# AS TALLINNA KAUBAMAJA

## Annual Report 2002

### MANAGEMENT REPORT

#### The Group

The consolidated results of Tallinna Kaubamaja Group include 100% subsidiaries AS A-Selver, AS Tartu Kaubamaja, Tallinna Kaubamaja Kinnisvara AS and associated company Rävälä Parkla AS (50%).

The consolidated net sales for the year 2002 were 1,53 billion kroons; 97,9 million euros (including parent company 584,6 million kroons; 37,4 million euros). The increase in net sales was 5,7% during the year and the increase in selling area was 7,4%. The market share of Tallinna Kaubamaja Group in the retail market was 6,2% by the end of 2002.

The audited net profit of Tallinna Kaubamaja Group was 45 million kroons; 2,9 million euros with an increase of 9,3 million kroons; 0,6 million euros or 26% over the net profit for 2001. The net profit margin was 2,9% and the respective indicator of the previous year was 2,5%. Net profit per share was 6,6 kroons; 0,4 euros in 2002 and 5,3 kroons; 0,3 euros in 2001.

The total assets of Tallinna Kaubamaja Group were 776,4 million kroons; 49,6 million euros as at 31 December 2002, showing an increase of 77,7 million kroons; 5 million euros.

During the year 2002 the investments in tangible fixed assets were 185,3 million kroons; 11,8 million euros. Major investments included the buildings of Merimetsa Selver in the amount of 35 million kroons; 2,2 million euros and Torupilli Selver in the amount of 32,9 million kroons; 2,1 million euros. The lease agreement of Mai Selver in Pärnu has been capitalized in the amount of 42,8 million kroons; 2,7 million euros. Investments in furniture and fixtures of new Selvers were made in the amount of 21,5 million kroons; 1,4 million euros and investments of equipment of Selvers amounted to 26,7 million kroons; 1,7 million euros. The liabilities of the Group have been increased by 100,6 million kroons; 6,4 million euros. The main sources of the increase in liabilities were an increase of debt by 55,8 million kroons; 3,6 million euros and an increase of commercial credit by 39,6 million kroons; 2,5 million euros. The increase in debt is attributable to the payout of higher than regular dividends in the amount of 67,9 million kroons; 4,3 million euros. The size of dividends was caused by the necessity to redesign the capital structure of the Group and pave the way to an improved return on equity in the future.

The owners' equity was 376 million kroons; 24 million euros as at 31 December 2002, i.e. 48% of assets.

The average number of employees was 1215 in 2002.

The efficiency of the Group considerably improved in 2002: the net sales per employee increased by 17% and the sales area per employees increased by 19% over the previous year. The average number of employees decreased by 9,7%. The stock turnover improved by 9,8% in 2002.

The total personnel expenses of the Group in 2002 were 130,4 million kroons; 8,3 million euros. The amount paid to the Chairman of the Board including the social tax was as follows: the remuneration and compensation for resignation of Toomas Tamsar amounted to 848 thousand kroons; 54,2 thousand euros and the remuneration of Raul Puusepp totaled to 224,4 thousand kroons; 14,3 thousand euros. The amount paid to members of the Supervisory Board was 990,1 thousand kroons; 63,3 thousand euros.

The number of loyal customers has increased by 35% during 2002, reaching 93 000 private persons by the end of the year.

In May 2002 new loyal customer card was launched – Partner Card. In connection with that the programs of loyal customers in Kaubamaja and Selver were separated from each other. The department stores maintained the existing conception of the program (5% discount on every purchase, 10% discount during the birthday of the customer, special offers). The new conception of the program of loyal customers in Selver was driven by the mismatch of the existing program launched in 1995 in Kaubamaja and extended to Selver with the needs of the expanded Selver chain and the current market situation in the supermarket sector. Under the new program customers receive bonus points on every purchase and take part in lotteries with good chances to win and also get special offers. A great number of retail and services companies have joined the program offering special terms to customers in 100 different outlets.

