#### 1. Accounting policies

These unaudited condensed interim consolidated financial statements are prepared in accordance with and comply with accounting policies applied in preparation of the consolidated financial statements of *JSC Ventspils nafta* and its subsidiaries (hereinafter also – the Group) for the year ended 31 December 2012, which were prepared in accordance with International Financial Reporting Standards.

In 2012 the Group has made certain reclassifications between different captions of the consolidated income statement. The comparatives have been restated conform to the new presentation. The reclassifications had no effect on the statement of financial position as of 30 June 2012.

The Group's unaudited condensed interim consolidated financial statements are presented in Latvian Lat, which is also the Parent company's functional currency. Each subsidiary in the Group determines its own functional currency and items included in the financial statements of each subsidiary are measured using its functional currency.

#### **Transactions and balances**

The functional and presentation currency of *Ventspils nafta termināls Ltd, LatRosTrans Ltd and JSC Ventspils Nafta* is Latvian lat (LVL), the functional currency of JSC *Latvian Shipping Company* is U.S. Dollar (USD).

Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Latvian Lat applying the official exchange rate established by the Bank of Latvia at the last day of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transaction.

The results and financial position of all the Group entities that have a functional currency different from the presentation currency are translated to the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each income statement are translated at average exchange rates (unless this
  average is not a reasonable approximation of the cumulative effect of the rates prevailing on the
  transaction dates, in which case income and expenses are translated at the rate on the dates of the
  transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

Presentation of financial statements in LVL is done using exchange rate set by the Bank of Latvia according to the following rates:

|                                |         | 30.06.2013. | 31.12.2012. | 30.06.2012. |
|--------------------------------|---------|-------------|-------------|-------------|
| As at the reporting period-end | USD/LVL | 0.539000    | 0.531000    | 0.562000    |
| Average rate per period        | USD/LVL | 0.535324    |             | 0.541623    |

These financial statements are translated into Euros using the rate of exchange set by the Bank of Latvia prevailing at the 30.06.2013: 1 EUR = 0.702804 LVL, 30.06.2012: 1 EUR = 0.702804 LVL due to the requirements of *JSC NASDAQ OMX Riga*.
