	VST, AB Annual report 2006	

Dear Shareholders of VST AB,

2007: Firm Steps Towards Ambitious Goal

In the last three years VST, AB has become known to the public. Nowadays, the name of the Company is associated with ongoing increase in investment in old electrical equipment and gradual improvement of service quality. In western Lithuania, where the Company's main business is located, power consumers have felt positive changes in the areas of customer service and provision of new services. Development of the modern Company has been based on quality customer service and result-oriented teamwork. Robust and focussed improvement of service quality has brought VST, AB closer to the ambitious goal of becoming the best regulated service provider in Lithuania by the year 2010.

This year, the strategic direction of the Company stays the same as last year. In 2007, planned activities include sustain the rate of investment in old distribution networks at current level, further improving the quality of services provided, decreasing electricity costs and own expenses, fighting against electrical wiring and transformer oil thieves, streamlining the existing services, and launching new ones.

Customer Satisfaction of Paramount Importance

Customer feedback is critical in assessing the quality of our activities, thus customer satisfaction with services will remain the key factor in meeting the Company's strategic goals and assessing its performance this year.

The introduction of uniform customer service standards was the first step towards focusing on the effective customer-oriented operation. The performance of the Company has substantially improved since the opening of a number of new customer service centres. Staff training has given great results on improved customer service too. An opinion poll on power supply conducted in January this year has shown that VST, AB had made considerable progress in the field of customer service during the last year. Currently, both residents and businesses see VST, AB as a stable and trustworthy company which always shows strong commitment to its customers.

New Services – Enhanced Customer Convenience

Three modern client service centres have been opened in Kretinga, Kaišiadorys, and Pakruojis in 2006. This year, a modern centre will open doors in Gargždai. Furthermore, legal persons - organizations have been introduced to a new service: remote reading of used electricity data, which makes the paying for the consumed power easier for businesses since they do not need to declare their meter data and bills are received without delay. In a short time, a new electronic bill service will be introduced to the customers of the Company.

Sustained Investment

Investment in old electric equipment will ensure the quality of the services provided. The Company has inherited distribution networks that had been in operation for several decades and had depreciated. As a result, previously, VST, AB could not ensure quality power supply to its customers. A minor failure would leave thousands of residents without electricity for several hours, even several dozen hours sometimes. Frequent power supply disruptions had caused considerable damage to businesses. Sustained investment has stabilised the situation. In the last three years, VST, AB has built 647 new transformer substations providing electricity to thousands of the Company's customers. The experts of the Company have laid nearly 1,200 kilometres of wires, including as many as 1,020 kilometres of underground cable lines, ensuring power supply under any weather conditions. Only investment can help improve the service quality and gradually modernise the old electric equipment. Therefore, investment will remain at its recent levels this year and will stay similar in the future.

Reducing Own Expenses

Following the modernisation, VST, AB has paid special attention to reducing energy costs and own expenses last year. Excessively high energy costs and own expenses remain a weak point of the Company. The electric equipment is not up to date; therefore, it is only natural that technological losses are high. However, it must be acknowledged that a lot depends on the Company too. Though the results are not satisfactory yet, positive action has been taken in order to reduce the energy costs: old low-quality energy metering equipment has been changed and systematically checked, electricity consumption analyses have been carried out, metering equipment has been moved outside of buildings, metering data has been carefully recorded, and medium voltage transformers have been placed under special observation, etc.

Staff Professional Proficiency and Timeliness

One of the strategic targets for the years 2006 and 2007 is decreasing the System Average Interruption Duration Index (SAIDI) and the System Average Interruption Frequency Index (SAIFI). Yet another target is shortening and improving the process of making technical arrangements available to the customers of the Company. The time for providing the arrangements will be limited to 10 days at most. Better planning, organisation and coordination of the work performed by contractors, regular checks on electricity equipment, and focus on spotting

the weak points and eliminating failures is needed in order to decrease the SAIDI and SAIFI indices.

Thefts Still a Problem

Thieves, who steal wires and transformer oil, also cause power supply interruptions. Modified transformer oil, not usable as fuel, had been developed, which cut the numbers of oil thefts. However, wire theft statistics are still disappointing. 5.7 tons of non-ferrous metals have been stolen from electricity lines last year. More than two thousand VST, AB customers suffered from power supply interruptions. Tough measures to fight thieves, secure the assets of the Company and protect the customers from possible power supply interruptions will be maintained this year. Modified oil will remain in use in transformers, residents will be informed about the potential harm of such oil, raids will continue on scrap metal dealers and the security of transformer substations will be tightened in the near future.

Open to Public

VST, AB is expecting to further improve customer satisfaction with its services and continue to inform the public about the Company, its activities and plans in the year 2007. TNS Gallup, the leading media research and advertising monitoring company in Lithuania, conducted an opinion poll in January, which showed that the group of residents aware of VST, AB had swollen to approximately 10 percent. Increasingly many residents and businesses see VST, AB as a reliable, stable and effective modern company which provides quality services and always takes good care of its customers. The Company has become known to the public. More and more people learn about VST, AB from customer service centres and regional press, not only from their friends and neighbours. In addition, VST, AB staff members receive increasingly positive responses from the customers. The majority of people who contact the Company are satisfied with the assistance of the skilful experts who are willing to help out with any problems in the quickest possible time. VST, AB has become synonymous with top quality services provided by leading experts, which shows that the Company is on the right track.

However, VST, AB bears in mind that experts are always subject to higher requirements and vigilance as well as to rigorous assessment. With the aforesaid targets set down, the way back is not an option. This year, the Company will work to move closer to the ambitious, though achievable, goal: to become the best regulated service provider in Lithuania by the year 2010.

Sincerely,

Darius Nedzinskas

Chief Executive Officer

We maintain 57,000 kilometres of overhead and cable lines – if we connected them together, we would easily encircle the Earth along the equator.

AB bank "Hansabankas" Savanorių av. 19, LT-03502 Vilnius Phone (8 5) 268 44 85 Fax (8 5) 268 41 70

We work for you: we are a responsible company that provides professional and good quality services.

IV. Data on the activity of the issuer

23. Legal grounds for the Issuer's activities

VST, AB in its operation follows the listed legal acts:

- Law on joint stock companies of the Republic of Lithuania;
- Law on the Electricity of the Republic of Lithuania;
- Energy Law of the Republic of Lithuania;
- Law on the securities of the Republic of Lithuania;
- Law on the financial instruments market of the Republic of Lithuania;
- Other laws of the Republic of Lithuania as well as Governmental regulations;
- The Bylaws of the Company and its amendments.

24. Participation in the associated structures

The VST, AB from its incorporation is a member of "Lithuanian Confederation of Industrialists" and of latter's members - "Industrialists and Employers association of Kaunas region", "Association of Siauliai industrialists", "Klaipeda Association of Industrialists".

The main objectives of these organizations are to coordinate member's activities in order to seek mutual goals, represent the members in the Republic of Lithuania as well as internationally, create conditions for the tighter communication between the enterprises, the district and the city governance structures, also, protect social and legal interests of the Lithuanian employers. Thereby, they aim to improve investment climate in Lithuania and assists companies in finding new markets.

■ Lithuanian Industrialists association was restored in 1989, and in 1993 it was reorganized into the Lithuanian Confederation of Industrialists (LCI). Now the LCI unites 38 branch and 8 regional associations, which together have more than 2700 companies of various profiles as members. Apart to this, there

are member companies, which do not belong to associations and joined LCI individually. The Confederation unites not only most of the manufacturing companies, but also banks, trading companies, representations of foreign companies, science & research institutes, educational institutions. The Lithuanian Confederation of Industrialists is non-political, public organization; it does not depend on the state and the LCI has its own independent policy (See more www.lpk.lt).

- The Association of Kaunas Industrialists was founded in 1989. In the course of time, having the activities growing, new activity priorities occurring and entering new members, in 1996 the Association was re-registered and renamed as "Association of Industrialists and employers of Kaunas region". (More about it www.pramone.lt).
- Klaipeda Association of Industrialists began its activity in 1990. It is an independent non-profit making incorporation of the industry and businesses in Klaipeda region. The incorporation carries out the household, economical, social, etc. goals and functions of the association members. Government and private capital enterprises, banks, and organizations of Klaipeda region belong to the Klaipeda Association of Industrialists (See more www.kpa.lt).
- Association of Siauliai industrialists was founded in 1989. Association unites enterprises, institutions and organizations, such as banks, business consulting companies, manufacturers from Šiauliai town, as well as from its region. The members of association represent traditional branches of industry in Šiauliai town such as manufacturing of TV-sets, electronic equipment and devices, food, leather and furniture industries. (See more www.siauliai-pramone.lt).

Petras Jasinskas, the Head of the strategic planning department of VST, AB is a member in the Energy Committee of the Lithuanian Confederation of Industrialists. The VST, AB does not participate in the capital of the members of those associations.

16

25. Short history of the Issuer

The company was established while the reorganization of the SPAB "Lietuvos energija" took place, when the Parliament of the Republic of Lithuania on June 8, 2001 adopted the Law on Reorganization of the special joint stock company "Lietuvos Energija". According to the law 4 new companies (for electricity production, transmission and distribution activities) were established by splitting them from the special joint stock company "Lietuvos Energija". One of the companies is the joint stock company "Vakarų skirstomieji tinklai".

The joint stock company "Vakarų skirstomieji tinklai" was registered at the Register of Enterprises on December 31, 2001. The company was established on the basis of branches of Kaunas EN, Klaipėda EN and Siauliai EN of the special joint stock company "Lietuvos Energija". The Share capital of the joint stock company "Vakarų skirstomieji tinklai" made about 22 percent of the number of shares of the former special joint stock company "Lietuvos Energija".

Geographically, the company covers central and western territories of Lithuania. The company owns the network of electric power distribution (i.e. medium and low voltage lines and transformer substations). It is in charge of electric power distribution and electric power supply service to the end-users.

From December 23, 2003 the biggest shareholder in the company is UAB "NDX energija", which was founded by the owners of the retail trade supermarkets network "VP Market". Until April 1, 2004 a mandatory non-competitive public offering to purchase the remaining shares of the company for the price of 1.73 Lt each was valid. After the expiry of the public offering UAB "NDX energija" owned 96.51 percent of the company's shares.

During 2004 a new administration team has been built, internal procedures have been changed and a new order has been established.

