III. INFORMATION ABOUT THE ISSUER'S BUSINESS ACTIVITIES

11. Overview of Company's business activities during the reporting period

According to the non audited consolidated financial information the AB "Snaigė" has achieved a consolidated turnover of 64,3 million LTL during the first half of 2009. Major part of turnover, namely 53,8 million LTL, the company achieved in Alytus plant. The work in Kaliningrad plant was suspended since March due to ruble devaluation and economic recession in Russia.

According to AB „Snaigė“ managing director Gediminas Čeika the company was able to stabilize its activities. „During the second quarter of this year the company experienced only 3,5 million LTL. consolidated non audited loss, which is 4 times lower than it was the first quarter“ said G. Čeika. „Second quarters consolidated non audited EBITDA was 144 thous. LTL. This is a good result compared with first quarters (-9,2 million LTT) and it shows that company is moving towards the right direction.

First quarters optimization of management processes in the company and a significant decrease in sales in the key markets of Russia and Ukraine, had major consequences on AB „Snaigė“ first half results of 2009.

During the first half of 2009 AB „Snaigė“ had 17,6 million LTL non audited consolidated loss before taxes. The loss due to the ruble devaluation amounted to over 6 million LTL, and severance pay for dismissed employees amounted to around 5 million LTL.

Currently, Alytaus plant is running on 100% capacity., works five days a week. The company has more orders then it can produce, but cannot increase production due to the lack of working capital.

The company received INVEGA guarantee for 5 million. LTL. and is negotiating with banks to receive a loan for its working capital.

A part of operational risk is the legal risk, which occurs in case of inappropriate execution or implementation of various treaties, contracts, agreements, cases, and laws.

IV. UPDATE AND ESSENTIAL EVENTS OF THE ISSUER'S ACTIVITIES

15. Essential events of the issuer's activities

January 21, 2009. The only domestic refrigerators manufacturer in the Baltic states AB „Snaigė“ continues to implement radical means in order to increase efficiency of the company operations and reduce manufacturing costs.

According to general director Mr. Čeika, operation expenses will be decreased not only by saving and more strict control of company's spending, but also by decreasing number of employees. In the first quarter of this year the number of employees in the Alytus factory will be decreased by approx 300. These changes are determined not only by declining consumption of products but also by the drastic devaluation of local currencies in the company's strategic markets.

“The devaluation of local currencies in Russia and especially in Ukraine has struck not only us but all the exporters of large domestic appliances”, - comments G. Čeika. “Sales in these very important for us markets have stopped and there is no evidence that these markets will revive in this quarter. As a result, we had to reduce manufacturing plans and decrease number of employees.

Mr. Čeika has stressed that AB „Snaigė“ will create all possible opportunities to alleviate social consequences of the workforce cut. According to him, the special work group is formed in the company responsible for the issue. „We will invite representatives of Lithuanian labour exchange and training centers which will consult our employees“, - said Mr. Čeika.

G. Čeika does not reject a possibility that the company will try to re-hire part of fired employees when situation becomes better.

January 22, 2009. Management board of AB „Snaigė“ decided to convene the Extraordinary General Meeting AB „Snaigė“ (code 249664610) shareholders on February 23, 2009 at 10:00 in the main meeting hall of the company (Pramonės str. 6, Alytus).

February 27, 2009. Interim financial reports for 12 month of year 2008 and preliminary results for year 2008 of AB „Snaigė“

1. Preliminary consolidated non-audited results for 2008

Sales and other revenues: 341.69 m. LTL (98.96 m. EUR).

Loss before tax: -25.98 m. LTL (-7.52 m.EUR),

Net loss: -22.99 m. LTL (-6.66 m.EUR),

EBITDA: 2.94 m. LTL (0.85 m.EUR).

Despite AB „Snaigė“ in previous years had put lots of effort into optimization of company's management and manufacturing processes, minimization of costs and structuring of sales markets, it was not enough to counter the consequences of global economic recession in the main sales markets of the company.

After stopping of the sales in Ukraine and partially in Russia the company has lost up to 35 m.LTL of planned revenues. Only due to devaluation of Russian rubble, which began at the end of 2008, the company has lost 8.4 m.LTL. As a result the year was ended with 22.986 m.LTL non-audited consolidated loss before taxes, instead of projected loss of 15 m.LTL.

In 2009 in response to decreasing consumption, AB „Snaigė“ continues optimization of manufacturing scope, minimization of costs, rejects small and less profitable clients and concentrates on serving the most perspective and profitable ones.

