ordinary general meeting of shareholders held on 31 March 2025 approved allocation of the profit of Artea Bank AB which included a pay-out of dividends - 0.061 euro shall be paid for each ordinary registered share with a nominal value of 0.29 euro.