On April 15, 2005 at an ordinary general meeting of the share-holders of AB "Vakarų skirstomieji tinklai" important resolutions regarding the increase of the share capital of the company, change of the company name, increase of the number of the Board members (from 5 to 6), election of new members and amendments in the company's Bylaws, were adopted.

The company's mission, vision and values of the operation became the foundation for the key principles of the company operation. The Company introduces customer service standards; training for the customer service personnel – managers, dis-

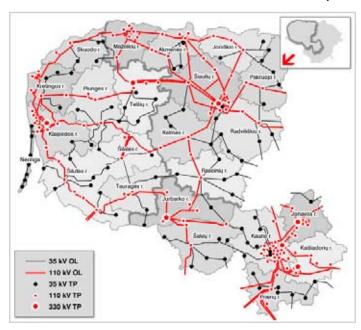

patchers, engineers, administrators and others - is organized. Modernization of the customer service centres is taking part.

The company declared the goal until 2010 to become the best company supplying regulated services, and defined the ways to do that. During previous years the company put efforts to lower the losses of electric power, to improve the condition for issuing terms of references; to encourage the payment for the supplied services in due time. Also investigations on customers' satisfaction were performed; the average annual duration of disconnection from the electric power network was decreased.

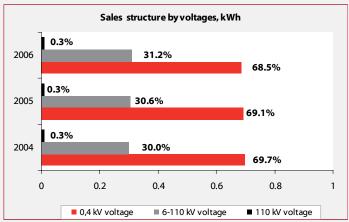

26. Description of production (services)

The company is the owner of electric power distribution network, i.e. overhead lines and cable lines of low and medium voltage, transformer substations and other distribution devices. The key activity of VST, AB is the distribution of the electric power via low and medium voltage lines and the supply (sales) of the electric power to its consumers. The Company is responsible for the power distribution networks in Kaunas, Klaipėda, Šiauliai and part of Marijampolė regions; for safety, reliability, operation, maintenance, management and development of the network.

The scheme of the distribution network controlled by the

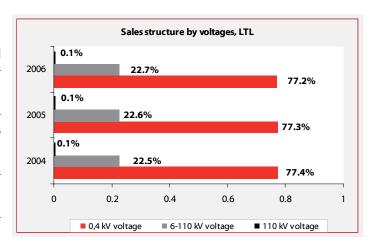

Sales and revenues

During the last 3 financial years the company totally sold 10 411 million kWh of electric power and obtained 2 355 million LTL income from the main activity.

In 2006, 3 680 million kWh of electric power were sold to consumers, i.e. by 6.8 percent more than during previous years (2005 – 3 446 million kWh, 2004 – 3 285 million kWh).

Most income (77 percent) VST, AB gets from the sales of electric power from 0.4 kV voltage lines.

Income from the main activity in 2006 made 99 percent of total income of the company, i.e., the same as in 2005.

Income structure of VST, AB in 2004 - 2006

Income, million LTL	2004	2005	2006
Income from the sales of electric power	702.8	826	906.1

Share price, LTL	0.75	1.66	240.35	399.00	435

Service prices

The prices for services are regulated; the top margins are set forth by the National Prices and Energy Control Commission of Lithuania, based on the methods of public electric power prices, public supply service price and the top margin establishment and the electric power transmission and distribution service price and their top margins.

Electric power prices and tariffs, as well as order of their application during the year 2006 were approved by the National Prices and Energy control Commission by its resolution No.03-67, dated November 22, 2005. Since January 1, 2007 electric power prices and tariffs came into force; they were approved by the National Prices and Energy control Commission by its resolution No.03-85, dated November 21, 2006. They are available for publicity at the websites of the VST, AB (www.vst.lt) and the National Prices and Energy Control Commission (www.regula.lt).

The average price of electric energy sold by The Company was 0.246 LTL per one kWh, in 2005 – 0.240 LTL per one kWh, in 2004 – 0.214 LTL per one kWh.

Share book value, LTL	418.30	397.48	378.35

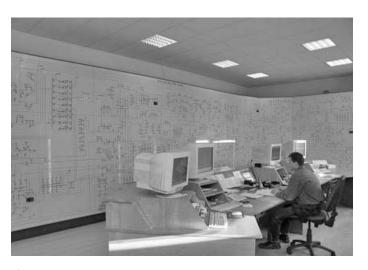

■ Investment into the renovation and the development of the network

In 2006 139.7 million LTL were invested into development and maintenance of electric power distribution network.

The Company started one of the key projects of the year: the construction of the transformer substation in the centre of Kaunas. This 110/10 kV transformer substation will be the most modern of its kind in Lithuania. The Company has invested 11 million LTL into the construction of the substation.

Following the installation of the SCADA (Supervisory Control and Data Acquisition) systems, the experts of the Company will be the first to know about any minor power fluctuations, as, previously, VST, AB customers informed the experts about power outages. The systems to be installed in Kaunas, Plungė, Radviliškis, and Šilalė will cost the Company more than 13 million LTL. The Company continues modernization of transformer substations. Reconstruction of transformer substations in Plungė and Šeduva was completed already. The Company had allocated 14.7 million LTL for the modernization. In October, the reconstruction of Noreikiškės transformer substation was

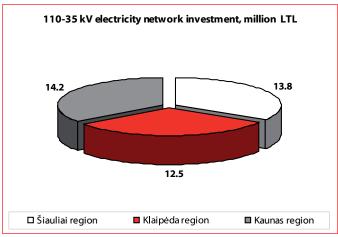

finished, too. The thorough reconstruction and modernization of the substation, which is situated in Kaunas area, required the investment of 4.3 million LTL. Also, investment projects worth millions of litas are being implemented in Tytuvėnai and Akmenė in order to ensure quality power supply to the customers of the Company. The modernization project of Salantai transformer substation situated in Klaipėda area is almost complete. The Company invested 4.15 million LTL into the renovation. Nearly 2,000 of VST, AB customers are supplied with power from the aforesaid substation, including residents of Salantai and nine neighboring towns. Amaliai transformer substation is also under reconstruction. It distributes power to Dainava Clinic in Kaunas, several educational institutions, Girstupis Police Station and many other entities. 8.7 million LTL was invested into the reconstruction project.

Taikos transformer substation in the centre of Klaipėda is also being updated. The substation supplies power to 17,000 residents of Klaipėda and several major companies. Its reconstruction is close to being complete. VST, AB has invested nearly 10 million LTL into the project.

In 2006 10-0.4 kV and 110-35 kV electricity networks investments for development and maintenance amounted to 19.2

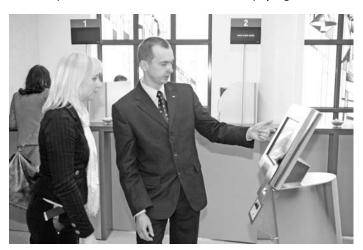

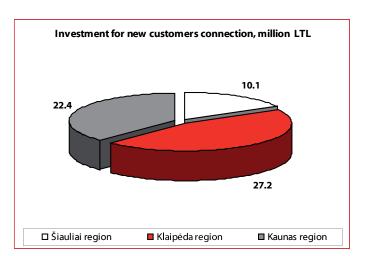

million LTL and 40.5 million LTL, accordingly. Most 110–35 kV electricity networks investments were Kaunas region, 10-0.4 kV electricity networks – Klaipėda and Šiauliai region. During the year of 2006 there were connected 9 242 new customers (120 963 kW power). Investment for new customer's connection amounted to 59.6 million LTL and the biggest part was allocated in Klaipėda region.

As in 2006, in the year 2007 it is planned to continue the network renovation and development works by allocating funds for investment.

Innovations

The Company has implemented an electronic portal for legal bodies up for declaration of meter data and paying bills.

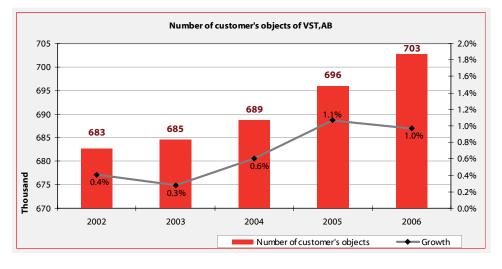

Therefore, since 2006 it is more convenient for companies and organizations to account for electricity consumed when using internet portal. By then, legal bodies in order to declare meter readings and account for it were obligated to arrive to customer service centre or to fax their data. Legal body – the customer of VST, AB signing an agreement gets a password, using which enters an internet portal and declares its meter readings without leaving the office.

Customers declare their meter readings, follow their accounts and gets relevant information, thus, the internet portal improves efficiency of payment procedure for VST, AB services.

20

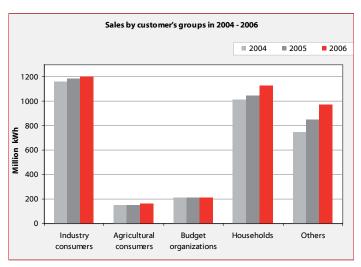

27. Sale markets

The company distributes and supplies electric power in the western and central territory of Lithuania. It is the area of 30 378 square kilometres, which has about 1.89 million residents. The company supplies electric power to over 696 thousand customers. This number is constantly increasing. See the chart of customer objects number increase.

The biggest part of the electric power distributed and supplied by the Company (about 32.6 percent) is bought by other companies. The remaining part of electric power is consumed by residents and budget organizations.

As one can see from the diagram, the demand for electric power has grown in all customer groups during the reported year. The biggest increase of electric power consumption was in Households and Other consumers groups. Since 2004 the quantity of electric power consumed by households increased by 11.4 percent, agricultural consumers - by 7.6 percent, budget organizations – by 1.9 percent, other consumers (where the biggest part is non industrial companies) – by 29.95 percent

VST, AB signs termless contracts with its customers. The amount of revenue from the biggest customer was 1.5 per-

cent the whole company's revenue for electricity sold, therefore, the Company is not dependent on any customer.

After the privatization of the company a big attention has been paid to the improvement of the customer service quality. Funds were allocated not only for the reconstruction of the distribution network, but to the improvement of customer service quality as well. During the year 2006 more than 2.5 million LTL were invested in new centres of customer service in Kaišiadorys, Pakruojis and Kretinga.

Customer service standards were introduced in the company and training for the customer servicing staff – for managers, dispatchers, engineers, administrators and other employees is organized.