Tallinna Kaubamaja AS Supervisory Board released Toomas Tamsar from his duties as Chairman of the Management Board, effective January 26, 2002. Employment contract was terminated by agreement of the parties. Since March 7 the Supervisory Board appointed Raul Puusepp, Chairman of the Management Board of Tartu Kaubamaja, as new Chairman of the Group. Raul Puusepp simultaneously continued to hold his position as Chairman of the Management Board of Tartu Kaubamaja.

The Supervisory Board of AS A-Selver released Urmo Vallner from his duties as Chairman of the Management Board, effective November 4, 2002 and nominated Ain Taube, Development Director of A-Selver, as new Chairman of the Management Board.

#### Outlook of the retail market in 2003

In 2003 a big increase in the shopping space will have a strong effect on retail market, started in 2002 already. In 2002 major shopping centres opened ca 70 thousand sq m of new shopping space. Most of the new space (with the exception of the expansion of Kristiine Centre) took place in 4<sup>th</sup> quarter of 2002, so its influence was within a short period. The time-weighted

## **AS TALLINNA KAUBAMAJA**

### **Annual Report 2002**

increase in shopping space in 2002 was ca 13%. At the same time the increase in the retail sales (excluding motor cars and gasoline) was ca 15,8% according to preliminary statistics – the biggest increase since 1997.

Although 2003 will not see an increase in shopping space of comparable size, the time-weighted increase will be ca 20%. That is mainly due to the full effect of the space opened in the 4<sup>th</sup> quarter of 2002. Most important centres to be opened in 2003 are the Mustakivi Centre in Lasnamäe and the development in Sõpruse pst. in Mustamäe. The anchor tenant of both of them will presumably be Citymarket (Kesko).

The expected increase in personal savings and other costs outside the retail sector (household and mortgage costs, etc) do not allow forecast the increase in retail sales in 2003 to be as optimistic as in 2002. The formerly important increase component of gradually legalized open market sales will have a much lesser effect in 2003. Our expectation of the increase in retail sales in 2003 is ca 7-10%.

#### Tallinna Kaubamaja and Tartu Kaubamaja

There have been some significant changes in the activities of Tallinna and Tartu Kaubamaja.

As of January 2002 the sales staff in both department stores works in 8-9 hour shifts. The planning of workforce by week and day has thereby been synchronized with customer flows, resulting in considerable improvement in labour efficiency.

The most important change in Kaubamaja's main process was the start of category management in October. It means that the sales area and assortment are managed by dividing the whole sales environment into specific parts, characterized by fixed sales area and location in the department, stylistic consistency in visual merchandising and fixed assortment. Sales planning relies on category-based goals. In connection with the change, the roles of sales and service staff have been partially redefined.

The number of suppliers has been significantly reduced and better contract terms agreed upon. Some additional new suppliers and brands have been added to the brand portfolio. A great emphasis has been laid on the completeness of fashion collections. New visual merchandising standard has been implemented, helping the client make easier purchase decisions.

An important issue of 2002 has been inventory management. Purchasing volumes have been planned more accurately than before and the supply cycle has been improved. The new more flexible pricing strategy enables to consider more precisely the expectations of target customers, competitive situation in the market and existing inventory.

2002 has brought along specific attention to creating an entertaining retail environment. Several new ideas and events were carried out, climaxing in the Christmas campaign and its opening extravaganza.

In relations with our loyal customers, we have taken a firm course towards personalizing the relationship. 2002 was the first year of Kaubamaja's new loyal customer magazine Hooaeg (The Season) that has received very positive feedback from the customers and with its circulation of 60 000 is on its way to being an integral part of the Estonian media landscape also from the advertisers' point of view.

An important task of 2003 is the revamping of the supply chain with an aim of cutting costs and being able to plan the supply cycle better. The plan is to outsource handling and storage-related activities to a strategic partner.

Inventory management will continuously be improved. A new inventory provision system is being introduced as part of the plan, helping us to deal with the structure of the inventory on arrival-time basis.