After implementation of these means the company plans to undergo the difficult period and does not eliminate the possibility, that at the peak refrigerator buying season the product demand and sales will increase.

March 9, 2009. Alytus, 9 March 2009. Alytus factory of the only refrigerators producer in the Baltic states AB „Snaigė“ from 9 March 2009 will not work for 4 days.

According to the director general Gediminas Čeika, the company meets its customers' demand both by manufacturing new products and selling already manufactured products from the warehouses. „After the decrease in demand in main company's markets we are seeking not to increase the number of ready-made products kept in warehouses and to manufacture only the amount for which we have outstanding orders“ - said Gediminas Čeika.

According to Gediminas Čeika, effective management of manufacturing processes and minimization of costs are the main means to assure successful business activity during current adverse economic period.

AB „Snaigė“ will restore manufacturing on 16 March 2009.

March 10, 2009. Investments of the only refrigerator manufacturer in the Baltic states AB „Snaigė“ in year 2009 will amount up to 1.8 m.LTL. These investments will be intended to maintain effective functioning of current technological base.

On the agenda:

1. The annual report on the company's activities for the year 2008;
2. Auditor's report on company's financial statements of the year 2008;
3. Approval of company's annual financial statements of the year 2008;
4. Approval of the 2008 profit appropriation;
5. Changes in the Company's Statute;
6. Election of Management Board member;
7. Members of audit committee election and regulations of committee approval.

Shareholders who at the end of the accounting day of the Annual General Meeting of Shareholders, i.e. April 15, 2009, will be on the shareholders list of the Company have a right to participate and vote at the General Meeting personally, by proxy, or represented by a person with whom an agreement on the transfer of voting rights is concluded.

The shareholders attending the meeting must provide personal identification document. The authorized representatives of the shareholders must additionally possess a proxy approved by the procedure prescribed by law.

April 6, 2009. On 6 April 2009 AB „Snaigė“ did not fully redeem the bond issue with maturity of 367 days, which was issued in year 2008.

Due to high losses incurred during 2008 the company didn't manage to generate enough cash needed for redemption of the bonds and due to unfavorable conditions in country's credit market required funds were not possible to borrow from banks.

Almost all of the owners of the bonds issued in 2008 agreed to refinance possessed securities by acquiring newly issued AB „Snaigė“ convertible bonds with maturity of 367 days and annual interest rate of 18%. For such investors instead of cash, payable on the redemption day, newly issued bonds with corresponding acquisition value were granted. Major shareholders of AB „Snaigė“, who were also the holders of largest part of bond issue of year 2008, decided to refinance all securities. In total bond holders have refinanced 85% of year 2008 bonds issue.

The company will start negotiation with the owners of bonds which were not redeemed regarding settlement of new redemption term.

April 6, 2009. The subscription period of AB „Snaigė“ convertible bonds with maturity of 367 days and annual interest rate of 18% has ended. During the subscription period the whole issue with nominal value of 7 500 000 EUR was subscribed.

80% of bonds were subscribed by holders of year 2008 AB „Snaigė“ bond issue who decided to refinance their securities. Instead of receiving cash on the redemption day these investors were granted newly issued bonds for the corresponding subscription value.

The remaining part of the issue was subscribed by major shareholders of AB "Snaigė" who converted loans, earlier provided to the Company, into newly issued bonds.

The fact that majority of the newly issued bonds were subscribed by the holders of year 2008 bond issue shows that bond holders do understand current complicated financial situation of the Company and believe in Company's ability to redeem the newly issued bonds after one year.

April 23, 2009. We would like to present the consolidated financial statements for the year 2008, the report of auditor, the confirmation of responsible persons and the consolidated annual report.

May 4, 2009. Joint Stock Company “Snaige” from the May 4th is back to the normal five days a week work schedule. According to AB Snaige General Manager Gediminas Čeika, returning to the five working days have been planned in advance. "Refrigerators sale season starts from around the month of May. From this period, always feel the increased need for our products. Therefore, the return to five working days of the week was provided at the end of last year, "- said Gediminas Čeika.

May 11, 2009. Notification on transactions concluded by managers of the companies

Announcement about the executive officer's transaction of the issuers securities.

May 15, 2009. The only domestic refrigerators manufacturer in the Baltic states AB „Snaigė“ submitted an application to the NASDAQ OMX Vilnius AB for the transfer of the issuer's securities from the NASDAQ OMX Vilnius Main List to the NASDAQ OMX Vilnius Secondary List.