28. Supply

The main producer and supplier of electric power for the company is the State enterprise (SE) "Ignalinos atominė elektrinė" (Ignalina nuclear power station). It supplied 55 percent of

				2004	2005			2006
No	Name of the power station (owner)	Type of deal	Million kWh	Million LTL (VAT excl.)	Million kWh	Million LTL (VAT excl.)	Million kWh	Million LTL (VAT excl.)
1	SE "Ignalinos atominė elektrinė"	Contractual	2 423.90	158.2	1 833.7	120.7	2 120.0	139.5
2	AB "Lietuvos energija"	Additional	470.3	33.7	860.2	63.8	1 102.3	95.1
3	AB ",Lietuvos energija"	VIAP	596.4	94.3	616.3	95.7	652.8	96.2

5	Small power stations	VIAP	29.5	6	31.7	6.5	33.8	6.9
6	AB "Klaipėdos energija"	VIAP	20	2	20	2.1	16.2	1.8
7	AB "Šiaulių energija"	VIAP	0	0	6.5	0.8	6.5	0.8
8	Small power stations	Contractual	0.2	0	2.6	0.1	0.2	0.0
9	AB "Klaipėdos energija"	Contractual	5.8	0.4	0.6	0	0.0	0.0
10	UAB Vilniaus energija	Contractual	22	1.4	238.1	15.5	0.0	0.0
	Total	El. power	3 720.4	305.9	3 837.3	320	4 087.8	350.5
	AB "Lietuvos energija"	Perdavimo paslauga	3 680.7	122.7	3 795.1	131.1	4 043.7	140.6

electric power in average during recent years.

Long term contracts are concluded with the suppliers of electric power. The remaining demand for electric power the company satisfied purchasing electric power at the auctions or by the obligation to supply services corresponding to the public interest (or VIAP – electric power produced using renewable or waste-origin sources of energy, closedown costs of Ignalina NPS and etc.) and from small power stations. The transmission service for the company is provided by the joint stock company "Lietuvos energija", which ensures the transmission of electricity from Lithuanian power stations to the distribution networks companies.

In order to ensure smooth development and renovation of the network, part of the works are done by contractors. Ten contractors, which performed most of the repair works and the investment in 2006, are given in the Chart. There are quite a number of contractors capable to perform the needed work; therefore successful partnership is grounded

on possibility to choose quality services for a good price.

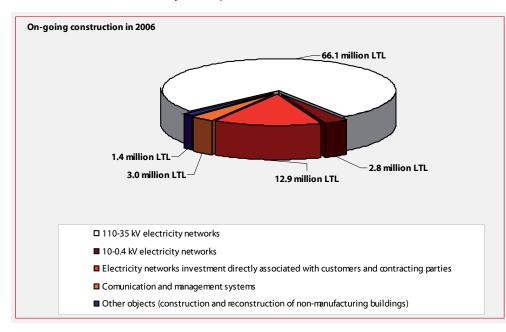

29. Real estate and other main property

Due to the specific activity of the company's real estate is located in different parts of Western Lithuania. The headquarters of the company is in Vilnius, while main regional divisions are in Kaunas, Siauliai and Klaipėda.

The biggest part of the real estate owned by VST, AB is built on the state owned land. The base to use the land is the Land rent contracts concluded with the Heads of the County administrations, which manage the state owned land under the right of trust. The land owned by private persons on whom the property of VST, AB is located, is being used by the company on other legal grounds set forth in the Civil Code of the Republic of Lithuania and other laws (rent, sub-rent, beneficial use, servitude and other rights). Besides, for the land on which energy objects or devices owned by the company are built, special conditions of use are set forth according to the order established by the laws and registered at the Register Centre; the special conditions of use consolidates the right of VST, AB to use the land owned by other persons as much as it

is necessary to use, service, repair and ensure the exploitation of energy objects and devices.

In 2006 the area of land rented from the state and used by the company was 117.3 ha: 33.2 ha - in Siauliai region, 45.4 ha - in Klaipėda region and 38.7 ha in Kaunas region.

VST, AB owns under the ownership right the electro technical property, warehouses and transport fleet. The company owns non-current tangible assets with the remaining value of 2 079 091 thousand LTL for 31 December, 2006.

The biggest projects of on-going construction

The long-term tangible assets consist of constructions, machinery, vehicles, and equipment (86.9 percent), also, buildings (8.9 percent) and on-going construction (4.2 percent)

On-going construction

The diagram shows the structure of on-going construction by investment spheres. Table shows the biggest projects of on-going construction.

30. Risk factors related to the activity of the Issuer

Economical:

VST, AB is the owner of electric power distribution network in western Lithuania. Financial parameters of the company depend on the re-

lations with the energy producers and electric power consumers. After the close-down of the Ignalina NPS planned for 2009, competitors may appear on the local market due to the possibility of free consumers to choose the supplier of electric power.

The key economic risk factor is insufficient capacity of the company and its contractors to eliminate the damages quickly, which occur in result of natural calamities. Due to the disorders of electric power supply the incomes may be lost and losses may occur.

The company is facing the risk known to many Lithuanian companies – the lack of qualified employees and labor force due to the emigration to other countries. There is a shortage of qualified personnel in the divisions of the company. The qualifications of the lowest employees' level are still not satisfactory. Emigration of staff to other EU countries is becoming more and more important. This risk is being reduced by personnel policy and the average salary level increase.

Political:

Distribution and supply of electric power in Lithuania is regulated by the state more than in other industry branches. The electric power distribution and supply are subject to the Law on Electricity of the Republic of Lithuania.

The state policy towards the prices of electric power is of high importance. The service prices are regulated; top margins are set by the Commission of Prices and energy control of the Republic of Lithuania. Therefore the pricing policy of the company is not flexible enough. Unplanned changes in the political situation of the country and legal regulations would have a negative influence on the company's operation.

Social:

The Company provides development opportunities for students. Each year, around 50 students from various educational institutions are offered traineeships at VST, AB, also there are annual scholarships given to students by The Company. Therefore, the company is attractive for young specialists.

Also, based on the collective contract, the cooperation with trade unions is close; their activities are supported aiming to ensure the dialog between the employer and the employees.

Ecological:

VST, AB is an electric power distribution and supply company. Different from the electric power producing companies it hardly

Project	Start of project	End of project	Project value, million LTL	Project implementa- tion, million LTL
Purchase and reconstruc- tion of Smeltė (Rimkai) 110/10kV TS, Klaipėda	2005	2007	16.5	16.4
Reconstruction of Amaliai 110/10 kV TS , Kaunas	2004	2007	11.9	8.7
Reconstruction of Šeduvos 110/35/10 kV TS, Radviliškis region	2005	2007	8.6	8.2
Reconstruction of Plungė 110/10 kV TS, Plungė	2004	2006	6.5	6.5
Reconstruction of Taikos 110/10/6 kV TS (6 kV section), Klaipėda	2004	2007	5.8	5.3

pollutes the environment. The chances of the issuer's operation limitations or its closedown due to the damages on the environment are really poor.

The following preventive and pollution reduction measures are applied in the company:

- The technical condition of devices in which ecologically dangerous materials are used is regularly checked. Ecologically dangerous materials and devices are being avoided, safer ones are selected instead.
- The waste accumulated in the company is registered in the waste registers, which are safely kept in the divisions where the waste is accumulated. Hazardous waste is sorted and collected to special containers and passed on waste handling companies for proper handling.
- Transformers oil is stored in double-walled underground reservoirs, which correspond to all safety requirements. Surface leakages are directed to the cleaning equipment which is located close to the transformers sites.
- At the transformer substations oil separating valves are used in draining the leakages; the valves directs clean sewage to the sewerage, if it contains oil it is directed to the cleaning equipment.

Building electric lines across the places where a lot of trees grow (parks, forests) - the efforts are made to use air cables. This allows reducing the width of the cutting zone. If the line goes across a landscape reservation, underground cables, which do not change the landscape, are used.

Technological:

Part of the electric power distribution network was installed in 1960s and before the privatization, had been repaired only when disorders of electric power supply occurred. Therefore, there must be allocated large recourses for modernization of old distribution networks.

Bank loans

Financial liabilities for banks in the beginning of 2006 were 489 million LTL, while in the end of the year – 388.6 million LTL (table bellow shows Company's financial liabilities for banks in the end of 2006 and 2005).

Lender	Currency	Value in balance sheet (2005 12 31) million LTL	Payback, million LTL	Value in balance sheet (2006 12 31) million LTL
AB bank "Hansabankas"	EUR	17.3	17.3	0
Nordea Bank Finland Plc Lithuania	EUR	34.5	34.5	0
Syndicated loan	EUR	437.2	48.6	388.6
Total		489	100.4	388.6

The Company has credit line contracts with AB bank "Hansabank", Nordea Bank Finland Plc Lithuania and SEB Vilnius bank. It gives the possibility to borrow 107 million LTL if needed.

31. Production halt or reduction, which makes or has made essential influence on the results of the Issuer's activity during the last 2 financial (business) years

The electricity supply was disordered in various places because of extremely bad and not typical for Lithuania weather conditions (the hurricane "Ervin"), on January 8-12, 2005. Due to the damage made by the hurricane on many pieces of long term assets in Kaunas, Klaipėda and Siauliai regions the company addressed to independent property valuators for the evaluation of the remaining life time of the mentioned assets. As a result from February 2005 the depreciation of particular long term tangible assets was recalculated based on the new remaining useful life times. The result of those changes of the accounted evaluation is the increased depreciation costs in the Income statement, which makes approximately 23 million LTL per year.

32. Patents, licenses, contracts

In 2006 VST,AB carried two licensed activities in the electric power sector, i.e., public supplier of electric power and the operator of the electric power distribution network.