The most important development project of Tallinna Kaubamaja in 2003 is connected with the planned opening of a new wing in the Viru Keskus shopping centre which is currently under construction and will be open for business in the spring of 2004. Tallinna Kaubamaja will rent ca 7150 sq.m sales area in the new centre. Part of the existing 9 500 sq m sales area will be rented out and the total sales area of the department store after opening in the shopping centre will be ca 13 500 sq m.

The priority of Tartu Kaubamaja is to maintain its leading position on the retail market of Tartu and continue development activities for opening in the new Hansakvartal center that will be open in the autumn of 2004. According to preliminary plans, the sales area of the new Tartu Kaubamaja will be ca 7 500 sq m

#### A-Selver

The number of Selver stores was doubled in 2003, reaching 10 by the end of the year. On May 10 Mai Selver was opened in Pärnu, on May 30 Merimetsa Selver in Tallinn, on October 5 Krooni Selver in Rakvere, on October 17 Männimäe Selver in Viljandi and on December 12 Torupilli Selver in Tallinn. With the opening of five new Selvers the selling space increased by 6 914 sq m.

## **AS TALLINNA KAUBAMAJA**

### **Annual Report 2002**

As the majority of retail sales has been concentrated in big chains and the expected increase in sales will be below the rates of previous years, the competition among big chains will be even tougher. Selver already began its adaptation to the changes in the market situation in the spring of 2002 by reducing the prices.

In 2003 the policy to offer good prices in Selver stores will be continued. More attention will be paid to price-sensitive sector of potential customers, widening so the amount of target customers. In addition to improving the assortment and offering better prices Selver will also focus on the further improvement of customer service, sales environment and the Selver Cousine with the aim of maintaining the values of Selver: quick service, convenience, good prices and good assortment.

The main target of 2003 is to increase the sales of the Selver chain. This is supported by the five new Selvers opened in 2002 and also the increase of opening time by two hours, changes in market communication and widening of the target customer segment. In 2003 it is planned to open new Selver stores. The concentration of retail space is varied in different regions of Estonia. In Tallinn and other cities there is still room for new stores.

#### Tallinna Kaubamaja Kinnisvara

The buildings of Tallinna Kaubamaja Kinnisvara are leased to other members of the Tallinna Kaubamaja Group (Tallinna Kaubamaja and A-Selver).

The most important event in 2002 was the construction of the buildings of Merimetsa and Torupilli Selver. The parking lot of Pirita Selver was extended. Improvements were made to the buildings leased by Tallinna Kaubamaja and Pirita Selver. With the aim of building new Selver stores land was purchased in Narva, in Vesivärava Street in Tallinn and in Saaremaa.

Preparations for the construction of the new building for Tartu Kaubamaja were continued: additional archaeological excavations were carried out and competition for architectural design organised.

The main objective of 2003 is the construction of the Tartu Kaubamaja building and finding new sites for the expansion of the Selver chain. The building of Tartu Kaubamaja will have ca 20 000 sq m of selling, service and office space.

The company shall continue preparations for the extension of the building leased by Pirita Selver and the redesign of some of the space presently leased by Tallinna Kaubamaja after its expansion to the Viru Keskus Shopping Centre.

Accounting principles on pages 11-13 and Notes to the Financial Statements on pages 14-26 are the inseparable parts of the Annual Report.

## **Accounting methods and principles used in preparing the financial statements**

### Accounting principles

AS Tallinna Kaubamaja (hereinafter Tallinna Kaubamaja) is the business entity registered in the Republic of Estonia on 18 October 1994. The shares of AS Tallinna Kaubamaja are quoted on Tallinn Stock Exchange.

The consolidated financial statements of Tallinna Kaubamaja Group for the year ended on 31 December 2002 involve the parent company and its subsidiaries (hereinafter Group) and the share of Group in the associated company.

The Group's consolidated financial statements and the annual report of Tallinna Kaubamaja have been prepared in accordance with International Accounting Standards (IAS).

### Bases of preparing the financial statements

The financial statements have been prepared in Estonian kroons rounded to the closest thousand. The data provided in the financial statements have been presented under the historical cost convention, except as disclosure in the accounting policies below.