May 27, 2009. On 22 May 2009 the subscription period of AB „Snaigė“ bonds with maturity of 321 days and annual interest rate of 14% has ended. During the subscription period 5 295 bonds with nominal value of 100LTL were subscribed.

The issued securities were exceptionally offered only for the holders of AB “Snaigė” bonds which were not redeemed on 6 April 2009 by allowing to swap one non-redeemed bond to one newly issued. In such a way holders of 18% of all non-redeemed bonds agreed to restructure their overdue securities.

The company invites the holders of remaining non-redeemed bonds to continue negotiations in order to identify solution appropriate for both parties.

May 29, 2009. According to unaudited consolidated data the revenues of AB “Snaige” have reached 32.8 m.LTL in the first quarter of 2009. The revenues were two times smaller than in the same period in 2008 (79.08 m.LTL).

According to the director general of AB "Snaige" Gediminas Čeika, reached revenues are the same as planned in the beginning of the year, taking into account that only one of company's two factories was operating and that only one shift was employed for 4 days a week. "The first quarter was challenging" - says G. Čeika. - "Due to devaluation of local currencies in Russia and Ukraine and due to 18% increase in import tax in Ukraine sales in these main markets of AB "Snaige" have significantly decreased. Due to decreased sales we were forced to reduce number of employees, restructure manufacturing and adapt to new conditions.

During the first wuarter of 2009 the company has incurred consolidated unaudited loss before tax of 14 m.LTL. Loss due to devaluation of Russian rubble amounted about 6 m.LTL, and due to employees severance compensation - about 3 m.LTL.

According to director general of AB "Snaige" the loss is almost 5 m.LTL smaller than consolidated loss before taxes incurred during the last quarter of 2008. "This is small, but still a step ahead" - says G. Čeika. - "After the beginning of hot season we started to receive more orders, entered into 5 working days per week manufacturing mode. However we are unable to increase manufacturing significantly due to lack of working capital. If the company would be successful in receiving government support or reaching more favorable agreements with Lithuanian banks, we would be able to manufacture more refrigerators and fulfill more orders."

According to consolidated unaudited data, AB "Snaige" has reached EBITDA of -9.2 m.LTL.

The consolidated non-audited interim financial reports for 3 months of 2009 and the confirmation of accountable persons (attached).

16. Court and arbitrage processes

Currently the court procedure is in progress regarding the fire in France, damage value around 73 033, 01 EUR. It is suspected, that fire has started due to the overheating of refrigerator compressor, which was manufactured by AB „Snaige“. However, it is not proved so far. The settlement agreement was signed.

Currently the dispute is being solved in Ukraine concerning the debt repayment for "Snaigė". The total amount is 572 616,11 UAH.

Currently the court procedure is in progress regarding the fire in Lithuania. It is not enough evidence that fire was caused of a poor quality refrigerator manufactured by AB "Snaigė". The court has received comments from AB "Snaigė" regarding the claim. The next trial period is not assigned yet.

Currently the court procedure in Lithuania is in progress regarding the failure to redeem the bonds.

The ongoing dispute with UAB „Fibiura“.

2 Accounting principles

The main accounting principles used in preparation of Group's financial accounts as of 30 June, 2009:

2.1. Preparation basis of financial statement

These financial statements are prepared according to international financial reporting standards (IFRS), which are accepted in the European Union countries.

2.2. Currency of financial statement

Accounting of the Group is done using the domestic currency of the Country, and all the sums of these financial accounts are expressed in the national currency of the Republic of Lithuania, Litas (LTL).

From 2 February, 2002 Litas is pegged with Euro at a rate 3.4528 LTL for 1 Euro, and the exchange rate with other currencies is decided by the central bank of the Republic of Lithuania every day.

The valid currency exchange rates were:

	<u>2009-06-30</u>	<u>2008-12-31</u>
Russian rouble	0.078771	0.083337
Ukraine hryvnia	0.32088	0.32161
U.S. dollar	2.4643	2.4507

2.3. Principles of consolidation

Consolidated financial statements of the Group include AB “Snaigé” and its controlled subsidiaries and associated companies. This control is normally evidenced when the Group owns, either directly or indirectly, more than 50 percent of the voting rights of a company’s share capital and/or is able to govern the financial and operating policies of an enterprise so as to benefit from its activities. The equity and net income attributable to minority shareholders’ interests are shown separately in the consolidated balance sheet and consolidated income statement.