Name	Issue date	Numeris	Issued to	Valid till	Issuing institution
Licence of public electric power supplier	25/03/2002	No. VET-1	AB "Vakarų skirsto- mieji tinklai"	Not limited	National Prices and Energy Control Commission , Resolution No 28, dated 2002-03-20
Amendments of the Licence of public electric power supplier					National Prices and Energy Control Commission , Resolution No 128, dated 17/12/2002
Amendments of the Licence of public electric power supplier					National Prices and Energy Control Commission , Resolution No 28, dated 10/03/2003
Amendments of the Licence of public electric power supplier					National Prices and Energy Control Commission , Resolution No 03-120, dated 11/11/2004
Amendments of the Licence of public electric power supplier					National Prices and Energy Control Commission , Resolution No 03-29, dated 26/05/2005
Licence for electric power distribution	25/03/2002	No. ES-1	AB "Vakarų skirsto- mieji tinklai"	Not limited	National Prices and Energy Control Commission , Resolution No28, dated 2002-20/03/2002
Amendment in the Licence for electric power distribution					National Prices and Energy Control Commission , Resolution No 51, dated 2002-20/05/2002
Amendment in the Licence for electric power distribution					National Prices and Energy Control Commission , Resolution No 85, dated 2002-10/09/2002
Amendment in the Licence for electric power distribution					National Prices and Energy Control Commission , Resolution No 03-120, dated 11/11/2004
Amendment in the Licence for electric power distribution					National Prices and Energy Control Commission , Resolution No 03-29 dated 26/05/2005

24

Certificates held by VST, AB - for the activities in the electric energy sector:

Name	Issue date	Number	Issued to	Valid till	lssuing institution
Certificate to operate electric devices	13/05/2005	No. E-0827	VST, AB	01/02/2012	State Energy inspection at the Ministry of Economy, Resolution No 2655, dated 01/02/2007
Certificate to perform design and construction works of a part of a building	06/05/2005	No. 3151	VST, AB	06/052010	Ministry of Environment of the Republic of Lithuania
Permit to export electric power	09/07/2002	No. LE-0003 Annex 3	Vakarų skirstomieji tinklai, AB	Not limited	State energy inspection at the Minister of Economy of the Republic of Lithuania , Order No 51, dated 12/02/2002

33. Hearings in courts and arbitrage

There were no court or arbitrage hearings during the of annual Report, which might essentially influence the financial situation of the issuer.

In 2006 there were 299 civil claims presented to court on consumers regarding unpaid electric power and damages caused by illegal consumption of electric power coverage. The total sum of claims amounts up to 1.2 million LTL and from 2003 went down by 1.8 million LTL.

In 2006 company concluded a contract with the third party establishing pretrial recovery of debts. Thus, the number of claims regarding the debts for electric power decreased, as well as the costs of debts recovering, which would be acknowledged as hopeless.

Year	claims	(million LTL)
2003	1219	3.0
2004	866	1.5
2005	605	1.6
2006	299	1.2

34. Employees

In 2006 the average number of employees in VST, AB was 1968, if compared with previous financial year (1998) it went down by 1.5 percent.

Since 2004 the number of specialists in went up by 6.6 percent, while the number of workers from decreased by 29 percent. This decrease was determined by the optimization of the organizational structure of the company after its privatization, the improvement of the activity and work efficiency. The reason of the increase of the specialists' number is the customer orientated policy of the company.

Average salary of an employee in the company increased by 14 percent during 2006 up to 1779 LTL, compared with 10 percent in 2005.

The Company strengthened management of personnel implementing system of annual activities evaluation. Also the preventive personnel policy with the goal to increase the professionalism and the loyalty to the company is being implemented. The company continues to organize internal interviews, where the staff of the company is being encouraged to fulfill their professional goals and ambitions in new work places. During 2006 21 internal interviews were arranged, nearly 14 percent of all employees have changed positions, among those 11 percent (190 employees) went up to superior positions, 24 employees went up to the management positions. Such possibility to make a career and grow helps to attract young specialists. The company continues Study finance program under which electro-technical academic studies are partly financed (by 50%).

Company closely cooperates with educational institutions and students are accepted in the company for their professional practice. In 2006, alike in 2005, there were 61 practicing students from different educational institutions: Kaunas Technological University, Siauliai University, Kaunas Technology University, Vytautas Magnus University, ISM Management and Economics University, Kaunas Technology College, Šiauliai College.

The portion of employees with higher than secondary education is growing and reached 82 percent in 2006, compared with 74 percent in 2005 and 66 percent in 2004. The number of employees with secondary and incomplete secondary education went down from 34 percent in 2004 to 18 percent in 2006.

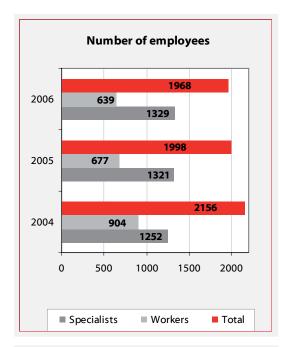

The Collective Agreement holds in VST, AB; it was signed on August 20, 2004. The goal of this Collective Agreement is to ensure efficient work of the company and represent all employees of the company. It sets forth the work conditions, payment for the work, social, economic and professional conditions and guaranties. Due to the Collective Agreement, annual conference of representatives of employees was arranged. Representatives of employees agreed the employer implements the provisions of the Collective Agreement.

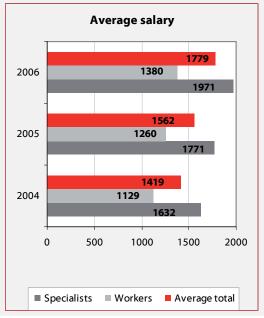

VST, AB supports the education, sports and cultural events organized for the employees by the trade unions. Allocations for the trade unions in 2006, alike in 2005, amounted to 17 000 LTL.

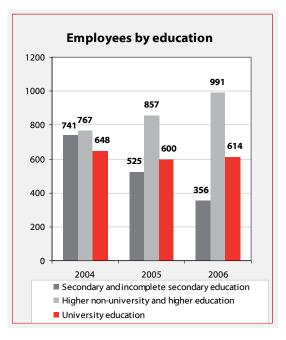

Consistent personnel policy was taking place in 2006. Special attention was paid to the staff training and qualification improvement during the Report year - company invested about 300 000 LTL into training. 850 employees (43 percent of all employees) participated in the training. 68 percent of organized training took place in the licensed educational institutions outside the company; about 32 percent of training was organized within the company.

The main three directions of staff training were continued - management, professional and qualification improvement training. In the course of management training all managers participated. They improved their personnel management skills – leadership, motivation of employees, evaluation, set-

ting of goals, tasks delegation and other skills.

Professional training was taking much alike direction as in previous years. Managers of technical supervision of constructions, managers of high-scalars and steeplejacks, load attaching personnel, automobile lifters drivers, lifting crane work managers, wood cutters and welders underwent this type of training. Over 300 employees renewed and gained new knowledge of electrotechnics.

In addition to the mentioned training various qualification improvement courses were organized to satisfy specific needs for training. Project managers continued deepening knowledge in project management; employees participated in various conferences depending on their qualification.

The company pursues modern and consistent personnel policy, which justifies itself, given intensive emigration. The change of staff slightly went up: 2006 – 16 percent, 2005 – 15 percent, and 2004 – 34 percent.

35. Investment policy (companies into which the Issuer has invested over 30% of its share capital, also companies in the share capital of which the Issuer has over 30%):

35.1. Names, headquarter addresses, activity type, amount of the share capital, unpaid Issuer's share in the share capital, net profit (loss), rate between current liabilities and current assets, rate between all liabilities and all assets.

35.2. Type and class of the shares owned by the issuer, number of shares, par value, and percentage of votes, owned or controlled, in the general meetings of shareholders of those companies, specify separately the percentage of votes granted by owned shares and the percentage of votes owned with other persons acting in corpore.

35.3. Dividends paid to the Issuer, amount of loans given to the company and taken from it, description of the company debt securities obtained by the Issuer and their nominal value.

35.4. Large investment projects, exceeding 10% of the Issuer's share capital, implemented during the last 3 financial (business) years: investment type, investment volume, investment financing sources (internal, external); geographical distribution of investment (In Lithuania, abroad).

35.5. Information about anticipated investments.

36. Competitors.

VST, AB provides the electric power supply and distribution services. Since the company is the operator of the distribution network in Western Lithuania and the installation of similar electricity network is practically impossible, the threat of competition in the distribution activity is not important.

Anyhow, the competition on the local market does exist, because free consumers have the possibility to choose the supplier of electric power. Free consumers may be supplied by the

public supplier (electric power distribution company in the territory where it provides the service) or by an independent supplier (body, which has the License for this activity). In 2004 after the new edition of the Law on electric energy came into force, all consumers, except the households, became free consumers; not later than July 1, 2007 all consumers will be free. However, the competition threats in the energy supply activity are inconsiderable for the company, until the main supplier is the Ignalina Nuclear Power Station.

37. Paid dividends

For the year 2002 11 320 154 LTL were allocated for dividends (i.e. 0.0279 LTL per one ordinary registered share). For 2003 dividends were not paid. For 2004 dividends were paid and were equal to 31.76 LTL per one ordinary registered share. For the year 2005 dividends were 34.51 LTL per one ordinary registered share. The general meeting of shareholders of VST, AB, which took place on April 27, 2007, adopted a resolution according to which the shareholders of the company have to be paid 16.00 litas (9.99 EUR) dividends per one ordinary registered share.

According to the data unpaid dividends amounted up to 1 275.2 thousand LTL on December 31, 2006.

Financial year	Dividends per share, LTL	Dividend lump sum/ net profit
2002	0.0279	0.40
2003	Dividends were not an- nounced	0.00
2004	31.76	19.95
2005	34.51	2.65
2006	16.00	1.00

VST, AB and the bank AB "Hansabankas" have concluded a contract on securities, issued by the Company, accounting and handling and control of personal securities accounts. The unpaid dividends are paid to the shareholders upon request from the shareholders to the bank AB "Hansabankas" regarding payment of due unpaid dividends.

During the last five years the amount of dividends has not been reduced in cases set forth by legal regulations or the Bylaws of the issuer. There have not been any shareholders refusing dividends.

VST is among the TOP 10 best Lithuanian employers.

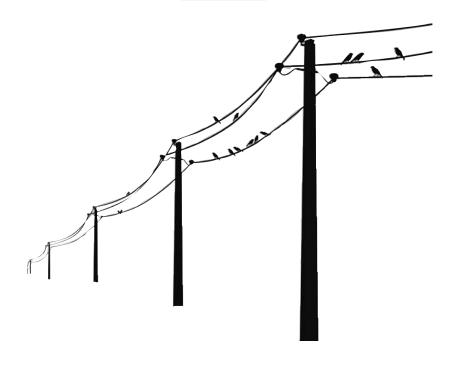

V. Financial situation

2006 Annual Report

32

39. Comments of the financial Reports

39.1 Explanatory letter

Full financial Report alongside with the comments on financial accounts, with Explanatory letter and the forms of financial accountancy (Certificates of the explanatory letter) have been prepared according to the International Reporting standards and is submitted together with the Annual Report.