### Consolidation

Subsidiaries are the companies controlled by the parent company. The control exists when the parent company has direct or indirect authority to determine the financial and operating principles and gain profit from the activities of investment object. The existence of control is expected when the parent company has direct or indirect share of over 50%. The activities of the subsidiary are recorded in the financial statements from the start of the control up to its termination.

The financial statements of parent company and subsidiaries are consolidated line by line in the Group report. Unrealised profits, receivables, liabilities, income and expenses from the transactions between the Group companies in the Group consolidated report have been eliminated.

The subsidiaries have been accounted for using the equity method in the report of Tallinna Kaubamaja.

### Associated companies

Associated companies are the investment objects, where the Group has direct or indirect authority but not control over determining the financial and operating principles. The presumption of material share is considered the 20-50% share in the company as the investment object. The share of Tallinna Kaubamaja and Group from the profits and loss of the associated company is recorded in the financial statements from the start of material control up to its termination. The associated companies have been recorded using the equity method in the report of Tallinna Kaubamaja and the Group.

### Cash and cash equivalents

Cash in hand, bank account balances (excl. overdraft), term deposits up to 3-month and liquid shares in the banks are recorded as cash and cash equivalents. Liquid shares in the banks' money market funds are presented in the fair value.

### Trade receivables

Trade receivables are carried at original invoice amount less provision made for impairment of the receivables. A provision for impairment of trade receivables is established when there is an objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables.

### Inventories

Inventories are recorded at acquisition cost consisting of the purchase price, transportation costs and other direct costs related to acquisition. Inventories are accounted for by using the FIFO method.

Inventories are carried at the lower of cost and net realisable value. The write-down of inventories is recorded as the cost of goods sold in the income statement.

Unrealised food inventories in the canteen and unused requisites not acquired for resale are recorded as raw materials and work-in-progress.

The amounts paid to the suppliers for the purchases of goods, but which have not arrived for the balance sheet date, are recorded as prepayments.

### Fixed assets

Assets with a useful life of over 1 year and an acquisition cost of over 10 000 kroons are recognised to be fixed assets. Assets with a useful life of over 1 year but acquisition cost less than 10 000 kroons are fully expensed. Low-value items that have been expensed are accounted for off-balance sheet.

Tangible fixed assets are recorded at residual value in the balance sheet, presenting the acquisition cost and accumulated depreciation. The acquisition cost of fixed assets purchased includes in addition to purchase price the transport and installation costs and other expenses related to acquisition and bringing the asset into use.

Depreciation is calculated based on the straight-line method. The depreciation rates are determined for each fixed asset item individually depending on its useful life.

The annual depreciation rates for the groups of fixed assets are as follows:

- Buildings and facilities 3-8 %
- Plant and equipment 20 %
- Computer hardware and software 35 %
- Transport and equipment 25 %

## AS TALLINNA KAUBAMAJA Annual Report 2002

Buildings and facilities includes capitalized repair works for leased buildings which is depreciated over their useful life or during the lease period, depending which is shorter  
Land is not depreciated.

Since the year 2000 the fixed asset group "Land and buildings" is recorded based on the revaluation method. The revaluation is carried out by independent real estate experts. The revaluation surplus is recorded in the revaluation reserve and the revaluation decrease (exceeding the earlier valuation surplus) in the expenses. In the course of revaluation the earlier accumulated depreciation is eliminated and the revalued amount is considered so-called "new acquisition cost".

### Intangible assets

Positive and negative goodwill arising on an acquisition of investment objects is accounted for as intangible assets. Goodwill is recognized if the acquisition cost differentiates from the fair value of net assets of investment object. The straight-line method is used for calculating the depreciation of intangible assets.

Negative goodwill is recognised as income on a systematic basis over the remaining weighted average useful life of the identifiable acquired depreciable assets (assumed to be 5 years).

Positive goodwill is depreciated to the expenses during the 5 year period.