The purchase method of accounting is used for acquired businesses. The Company accounts for the acquired identifiable assets and liabilities of another company at their fair value at acquisition date. The difference of the acquired minority interest value in the Group’s financial statements and costs of shares is accounted for as goodwill.

During consolidation all the transactions between the companies, balance and unrealized profit and loss are eliminated.

Consolidated financial statement is prepared applying same accounting principles to similar transactions and other events with similar situations.

2.4. Intangible assets, except for goodwill

Intangible assets are recognized if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets are amortized on a straight-line basis over their estimated useful lives.

Research and development

The cost of research expensed during the objective for new technological improvements, are accounted in the profit (loss) account at the moment when they were expensed.

Expenses from the development activities of creation of new or enhanced products and operational processes are capitalized if the product or the process is technically and commercially proven and the Group has enough resources and intentions to finish the creation of this product or process. Capitalized expenses include raw material and direct work expenses as well as respective additional expenses. Capitalized development expenses are accounted at their cost subtracting the accumulated depreciation. Capitalized product creation expenses are being amortized as soon as product creation works are finished and their results can be used in commercial production. Capitalized product creation expenses will be amortized over the period when the economic benefit is received. The amortization period applied varies from 1 to 4 years.

Licenses

Amounts paid for licenses are capitalized and then amortized over their validity period.

Software

The costs of acquisition of new software are capitalized and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortized over a period not exceeding 3 years.

Costs incurred in order to restore or maintain the future economic benefits that the Group expects from the originally assessed standard of performance of existing software systems are recognized as an expense when the restoration or maintenance work is carried out.

2.5. Tangible non-current assets

Tangible non-current assets are assets that are controlled by the Group, which is expected to generate economic benefits in the future periods with the useful life exceeding one year, and which acquisition (manufacturing) costs could be reliably defined and is higher than 500 LTL. Liquidity value is equal to 1 LTL. Tangible fixed assets are accounted for at cost, which does not include the daily maintenance costs, less accumulated depreciation and estimated impairment losses. The acquisition value includes the tangible assets replacement cost, when incurred, if such costs meet the asset recognition criteria, and modified parts are written off. Tangible assets are retired when it is sold or no economical benefit is expected from its sale. Any gain or loss resulting from the write-down of assets (calculated as the net sales proceeds and the carrying value of the assets) are included in the income (loss) statement, which the property is retired.

The initial cost of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repair and maintenance costs, are normally charged to the income statement in the period the costs are incurred.

Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings and structures (excluding commercial buildings)	15 – 63 years
Machinery and equipment	5 – 15 years
Vehicles	4 – 6 years
Other assets	3 – 8 years

Construction in progress is stated at cost less accumulated impairment. This includes the cost of construction, plant and equipment and other directly attributable costs. Construction in progress is not depreciated until the relevant assets are completed and put into operation.

2.6. Inventories

Inventories are valued at the lower of cost or net realizable value, after impairment evaluation for obsolete and slow moving items. Net realizable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost is determined by the first-in, first-out (FIFO) method. The cost of finished goods and work in progress includes the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Unrealizable inventory has is fully written-off.

In calculating cost of goods Group attributes part of received discounts towards the acquired goods from the distributor, which are not yet sold.

Inventories in transit are accounted for in accordance with INCOTERMS-2000 condition requirements, when risk and benefit, in accordance with inventories, goes to the Group.

2.7. Receivables and loans granted

Receivables are initially recorded at the fair value of the consideration given. Receivables and loans granted are subsequently carried at amortized cost, less impairment.

2.8. Cash and cash equivalents

Cash includes cash on hand and cash with banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits at current accounts, and other short-term highly liquid investments and bank overdrafts.

2.9. Borrowings

Borrowing costs are expensed as incurred.

Borrowings are initially recognized at fair value of proceeds received. They are subsequently carried at amortized cost, the difference between net proceeds and redemption value being recognized in the net profit or loss over the period of the borrowings. The borrowings are classified as non-current if the completion of a refinancing agreement before authorization of the financial statements for issue provides evidence that the substance of the liability at the balance sheet date was non-current.