39.2 Principles of consolidation and the names and addresses of the companies with which the consolidated accounts are concluded;

39.3 Main changes and their causes from the last financial (business) year, other important information.

Revenues

3 680 million kWh of electric power were sold to the consumers during 2006, 6.8 percent more comparing with 3 446 million kWh in 2005.

During the report year the income from sales and services except financial activities was 928.6 million LTL (in 2005 –846.7 million LTL). The major part of income was from sales of electric energy:

Income, million LTL	2006	2005	Change, %
Income from the sales of electric power	906.1	826	10
Sales of reactive energy	15.1	14.3	6
Income from connection of new consumers	3.56	2.4	48
Other income from operation	3.85	3.96	-3
Total:	928.6	846.7	10

In 2006 income from financial activities was 5.9 million LTL (in 2005 – 4.8 million LTL). The increase of financial income was determined by efficient management of cash flow and active use of short-term investment instruments.

Expenditures

In 2006 the Company's expenditure was 834.1 million LTL while in 2005 it was 786.8 million LTL.

The biggest part of all expenditures consisted of electricity purchase and transmission expense (58.9 percent), the remaining part consisted of the relatively fixed expense for repairs, personnel etc. Repair and maintenance expense increased due to reconstruction and modernization works.

Operating expenses, million LTL	2006	2005	Change, %
Purchase of electric power	491.1	451.2	9
Depreciation and amortization	218	212.1	3
Wages, salaries and social security	50.6	57.2	-12
Repair and maintenance expenses	36.6	27.8	32
Taxes except for the profit tax	4.2	3.1	35
Utilities and communications expenses	5.5	6.2	-11
Other	28.1	29.2	- 4
Total:	834.1	786.8	6

In 2006 expenses of financial activities were 16.86 million LTL (in 2005 – 16.96 million LTL), the biggest part of it was interest expenses –16.78 million LTL (in 2005 – 16.76 million LTL).

Non-current assets

The carrying value of the non-current assets decreased from 2 164.9 million LTL in 2005 to 2 079.7 million LTL in 2006. The decrease was caused by the depreciation and amortization of the non-current assets, which were equal to 218 million LTL in 2006.

Investments

In 2006 139.7 million LTL were invested into development and maintenance of electric power distribution network, 7.5 percent more as compared with 130 million LTL in 2005.

Current assets

The carrying value of current assets has decreased from 289.7 million LTL to 205.2 million LTL during the year 2006.

The current assets of the company in the end of the year, million LTL	2006	2005	Change, %
Inventory	6.52	13.7	-52
Trade and other receivables	83.04	67.47	23
Prepayments, deferred charges and accrued incomes	12.67	9.25	37
Cash and cash equivalents	102.94	199.3	-48
Total:	205.2	289.7	-29

Financial liabilities

Long term borrowings in the end of 2006 were equal to 347.1 million LTL, short term borrowings – 49.5 million LTL (in 2005 –388.8 million LTL and 100.4 million LTL, respectively).

In 2006 financial liabilities were augmented by the sums (short-term –864 thousand LTL, long-term – 6.9 million LTL, total – 7.8 million LTL) paid to AB "Lietuvos energija" for acquired assets. These liabilities will be carried out during the period of ten years.

Activity results

In 2006 the profit before taxes amounted to 83.6 million LTL. In the report year the expenses of income tax were 54.4 million LTL, and the benefits of deferred income tax – 30.5 million LTL. The net profit of the company amounted to 59.7 million LTL in 2006.

The Board of the company at the general meeting of the shareholders, which took place on 27 April, 2007, suggested to pay 16.00 LTL (4.63 EUR) dividends per one ordinary registered share of the company. The suggestion was approved and a resolution to pay all the shareholders of the company 16.00 LTL (4.63 EUR) dividends per one ordinary registered share of the company was adopted.

Cash Flow

Net cash flow from operating activities during 2006 went down from 304.8 million LTL to 270.5 million LTL. Also, net cash flow after investing activities shrank from 183.7 million LTL in 2005 to 133 million LTL in 2006. Main factors influencing such a reduction were paid profit tax (61.3 million LTL) and investment allocation (139.7 million LTL).

Internal audit

After the privatization of the company optimization of the company's organizational structure, changes of order and implementation of new procedures took place. There is no internal audit division in the company.

40. Annual report

Annual Report for the year 2006, verified by auditors, is attached to this Report.

Independent Auditors' Report to the Shareholder of Joint Stock Company VST

We have reviewed Joint Stock Company VST (further "the Company") Annual Report for the year ended 31 December 2006. The report is the responsibility of the Company's management. Our responsibility is to present report on the Annual Report based on our review.

We have audited the financial statements of Joint Stock Company VST for the year ended 31 December 2006 in accordance with International Standards of Auditing. On 28 February 2007 we have expressed unqualified opinion on these financial statements.

Our review of the Annual Report for the year ended 31 December 2006 was limited primarily to analytical procedures and discussions with the Company's personnel and was limited to financial information only. The scope of review provides less assurance than the audit for the purpose of expressing an audit opinion on this report. Accordingly, we do not express an audit opinion.

The Annual Report for the year ended 31 December 2006 includes operating plans and forecasts approved by the shareholder. The actual results in the future might be different from the current management's estimations as events and circumstances frequently do not occur as expected.

Based on our review, we have not noted any material inconsistencies between the financial information included in it and the financial statements for the year ended 31 December 2006.

ACTIVITY REVIEW

The key activity of "VST" AB (hereinafter referred to as VST or Company) is the distribution of electric power by medium and low voltage lines network and the supply of electric power to its consumers.

Baltic Market Award

In December 2006, the Company was among the best ones awarded for the Best Investor Relations in the Baltic Countries. The mission of the Baltic Market Awards project organized in Vilnius, Tallinn, and Riga was to identify the best Baltic market participants and to encourage listed companies to provide the market with quality disclosure. All listed companies in the Baltic countries and members of all three stock exchanges were evaluated. *VST* was awarded for its open, professional, and timely disclosure and for the usefulness of the information provided to its investors.

Support Projects

The NATIONAL DEVELOPMENT AWARD was established to foster the development of science, culture and business in Lithuania. The Company has joined the project becoming one of its participants and sponsors. At the end of May, Science Development, Partnership Development and Cultural Development Awards were given for the first time in Lithuania.

In August, the Company joined the project "I Want to See the World" becoming one of its sponsors. *VST* gives great importance to the support of socially vulnerable members of the society and continuously sponsors medical and child care institutions.

Each year, the Company supports St. John the Baptist Parish situated in Pakruojis often called the "Little Vatican". In 2006, VST supported disadvantaged children of the parish by funding their participation in various camps.

For the second consecutive year, the Company has been supporting Kaunas University of Technology. In order to ensure the quality of electrical engineering studies the Company donated state-of-the-art electro technical devices to the aforesaid university. Moreover, *VST* Scholarships are awarded to the best students of the Faculty of Electrical and Control Engineering. In the last two years, LTL 60,000 was allocated to the best 60 students.

The Company supports Skuodas Art School. Currently, a special publication featuring the history of the school is being prepared to commemorate its 40th anniversary in September.

For several years, the Company has been supporting the Department of Pediatric Diseases of Kaunas University of Medicine. Furthermore, *VST* donated LTL 30,000 worth of equipment for monitoring of vital functions to the Intensive Care Unit of the Department. Last year, *VST* support helped the Department of Pediatric Diseases to acquire equipment for haemodialysis, blood pressure and pulse measurement as well as electronic scales, vacuum cleaning devices, etc. Ten TV sets were also donated to the department making it feel like home for the young patients.

Environmental Protection

Annually the Company takes part in stork nest preservation efforts. Early last spring, nearly 200 stork nests were saved. Since the autumn of 2005, VST has raised approximately 400 stork nests on top of power transmission pylons. Moreover, The Company achieved an award for environmental protection on the occasion of the World Environment Day. The stork nest preservation efforts, which have been organized by energy specialists for several years already, are also favored by the Ministry of Environment of the Republic of Lithuania, which awarded the Company with a special prize for environmental protection.

Customer Service Quality

Customer service quality is one of underlying goals of the Company, thus, in 2006 the efforts were made in order to achieve it. It also contributed to the improved familiarity of current and potential customers with the Company's name.

In February, new modern customer service centres were opened in Šiauliai and Klaipėda. *VST* gives special importance to professional quality customer service and is constantly introducing customer service standards and improving its customer service culture across the units.

By launching an internet portal in March, *VST* introduced a user friendly, speedy and efficient way for its legal entity customers to pay for the power consumed. The portal enables legal entity customers of *VST* to provide meter data electronically and monitor the history of payments, debts and bills settled.

Investment

In October, the Company started one of the key projects of the year: the construction of the transformer substation in the centre of Kaunas. This 110/10 kV transformer substation will be the most modern of its kind in Lithuania. The Company has invested LTL 11 million into the construction of the substation.

Previously, VST customers would normally inform the experts of the Company about power outages. Following the installation of the SCADA (Supervisory Control and Data Acquisition) systems, the experts of the Company will be the first to know about any minor power fluctuations. The systems to be installed in Kaunas, Plungė, Radviliškis, and Šilalė will cost the Company more than LTL 13 million.

The Company continues modernization of transformer substations. Reconstruction of transformer substations in Plungė and Šeduva was completed already. The Company had allocated LTL 14.7 million for the modernization. In October, the reconstruction of Noreikiškės transformer substation was finished, too. The thorough reconstruction and modernization of the substation, which is situated in Kaunas area, required the investment of LTL 4.3 million. Also, investment projects worth millions of litas are being implemented in Tytuvėnai and Akmenė in order to ensure quality power supply to the customers of the Company. The modernization project of Salantai transformer substation situated in Klaipėda area is almost complete. The Company invested LTL 4.15 million into the renovation. Nearly 2,000 of VST customers are supplied with power from the aforesaid substation, including residents of Salantai and nine neighboring towns. Amaliai transformer substation is also under reconstruction. It distributes power to Dainava Clinic in Kaunas, several educational institutions, Girstupis Police Station and many other entities. LTL 8.7 million was invested into the reconstruction project.

Taikos transformer substation in the centre of Klaipėda is also being updated. The substation supplies power to 17,000 residents of Klaipėda and several major companies. Its reconstruction is close to being complete. VST has invested nearly LTL 10 million into the project.

Cooperation

VST continues to cooperate with policemen in Western Lithuania in order to take joint actions to prevent thefts of power cables and non-ferrous metals.