Organisation costs are not capitalised. Usually the research and development costs are expensed. The exception is the development costs that can be identified and that are likely to contribute to the generation of profit in the future periods.

### Finance and operating leases

The leased assets, in case of which the risks and compensations related to assets have been transferred to the Company, are treated as finance lease. Other lease agreements are recorded as operating lease.

#### *Company as the lessee:*

Finance leases are capitalised as an asset and liability at the lower of the fair value of the leased property or the present value of the minimum lease payments. The assets acquired under finance leases are depreciated similarly to the purchased tangible assets, over the shorter of the useful life of the asset or the lease term. Payments made under operating leases are charged to the income statement on accrual basis over the lease term.

#### *Company as the lessor:*

Assets leased out under operating leases are included in the balance sheet similar to other fixed assets. Payments made under the operating leases are credited to the income statement on accrual basis over the lease term.

### Provisions and contingent liabilities

The company's liabilities that arose in the reporting period or in previous periods, that have a legal or contractual basis, require the disposal of assets and whose cost can be determined reliably but whose final cost or payment date is not clearly fixed are recorded in the balance sheet as provisions. The management's estimates, experience and, if necessary, the evaluations of independent experts are taken as the basis for evaluating the provisions.

Promises, guarantees and other commitments that in certain circumstances may become liabilities are disclosed in the Notes to the financial statements as contingent liabilities.

### Corporate income tax

Up to 31 December 2002 according to Estonian Income Tax Law, which took effect on 1 January 2000, dividends paid by the company to resident natural persons and non-residents are subject to income tax (26/74 of net dividend paid). According to the change in Estonian Income Tax Law, which takes effect on 1 January 2003, dividends paid by the company are subject to income tax, not depending of the receiver of the dividends. Tax rate is 26/74 of net dividend paid.

The company's potential tax liability related to the distribution of its retained earnings as dividends is not recorded in the balance sheet. The maximum possible tax liability, which would become payable if the retained earnings would be fully paid out as dividends, is disclosed in Note 29.

Income tax from the payment of dividends is recorded as expenses at the moment of paying the dividends.

### Foreign currency transactions

Foreign currency transactions are recorded based on the foreign currency exchange rates of the Bank of Estonia officially valid on the transaction date. Assets and liabilities denominated in foreign currency as at 31 December 2002 have been revalued into Estonian kroons based on the foreign currency exchange rates of the Bank of Estonia officially valid on the balance sheet date. Profits and losses from foreign currency transactions are recorded in the income statement as income or expenses of the period.

### Borrowings

Borrowings are recognised initially at the proceeds received, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost using the effective yield method; any differences between proceeds and the redemption value is recognised in the income statement over the period of the borrowings.

## AS TALLINNA KAUBAMAJA Annual Report 2002

### Recognising revenue

Revenue from the sales of goods is recognised when the goods are sold and revenue from the sales of services is recorded upon rendering the service. Net sales includes the cost of goods and services sold during the reporting year less VAT, discounts and returned goods. Fine claims are recorded on the cash basis. Dividend income is recognised at the moment when the company's right to receive payment is established.

### Main and side activities

A geographical segment is considered as a main segment of the Group. 100% of net sales take place in Republic of Estonia, thus no segment reporting has been provided in the Notes of the Financial Statements. In preparing the financial statements retail, wholesale and catering are considered to be the main activities of the Group. All other activities are considered the side activities, the results of which are presented as other revenue and expenses or financial income and expenses. Retail sale makes over 95% of the total sales and total revenue from sales is earned in Estonia.

### Earnings per share

Basic earnings per share are found by dividing the net profit for the financial year with the average number of issued common shares. As the company has no potential common shares the diluted earnings per share is equal to the basic earnings per share.

### Subsequent events

Material matters that have an effect on the evaluation of assets and liabilities and that became evident between the balance sheet date and the date of preparing the financial statements, but are related to transactions that took place in the reporting period or earlier periods, are recorded in the financial statements.