2.10. Factoring

Factoring transaction is a funding transaction wherein the company transfers to factor claim rights for determined fee. The companies alienate rights to receivables due at a future date according to invoices. Factoring transactions of the Group comprise factoring transactions with regress (recourse) right (the factor is entitled to returning the overdue claim back to the Group) and without regress (recourse) right (the factor is not entitled to returning the overdue claim back to the Group). The factoring expenses comprise a lump-sum contract fee charged on the conclusion of the contract, commission fees charged for processing the invoices, and interest expenses depending on the duration on the payment term set by the debtor. Factored accounts receivable (with regress right) and related financing are recorded in accounts receivable caption and liabilities to credit institutions caption in the financial statements.

2.11. Financial lease and operating lease

Operating lease – the Group as lessee

The Group recognizes the lease assets and obligations in the balance sheet on the day of the leasing period. Initial direct costs related to assets, are included in the asset value. Lease payments are apportioned between the finance cost and the remaining obligation. The financing costs are allocated over the lease period so as to meet the constant rate of interest payable from the rest of the commitment of the end of each reporting period.

Direct costs incurred by the tenant during the lease period, is included in the leased assets.

The depreciation is calculated for the assets purchased with financial lease; in addition, financial costs are incurred due to financial lease over the reporting period. Depreciation scheme for the calculation of lease payments for the purchased assets is similar as in the property. But such assets cannot be depreciated over a longer period than the lease period, if according to the contract at the end of the contract period; the property is not transferred to the Group.

Operating lease – the Group as lessor

Assets to which the property-related risks and benefits maintains the lessor, rent is classified as operating leases. Lease payments under operating leases are recognized straight-line method over the cost of the lease period and are included in operating costs.

2.12. Grants and subsidies

Grants and subsidies received in the form of non-current assets or intended for the purchase, construction or other acquisition of non-current assets are considered as asset-related grants. Assets received free of charge are also allocated to this group of grants. The amount of the grants related to assets is recognized in the financial statements as used in parts according to the depreciation of the assets associated with this grant. In the income statement, a relevant expense account is reduced by the amount of grant amortization.

Grants received as a compensation for the expenses or unearned income of the current or previous reporting period, also, all the grants, which are not grants related to assets, are considered as grants related to income. The income-related grants are recognized as used in parts to the extent of the expenses incurred during the reporting period or unearned income to be compensated by that grant.

2.13. Provisions

Provisions are recognized when the Group or the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each balance sheet date and adjusted in order to present the most reasonable current estimate.

2.14. Revenue recognition

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of the revenue can be measured reliably. Sales are recognized net of VAT and discounts.

Revenue from sales of goods is recognized when delivery has taken place and transfer of risks and rewards has been completed.

Service revenue is recognized using the accrual basis and recognized in profit (loss) statement when services are rendered and end user accepts it.

In the consolidated profit (loss) statement sales between the Group companies are eliminated.

2.15. Expense recognition

Expenses are recognized on the basis of accrual and revenue and expense matching principles in the reporting period when the income related to these expenses was earned, irrespective of the time the money was spent. In those cases when the costs incurred cannot be directly attributed to the specific income and they will not bring income during the future periods, they are expensed as incurred.

2.16. Foreign currencies

Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies on the balance sheet date are recognized in the income statement. Such balances are translated at period-end exchange rates.

The accounting of subsidiaries is arranged in respective local currencies, which is their functional currency. Financial statements of foreign consolidated subsidiaries are translated to Litas at year-end exchange rates in respect to the balance sheet accounts, and at the average exchange rates for the year in respect to the accounts of the statement of income.

On the net investment in foreign Group companies resulting from the conversion into Litas occurring foreign currency exchange rate differences are recorded in shareholder's equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign subsidiary are treated as assets (or liabilities related to fair value adjustments) of the acquired company and are recorded at the exchange rate at the balance sheet date.

2.17. Segments

Business segment is considered component of the Group participating in production of an individual product or provision of a service or a group of related products or services, the risk and returns whereof are different from other business segments.

Geographical segment is considered component of the Group participating in production of an individual product or provision of a service or a group of related products or services, in particular economic environment the risk and returns whereof are different from other economic environments.

For the management purpose Group's activities is organized as one main segment – manufacturing of refrigerators. Financial information about the business and geographical segments is represented in 3rd note of these financial statements.

2.18. Subsequent events

Post-balance sheet events that provide additional information about the Group's position at the balance sheet date (adjusting events) are reflected in the financial statements. Post-balance sheet events that are not adjusting events are disclosed in the notes when material.

2.19. Offsetting and comparative figures