The Company provides development opportunities for students. Each year, around 50 students from various educational institutions are offered traineeships at *VST*. There were 45 student trainees at the Company during the first quarter of the year. Yet another several dozen of students were given development opportunities at *VST* in the summer of 2006. The year 2005 saw around 70 student trainees developing their skills at the Company. Almost half of them were students of Kaunas University of Technology. Most of the students get hands-on experience in the units that are directly related to Company activities, power distribution and supply.

Adjustment of Equity Capital Structure

On 22 December 2006, decisions were made concerning the equity capital structure and amendment of the statutes of the Company at the Extraordinary General Meeting of Shareholders. In order to reflect the effect of the hyperinflationary Lithuanian economy in 1991–1996 on the equity capital structure of the Company and taking into account the recount of the Company's fixed asset value according to the consumer price indices of 1991–1996, reviewed by the audit company *Ernst & Young Baltic UAB* (according to the report of 18 December 2006 "Concerning Annual Consumer Price Indices in the Republic of Lithuania Recorded in 1991–1996 and Fixed Asset Value Indexing Inconsistencies Set and Applied in Accordance with Resolutions of the Government of the Republic of Lithuania of 1991–1995 and the Influence of those Inconsistencies on the Asset Value") the decision was adopted to make an adjustment to the Company's remainder of the revaluation reserve on 31 December 2005, in the sum of LTL 268.40 million, by transferring the sum to the retained earnings, without changing the equity capital amount of the Company.

ACTIVITY RESULTS

In 2006 the profit before taxes amounted to LTL 83.6 million. In the Report year the expenses of income tax were LTL 54.4 million, and the benefits of deferred income tax – LTL 30.5 million. The net profit of the company amounted to LTL 59.7 million in 2006.

Revenues

3 680 million kWh of electric power were sold to the consumers during 2006, 6.8 percent more comparing with 3 446 million kWh in 2005.

During the report year the income from sales and services except financial activities was LTL 928.6 million (in 2005 – LTL 846.7 million). The major part of income was from sales of electric energy.

Income, LTL million	2006	2005	Change, %
Income from the sales of electric power	906.1	826	10
Sales of reactive energy	15.1	14.3	6
Income from connection of new consumers	3.56	2.4	48
Other income from operation	3.85	3.96	-3
Total:	928.6	846.7	10

In 2006 income from financial activities was LTL 5.9 million (in 2005 – LTL 4.8 million). The increase of financial income was determined by efficient management of cash flow and active use of short-term investment instruments.

Expenditures

In 2006 the Company's expenditure was LTL 834.1 million while in 2005 it was LTL 786.8 million. The biggest part of all expenditures consisted of electricity purchase and transmission expense (58.9 percent), the remaining part consisted of the relatively fixed expense for repairs, personnel etc. Repair and maintenance expense increased due to reconstruction and modernization works.

Operating expenses, LTL million	2006 m.	2005 m.	Change, %
Purchase of electric power	491.1	451.2	9
Depreciation and amortization	218	212.1	3
Wages, salaries and social security	50.6	57.2	-12
Repair and maintenance expenses	36.6	27.8	32
Taxes except for the profit tax	4.2	3.1	35
Utilities and communications expenses	5.5	6.2	-11
Other	28.1	29.2	-4
Total:	834.1	786.8	6

In 2006 expenses of financial activities were LTL 16.86 million (in 2005 – LTL 16.96 million), the biggest part of it was interest expenses – LTL 16.78 million (in 2005 – LTL 16.76 million).

Non-current assets

The carrying value of the non-current assets decreased from LTL 2 164.9 million in 2005 to LTL 2 079.7 million in 2006. The decrease was caused by the depreciation and amortization of the non-current assets, which were equal to LTL 218 million in 2006.

Investments

In 2006 LTL 139.7 million were invested into development and maintenance of electric power distribution network, 7.5 percent more as compared with LTL 130 million in 2005.

Current assets

The carrying value of current assets has decreased from LTL 289.7 million to LTL 205.2 million during the year 2006.

The current assets of the company in the end of the year, LTL million	2006	2005	Change, %
Inventory	6.52	13.7	-52
Trade and other receivables	83.04	67.47	23
Prepayments, deferred charges and accrued incomes	12.67	9.25	37
Cash and cash equivalents	102.94	199.3	-48
Total:	205.2	289.7	-29

Borrowings

Long term borrowings in the end of 2006 were equal to LTL 347.1 million, short term borrowings – LTL 49.5 million (in 2005 – LTL 388.8 million and LTL 100.4 million, respectively).

Also, in 2006 financial liabilities were augmented by the sums (short-term – LTL 864 thousand, long-term – LTL 6.9 million, total – LTL 7.8 million) paid to AB "Lietuvos energija" for acquired assets. These liabilities will be carried out during the period of ten years.

Financial liabilities for banks in the beginning of 2006 were LTL 489 million, while in the end of the year – LTL 388.6 million (table bellow shows Company's financial liabilities for banks in the end of 2006 and 2005).

Lender	Currency	Value in balance sheet (2005 12 31) LTL million	Payback, LTL million	Value in balance sheet (2006 12 31) LTL million
AB bank "Hansabankas"	EUR	17.3	17.3	0
Nordea Bank Finland Plc Lithuania	EUR	34.5	34.5	0
Syndicated loan	EUR	437.2	48.6	388.6
Total		489	100.4	388.6

The Company has credit line contracts with AB bank "Hansabank", Nordea Bank Finland Plc Lithuania and SEB Vilnius bank. It gives the possibility to borrow LTL 107 million if needed.

KEY RISK FACTORS

Production and sales of electric power in Lithuania is regulated by the state more than other industry branches. Top margins of service prices are set by the Commission of Prices and energy control of the Republic of Lithuania. Therefore the pricing policy of the company is not flexible enough. Unplanned changes in the political situation of the country and legal regulations would have a negative influence on the company's operation.

The key economic risk factor is insufficient capacity of the company and its contractors quickly eliminate the damages, which occur in result of natural calamities. Due to the disorders of electric power supply the incomes may be lost and losses may occur.

INFORMATION CONCERNING ENVIRONMENT AND PERSONNEL

The public company "VST" is an electric power distribution company. Different from the electric power producing companies it hardly pollutes the environment. The chances of the issuer's operation limitations or its closedown due to the damages on the environment are really poor.

Due to personnel policy which promotes professionalism and loyalty of employees, "VST" AB is attractive to young and qualified specialist. Personnel trainings are largely financed, promotion schemes are successful and adjusted to needs of every level of employees. Furthermore, inner staff selections are organized and training and professional development system is functioning.

The implementation of innovative management principles, customer service quality standards is taking place in the Company. After privatization of the Company, organization structure was optimized, inner procedures were renewed and productivity of employees was improved.

PURCHASE AND TRANSFER OF OWN SHARES

The Company has not purchased own shares before the report period and has not purchased own shares during the year 2006.

SUBSIDIARY COMPANIES, PURCHASE OR SALES OF SHARES

The Company has no shares of other companies. There were no transactions made regarding purchase or sales of other companies' shares during the year 2006.

INFORMATION ON THE BRANCHES OF THE COMPANY

In 2006 the Company had no branch offices or representations.

PLANS AND FORECASTS OF THE COMPANY OPERATION

In 2007 the Company does not plan any changes in the key operation and is going to continue the distribution of electric power by medium and low voltage lines and the supply of electric power to the consumers.

"VST" AB plans to continue reconstruction and modernization works, and improvement of customer service quality.

COMPLIANCE WITH THE GOVERNANCE CODE

The Company discloses its compliance with the Governance Code, approved by the Vilnius Stock Exchange for the companies listed on the regulated market, and its specific provisions in Annex 1.

Chief Executive Officer

Disclosure form concerning the compliance with the Governance Code for the companies listed on the regulated market

The public company "VST" (latter in commentaries referred as the Company), following Article 21 paragraph 3 of the Law on Securities of the Republic of Lithuania and item 20.5 of the Trading Rules of the Vilnius Stock Exchange, discloses its compliance with the Governance Code, approved by the VSE for the companies listed on the regulated market, and its specific provisions. In the event of non-compliance with the Code or with certain provisions thereof, it must be specified which provisions are not complied with and the reasons of non-compliance.

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLICAB LE	COMMENTARY
Principle I: Basic Provisions		
The overriding objective of a company should be to optime shareholder value.	oerate in comn	non interests of all the shareholders by optimizing over
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	YES	
1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	YES	
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Not applicable	Supervisory body is not set up in the Company.
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	YES	

Principle II: The corporate governance framework

The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests.

2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	NO	Supervisory body is not set up in the Company, as after taking into account the structure of shareholders and the regulated activities of the Company, it is considered as not relevant.
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	YES NO	Supervisory body is not set up in the Company. See 2.1.
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	NO	Supervisory body is not set up in the Company. See 2.1.
2.4. The collegial supervisory body to be elected by the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body. ¹	and YES, and NO	Supervisory body is not set up in the Company. See 2.1. The Company's Board partly acts according to the Principles III and IV. Further information about compliance with Principles III and IV is given below.
2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies. ²	YES	Provided that "small group of individuals" is taken as a group of not more then two individuals. The Board is comprised of five members. The meeting of the Board has quorum when meeting is attended by at least 4 members of the Board. The resolution of the Board is adopted by a simple majority of members' votes.

1

Provisions of Principles III and IV are more applicable to those instances when the general shareholders' meeting elects the supervisory board, i.e. a body that is essentially formed to ensure oversight of the company's board and the chief executive officer and to represent the company's shareholders. However, in case the company does not form the supervisory board but rather the board, most of the recommendations set out in Principles III and IV become important and applicable to the board as well. Furthermore, it should be noted that certain recommendations, which are in their essence and nature applicable exclusively to the supervisory board, should not be applied to the board, as the competence and functions of these bodies according to the Law on Companies of the Republic of Lithuania (Official Gazette, 2003, No 123-5574) are different. For instance, item 3.1 of the Code concerning oversight of the management bodies applies to the extent it concerns the oversight of the chief executive officer of the company, but not of the board itself; item 4.1 of the Code concerning recommendations to the management bodies applies to the extent it relates to the provision of recommendations to the company's chief executive officer; item 4.4 of the Code concerning independence of the collegial body elected by the general meeting from the company's management bodies is applied to the extent it concerns independence from the chief executive officer.

² Definitions 'executive director' and 'non-executive director' are used in cases when a company has only one collegial body.