Subsequent events that have not been taken into consideration when evaluating the assets and liabilities but have material effect on the result of the next financial year are disclosed in the Notes to the financial statements.

### Statutory legal reserve

The Commercial Code of Republic of Estonia requires that the companies should make the statutory legal reserve, the minimum size of which is 1/10 of the share capital. 1/20 of the approved net profit of the financial year is to be transferred to capital reserve as the annual statutory provision (up to fulfilment of reserve).

### Revaluation reserve of fixed assets

Revaluation reserve of fixed assets is the part of tied-up equity and is not to be allocated between the shareholders. The revaluation surplus is reduced every year by the depreciation calculated on the difference occurring from revaluation. This amount is added to the retained earnings from previous periods.

### Related parties

In the financial statements the shareholders, subsidiaries, associates, members of the management and supervisory boards, employees, and other key persons and the companies under their control are considered as related parties.

During the financial year two new supermarkets Merimetsa Selver and Torupilli Selver were built with the total cost of 67 879 thousand kroons. In Pärnu, Viljandi and Rakvere and Tallinn new Selver stores were opened for which the fixtures and fittings in the amount of 21 538 thousand kroons and the equipment worth of 26 734 thousand kroons were bought.

In connection with the opening of Järve Kaubanduskeskus (Järve Shopping Mall), major repairs of Järve Selver were made in the amount of 1 700 thousand kroons. Real Estate in Narva, Saaremaa and Tallinn with the total value of 8 832 thousand kroons was purchased. The parking lot of Pirita Selver was enlarged, with the expense of 3 715 thousand kroons. Improvement upgrades to Gonsiori real estate was made amounting to 2 700 thousand kroons, and the additional equipment and fittings for the salesrooms were bought for 4 066 thousand kroons. The real estate of Veerenni and part of the real estate nearby Paldiski Road was sold for 7 400 thousand kroons, making a profit on the sale of 826 thousand kroons.

To secure the liabilities, assets worth in net value of 269 107 thousand kroons is pledged as of 31.12.2002 (for more information refer to Note 22)

The acquisition cost of the fixed assets that are fully amortized, but still in use, was 93 877 thousand kroons as of 31.12.2002 (on 31.12.2001 50 846 thousand kroons)

Fixed assets acquired as financial lease are disclosed in Note 13.

In 2000 the fixed asset group "Land and buildings" revaluation were performed. The revaluation was carried out by independent real estate experts. The revaluation surplus was recorded in the revaluation reserve and the revaluation decrease (exceeding the earlier valuation surplus) in the expenses.

Group transaction with related parties in 2002:

During the financial year, the former Chairman of the Management Board of A-Selver, Urmo Vallner, had 50% ownership in AS Valgusreklaam. The size of the contracts was 1 641 thousand kroons. Former member of the Management Board of A-Selver AS, Ants Vasar, owned 33% of AS Mercal. The size of the contracts was 27 thousand kroons.

Tartu Kaubamaja AS, AS A-Selver and Tallinna Kaubamaja Kinnisvara AS have become the members of a joint bank account of Tallinna Kaubamaja AS. This group of companies have subsequently as a subgroup joined the joint bank account of AS NG Investeeringud (hereafter the main group), which also includes the following companies as members: AS Balbiino, AS Liviko, Liviko Kaubanduse AS, AS Kitman, AS NG Kapital, AS Ühendatud Kapital and Rocca al Mare Kaubanduskeskuse AS. Starting from the autumn of 2001 Tallinna Kaubamaja Group's available cash resources have been placed at the custody of the main group at a maximum level of 10 million kroons, earning yearly interest of 6,95%. During the year 2002 Tallinna Kaubamaja Group's interest income from the placement of available cash resources was 856 thousand kroons (in 2001 412 kroons) and interest expenses were 0 thousand kroons (in 2001 82 thousand kroons). As of 31 December 2002 and 31 December 2001 Tallinna Kaubamaja Group had no receivables or payables to the main group at the balance sheet. According to the agreement of joint bank account the members of the group have a joint liability over the unpaid balances to the bank.