2.6. Non-executive directors or members of the	Not	Supervisory body is not set up in the Company. See 2.1.
supervisory board should be appointed for specified	applicable	Non-executive directors are not elected in the Company.
terms subject to individual re-election, at maximum		
intervals provided for in the Lithuanian legislation with a		
view to ensuring necessary development of professional		
experience and sufficiently frequent reconfirmation of		
their status. A possibility to remove them should also be		
stipulated however this procedure should not be easier		
than the removal procedure for an executive director or		
a member of the management board.		
2.7. Chairman of the collegial body elected by the	NO	There are no restrictions for Chief Executive Officer to be
general shareholders' meeting may be a person whose		a chairman of the Board in the Company. The Company
current or past office constitutes no obstacle to conduct		thinks that Chief Executive Officer and the Board are
independent and impartial supervision. Where a		executive bodies of the Company and above mentioned
company should decide not to set up a supervisory		restriction would be not appropriate.
board but rather the board, it is recommended that the		
chairman of the board and chief executive officer of the		
company should be a different person. Former		
company's chief executive officer should not be		
immediately nominated as the chairman of the collegial		
body elected by the general shareholders' meeting.		
When a company chooses to departure from these		
recommendations, it should furnish information on the		
measures it has taken to ensure impartiality of the		
supervision.		

The order of the formation a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.³

3.1. The mechanism of the formation of a collegial body	YES	The Board of the Company is elected by the General
to be elected by a general shareholders' meeting		Shareholders Meeting according to the rules prescribed in
(hereinafter in this Principle referred to as the 'collegial		the Law on Companies of the Republic of Lithuania.
body') should ensure objective and fair monitoring of		
the company's management bodies as well as		
representation of minority shareholders.		

³ Attention should be drawn to the fact that in the situation where the collegial body elected by the general shareholders' meeting is the board, it is natural that being a management body it should ensure oversight not of all management bodies of the company, but only of the single-person body of management, i.e. the company's chief executive officer. This note shall apply in respect of item 3.1 as well.

_	ı	
3.2. Names and surnames of the candidates to become	YES	
members of a collegial body, information about their		
education, qualification, professional background,		
positions taken and potential conflicts of interest should		
be disclosed early enough before the general		
shareholders' meeting so that the shareholders would		
have sufficient time to make an informed voting		
decision. All factors affecting the candidate's		
independence, the sample list of which is set out in		
Recommendation 3.7, should be also disclosed. The		
collegial body should also be informed on any		
subsequent changes in the provided information. The		
collegial body should, on yearly basis, collect data		
provided in this item on its members and disclose this in		
the company's annual report.		
3.3. Should a person be nominated for members of a	and YES,	All information about the Board members, the Company
collegial body, such nomination should be followed by	and No	considers as necessary to disclose, is provided on the

and have this periodically evaluated. The collegial body		The audit committee is not formed.
should ensure that it is composed of members who, as a		
whole, have the required diversity of knowledge,		
judgment and experience to complete their tasks		
properly. The members of the audit committee,		
collectively, should have a recent knowledge and		
relevant experience in the fields of finance, accounting		
and/or audit for the stock exchange listed companies.		
3.5. All new members of the collegial body should be	YES	There is no formal review to identify knowledge of the
offered a tailored program focused on introducing a		Board's members in the Company. However, the Board's
member with his/her duties, corporate organization and		members attend special seminars or courses, if there is a
activities. The collegial body should conduct an annual		necessity.
review to identify fields where its members need to		
update their skills and knowledge.		

3.6. In order to ensure that all material conflicts of	NO	In the Company's Articles of Association there are no
interest related with a member of the collegial body are		provisions about independent members' elections to the
resolved properly, the collegial body should comprise a		Board. The Company thinks, such provisions are not
sufficient ⁴ number of independent ⁵ members.		necessary, as there is enough means provided by the laws
		to resolve all material conflicts of interest related with a
		member of the Board. Moreover, issues concerning
		Boards' formation are assigned to the General
		Shareholders Meeting and the independent member can
		be elected to the Board only if one gets enough
		shareholders' votes.

⁴ The Code does not provide for a concrete number of independent members to comprise a collegial body. Many codes in foreign countries fix a concrete number of independent members (e.g. at least 1/3 or 1/2 of the members of the collegial body) to comprise the collegial body. However, having regard to the novelty of the institution of independent members in Lithuania and potential problems in finding and electing a concrete number of independent members, the Code provides for a more flexible wording and allows the companies themselves to decide what number of independent members is sufficient. Of course, a larger number of independent members in a collegial body is encouraged and will constitute an example of more suitable corporate governance.

⁵ It is notable that in some companies all members of the collegial body may, due to a very small number of minority shareholders, be elected by the votes of the majority shareholder or a few major shareholders. But even a member of the collegial body elected by the majority shareholders may be considered independent if he/she meets the independence criteria set out in the Code.

- 3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependant are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a member of the collegial body can be considered to be independent are the following:
 - He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years;
 - 2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees;
 - 3) He/she is not receiving or has been not receiving significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is no way related with later position) as per pension plans (inclusive of deferred compensations);
 - He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1);
 - 5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such

See 3.6.

relationship. A subject is considered to have business relations when it is a major supplier or service provider (inclusive of financial, legal, counseling and consulting services), major client or organization receiving significant payments from the company or its group;

- 6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company;
- 7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies;
- 8) He/she has not been in the position of a member of the collegial body for over than 12 years;
- 9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a spouse (commonlaw spouse), children and parents.
- 3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to special personal or company-related circumstances.

3.9. Necessary information on conclusions the collegial	NO	See 3.6.
body has come to in its determination of whether a		
particular member of the body should be considered to		
be independent should be disclosed. When a person is		
nominated to become a member of the collegial body,		
the company should disclose whether it considers the		
person to be independent. When a particular member		
of the collegial body does not meet one or more criteria		
of independence set out in this Code, the company		
should disclose its reasons for nevertheless considering		
the member to be independent. In addition, the		
company should annually disclose which members of		
the collegial body it considers to be independent.		
3.10. When one or more criteria of independence set out	NO	See 3.6.
in this Code has not been met throughout the year, the		
company should disclose its reasons for considering a		
particular member of the collegial body to be		
independent. To ensure accuracy of the information		
disclosed in relation with the independence of the		
members of the collegial body, the company should		
require independent members to have their		
independence periodically re-confirmed.		
3.11. In order to remunerate members of a collegial	NO	See 3.6.
body for their work and participation in the meetings of		
the collegial body, they may be remunerated from the		
company's funds.6. The general shareholders' meeting		
should approve the amount of such remuneration.		
Principle IV: The duties and liabilities of a collegial bod	y elected by t	he general shareholders' meeting
The cornorate governance framework should ensure	nroner and e	ffective functioning of the collegial body elected by the
		llegial body should ensure effective monitoring ⁷ of the
company's management bodies and protection of inte	rests of all the	e company's shareholders.
4.1. The collegial body elected by the general	YES	
shareholders' meeting (hereinafter in this Principle	123	
referred to as the 'collegial body') should ensure		
integrity and transparency of the company's financial		
statements and the control system. The collegial body		
should issue recommendations to the company's		
management hodies and monitor and control the		

company's management performance.8

⁸ See Footnote 3. In the event the collegial body elected by the general shareholders' meeting is the board, it should provide recommendations to the company's single-person body of management, i.e. the company's chief executive officer.

⁶ It is notable that currently it is not yet completely clear, in what form members of the supervisory board or the board may be remunerated for their work in these bodies. The Law on Companies of the Republic of Lithuania (*Official Gazette*, 2003, No 123-5574) provides that members of the supervisory board or the board may be remunerated for their work in the supervisory board or the board by payment of annual bonuses (tantiems) in the manner prescribed by Article 59 of this Law, i.e. from the company's profit. The current wording, contrary to the wording effective before 1 January 2004, eliminates the exclusive requirement that annual bonuses (tantiems) should be the *only* form of the company's compensation to members of the supervisory board or the board. So it seems that the Law contains no prohibition to remunerate members of the supervisory board or the board for their work in other forms, besides bonuses, although this possibility is not expressly stated either.

See Footnote 3.

4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary, respective company-not-pertaining body (institution).	YES	Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the Board are not elected, see 3.6.
4.3. Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half ⁹ of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.	YES	Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half ¹⁰ of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.
4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.	YES	Where decisions of a collegial body may have a different effect on the Company's shareholders, the collegial body should treat all shareholders impartially and fairly. Shareholders are being informed about Company's affairs, strategies, risk management and resolution of conflict of interest according to the requirements laid in the legislation. The role of members of the Board when communicating with and committing to shareholders is established according to the requirements laid in the legislation. In the Company there is no regulations setting specific role of members of the Board when communicating with and committing to shareholders.

⁹ It is notable that companies can make this requirement more stringent and provide that shareholders should be informed about failure to participate at the meetings of the collegial body if, for instance, a member of the collegial body participated at less than 2/3 or 3/4 of the meetings. Such measures, which ensure active participation in the meetings of the collegial body, are encouraged and will constitute an example of more suitable corporate governance.

an example of more suitable corporate governance.

10 It is notable that companies can make this requirement more stringent and provide that shareholders should be informed about failure to participate at the meetings of the collegial body if, for instance, a member of the collegial body participated at less than 2/3 or 3/4 of the meetings. Such measures, which ensure active participation in the meetings of the collegial body, are encouraged and will constitute an example of more suitable corporate governance.

4.5. It is recommended that transactions (except	YES	Provided that independent members of the collegial body
insignificant ones due to their low value or concluded		are not elected.
when carrying out routine operations in the company		
under usual conditions), concluded between the		
company and its shareholders, members of the		
supervisory or managing bodies or other natural or legal		
persons that exert or may exert influence on the		
company's management should be subject to approval		
of the collegial body. The decision concerning approval		
of such transactions should be deemed adopted only		
provided the majority of the independent members of		
the collegial body voted for such a decision.		
4.6. The collegial body should be independent in	YES	Provided that comities of the collegial body are not
passing decisions that are significant for the company's		formed.
operations and strategy. Taken separately, the collegial		
body should be independent of the company's		
management bodies ¹¹ . Members of the collegial body		
should act and pass decisions without an outside		
influence from the persons who have elected it.		
Companies should ensure that the collegial body and its		
committees are provided with sufficient administrative		
and financial resources to discharge their duties,		
including the right to obtain, in particular from		
employees of the company, all the necessary		
information or to seek independent legal, accounting or		
any other advice on issues pertaining to the		
competence of the collegial body and its committees.		