The management of Tallinna Kaubamaja estimate the prices used in related party transactions do not materially differ from the market prices.

**Note 27 Earnings per share**

Only common shares have been issued in AS Tallinna Kaubamaja. Earnings per share have been calculated as follows (net profit/number of shares):

|                                               | 2002      | 2001      |
|-----------------------------------------------|-----------|-----------|
| Net profit                                    | 45 012    | 35 755    |
| Average weighted number of shares of the year | 6 788 200 | 6 788 200 |
| Net earnings per share (in kroons)            | 6,63      | 5,27      |

**Note 28 Credit, interest and currency risk management**

Due to the nature of group activities Tallinna Kaubamaja is not open to material credit risks.

All of the revenues of Tallinna Kaubamaja group are made on the sales in Estonia. The expenses of the group are mainly in kroons and in euros; therefore, the group is not exposed to currency exchange risks.

Long-term loans of the group are tied to EURIBOR; hence, the change in market interest rates affects also the interest payments.

In managing the interest rate and exchange rate risks, the potential losses from the changes in exchange rates or interest rates are compared to the cost of hedging against it with the financial instruments.

The group has not used any financial instruments in hedging for the exchange rate or interest rate risks neither in 2001 nor in 2002, since based on the judgement of the management, the hedging costs have exceeded the potential losses.

**Note 29 Restrictions in allocation of net profit**

As at 31 December 2002 the balance of statutory provisions not made was the following :

|                                  | Required amount of capital reserve | Provisions made | Provision not made |
|----------------------------------|------------------------------------|-----------------|--------------------|
| Tallinna Kaubamaja AS            | 6 788                              | 7 269           | 0                  |
| AS Tartu Kaubamaja               | 830                                | 830             | 0                  |
| A-Selver AS                      | 2 200                              | 601             | 1 599              |
| Tallinna Kaubamaja Kinnisvara AS | 40                                 | 732             | 0                  |
| AS Rävåla Parkla                 | 1 000                              | 10              | 990                |

As of 31.12.2002 the unrestricted owners' equity was 144 402 thousand kroons (31.12.2001: 162 798 thousand kroons). In case all of the shareholders belonged to the category of income taxed investors, the maximum dividends payable are 106 858 thousand kroons (31.12.2001: 136 586 thousand kroons), and the maximum potential income tax liability would be 37 544 thousand kroons (31.12.2001: 26 212 thousand kroons).

**AS TALLINNA KAUBAMAJA**  
**Annual Report 2002**

**Note 30 Fair value**

As at 31 December 2002 the book value of the company's assets and liabilities do not materially differ from their market value.

**Note 31 Subsequent events**

In January 2003, AS Tallinna Kaubamaja Kinnisvara formed a brokerage contract with ERI Valduste AS to find the lessees to the office building located on Pärnu Road 238.

On 29<sup>th</sup> of January 2003, AS Tallinna Kaubamaja Kinnisvara signed a new long-term loan agreement with Eesti Ühispank in the amount of 108 million kroons (6,9 million euros) with the maturity of 8 years. The new loan was used to refinance existing long-term loans of 78 million kroons (5 million euros). The interest rate is 1,6 % + 6 months EURIBOR. The 1<sup>st</sup> order mortgage on the real estate at Gonsiori Street 2 Tallinn in the amount of 139,5 million kroons was set to guarantee the loan.

## AUDITOR'S REPORT

(Translation of the Estonian original)

To the shareholders of Tallinna Kaubamaja AS

We have audited the financial statements of Tallinna Kaubamaja AS (the Parent Company) and the consolidated financial statements of the Parent Company and its subsidiary companies (the Group) for the year ended 31 December 2002 as set out on pages 6 to 26. These financial statements are the responsibility of the Group management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements give a true and fair view of the financial position of the Parent Company and the Group as at 31 December 2002 and of the results of their operations and their cash flows for the year then ended in accordance with International Accounting Standards.

Urmas Kaarlep  
AS PricewaterhouseCoopers