.

In the event the collegial body elected by the general shareholders' meeting is the board, the recommendation concerning its independence from the company's management bodies applies to the extent it relates to the independence from the company's chief executive officer.

4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body are not in a manner that independent members of the collegial body are not in a manner that independent members of the collegial body are not in a manner that independent members of the collegial body are not elected, see 3.6. Comities are not formed, as the Company thinks the work of the Board is well organized and efficient enough. The Board is set flor properly perform all the functions that, according to recommended that the collegial body, it is recommended that the collegial body, should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the committence of the collegial body should establish nomination, remuneration, and audit committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body with a view to ensuring that the decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions concerning the decisions of the collegial body. board, remuneration and audit committees should be entirely comprised of non-executive directors. Chairmanship and membership of the committees should be decided with due regard to the need to ensure that committee membership is refreshed and that undue reliance is not placed on particular individuals.		
4.10. Authority of each of the committees should be determined by the collegial body. Committees should perform their duties in line with authority delegated to them and inform the collegial body on their activities and performance on regular basis. Authority of every committee stipulating the role and rights and duties of the committee should be made public at least once a year (as part of the information disclosed by the company annually on its corporate governance structures and practices). Companies should also make public annually a statement by existing committees on their composition, number of meetings and attendance over the year, and their main activities. Audit committee should confirm that it is satisfied with the independence of the audit process and describe briefly the actions it has taken to reach this conclusion.	NO	Comities are not formed, see 4.7.
4.11. In order to ensure independence and impartiality of the committees, members of the collegial body that are not members of the committee should commonly have a right to participate in the meetings of the committee only if invited by the committee. A committee may invite or demand participation in the meeting of particular officers or experts. Chairman of each of the committees should have a possibility to maintain direct communication with the shareholders. Events when such are to be performed should be specified in the regulations for committee activities.	NO	Comities are not formed, see 4.7.

4.12. Nomination Committee.	NO	Compile on the second of the s
4.12.1. Key functions of the nomination committee	NO	Comities are not formed, see 4.7.
should be the following:		
• Identify and recommend, for the approval of the		
collegial body, candidates to fill board vacancies. The nomination committee should evaluate the balance of		
skills, knowledge and experience on the management		
body, prepare a description of the roles and capabilities		
required to assume a particular office, and assess the		
time commitment expected. Nomination committee		
can also consider candidates to members of the		
collegial body delegated by the shareholders of the company;		
Assess on regular basis the structure, size, composition		
and performance of the supervisory and management		
bodies, and make recommendations to the collegial		
body regarding the means of achieving necessary		
changes; • Assess on regular basis the skills, knowledge and		
experience of individual directors and report on this to		
the collegial body;		
 Properly consider issues related to succession 		
planning;		
 Review the policy of the management bodies for selection and appointment of senior management. 		
selection and appointment of senior management.		
4.12.2. Nomination committee should consider		
proposals by other parties, including management and		
shareholders. When dealing with issues related to		
executive directors or members of the board (if a		
collegial body elected by the general shareholders'		
meeting is the supervisory board) and senior		
management, chief executive officer of the company		
should be consulted by, and entitled to submit		
proposals to the nomination committee.		
4.13. Remuneration Committee.	NO	Comities are not formed, see 4.7.
4.13.1. Key functions of the remuneration committee		
should be the following: • Make proposals, for the approval of the collegial body,		
on the remuneration policy for members of		
management bodies and executive directors. Such		
policy should address all forms of compensation,		
including the fixed remuneration, performance-based		
remuneration schemes, pension arrangements, and termination payments. Proposals considering		
performance-based remuneration schemes should be		
accompanied with recommendations on the related		
objectives and evaluation criteria, with a view to		
properly aligning the pay of executive director and		
members of the management bodies with the long- term interests of the shareholders and the objectives set		
by the collegial body;		
Make proposals to the collegial body on the individual		
remuneration for executive directors and member of		
management bodies in order their remunerations are		
consistent with company's remuneration policy and the evaluation of the performance of these persons		
concerned. In doing so, the committee should be		
properly informed on the total compensation obtained		
by executive directors and members of the		
management bodies from the affiliated companies;		
 Make proposals to the collegial body on suitable forms of contracts for executive directors and members of the 		
or contracts for executive directors and members of the		

management bodies;

- Assist the collegial body in overseeing how the company complies with applicable provisions regarding the remuneration-related information disclosure (in particular the remuneration policy applied and individual remuneration of directors);
- Make general recommendations to the executive directors and members of the management bodies on the level and structure of remuneration for senior management (as defined by the collegial body) with regard to the respective information provided by the executive directors and members of the management bodies.
- 4.13.2. With respect to stock options and other sharebased incentives which may be granted to directors or other employees, the committee should:
- Consider general policy regarding the granting of the above mentioned schemes, in particular stock options, and make any related proposals to the collegial body;
- Examine the related information that is given in the company's annual report and documents intended for the use during the shareholders meeting;
- Make proposals to the collegial body regarding the choice between granting options to subscribe shares or granting options to purchase shares, specifying the reasons for its choice as well as the consequences that this choice has.
- 4.13.3. Upon resolution of the issues attributable to the competence of the remuneration committee, the committee should at least address the chairman of the collegial body and/or chief executive officer of the company for their opinion on the remuneration of other executive directors or members of the management bodies.

4.14. Audit Committee.

- 4.14.1. Key functions of the audit committee should be the following:
- Observe the integrity of the financial information provided by the company, in particular by reviewing the relevance and consistency of the accounting methods used by the company and its group (including the criteria for the consolidation of the accounts of companies in the group);
- At least once a year review the systems of internal control and risk management to ensure that the key risks (inclusive of the risks in relation with compliance with existing laws and regulations) are properly identified, managed and reflected in the information provided;
- Ensure the efficiency of the internal audit function, among other things, by making recommendations on the selection, appointment, reappointment and removal of the head of the internal audit department and on the budget of the department, and by monitoring the responsiveness of the management to its findings and recommendations. Should there be no internal audit authority in the company, the need for one should be reviewed at least annually;
- Make recommendations to the collegial body related with selection, appointment, reappointment and removal of the external auditor (to be done by the general shareholders' meeting) and with the terms and conditions of his engagement. The committee should investigate situations that lead to a resignation of the audit company or auditor and make recommendations on required actions in such situations;
- · Monitor independence and impartiality of the external auditor, in particular by reviewing the audit company's compliance with applicable guidance relating to the rotation of audit partners, the level of fees paid by the company, and similar issues. In order to prevent occurrence of material conflicts of interest, the committee, based on the auditor's disclosed inter alia data on all remunerations paid by the company to the auditor and network, should at all times monitor nature and extent of the non-audit services. Having regard to the principals and guidelines established in the 16 May 2002 Commission Recommendation 2002/590/EC, the committee should determine and apply a formal policy establishing types of non-audit services that are (a) excluded, (b) permissible only after review by the committee, and (c) permissible without referral to the committee:
- Review efficiency of the external audit process and responsiveness of management to recommendations made in the external auditor's management letter.
- 4.14.2. All members of the committee should be furnished with complete information on particulars of accounting, financial and other operations of the company. Company's management should inform the audit committee of the methods used to account for significant and unusual transactions where the accounting treatment may be open to different approaches. In such case a special consideration should be given to company's operations in offshore centers and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.

Comities are not formed, see 4.7.

NO

4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant person without executive directors and members of the management bodies present.		
4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact person for the internal and external auditors.		
4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished information on all issues arising from the audit.		
4.14.6. The audit committee should examine whether the company is following applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up action.		
4.14.7. The audit committee should report on its		
activities to the collegial body at least once in every six		
months, at the time the yearly and half-yearly		
statements are approved.		
4.15. Every year the collegial body should conduct the assessment of its activities. The assessment should	NO	The Board does not conduct any formal assessment of its activities. Company's activities, as well as Board's activities,
include evaluation of collegial body's structure, work		are assessed by shareholders' according to the rules
organization and ability to act as a group, evaluation of		prescribed in the legislation.
each of the collegial body member's and committee's		
competence and work efficiency and assessment		
whether the collegial body has achieved its objectives.		
The collegial body should, at least once a year, make		
public (as part of the information the company annually		
discloses on its management structures and practices)		
respective information on its internal organization and working procedures, and specify what material changes		
were made as a result of the assessment of the collegial		
body of its own activities.		

Principle V: The working procedure of the company's comp	ollegial bodies	
The working procedure of supervisory and management operation of these bodies and decision-making and en		
5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.	YES	
5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month ¹² .	YES	In order to guarantee an uninterrupted resolution of the essential corporate governance issues, the Board's meetings are held whenever it is necessary.
5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.	YES	

The frequency of meetings of the collegial body provided for in the recommendation must be applied in those cases when both additional collegial bodies are formed at the company, the board and the supervisory board. In the event only one additional collegial body is formed in the company, the frequency of its meetings may be as established for the supervisory board, i.e. at least once in a quarter.

5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-coordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed. Principle VI: The equitable treatment of shareholders at the corporate governance framework should ensure the foreign shareholders. The corporate governance framework should ensure the foreign shareholders. The corporate governance framework should ensure the foreign shareholders.	ne equitable tı	reatment of all shareholders, including minority and
6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.	YES	
6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase shares.	YES	
6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. ¹³ All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including	NO	Negotiation and performance of transactions, such as transfer of property, investment, pledge and etc. are actions that substantially are treated as executive functions. Whereas management is attributed to the executive bodies, it is not assigned to General Shareholders Meeting.

_

discussed.

approval of transactions referred to above, are

¹³ The Law on Companies of the Republic of Lithuania (*Official Gazette*, 2003, No 123-5574) no longer assigns resolutions concerning the investment, transfer, lease, mortgage or acquisition of the long-terms assets accounting for more than 1/20 of the company's authorised capital to the competence of the general shareholders' meeting. However, transactions that are important and material for the company's activity should be considered and approved by the general shareholders' meeting. The Law on Companies contains no prohibition to this effect either. Yet, in order not to encumber the company's activity and escape an unreasonably frequent consideration of transactions at the meetings, companies are free to establish their own criteria of material transactions, which are subject to the approval of the meeting. While establishing these criteria of material transactions, companies may follow the criteria set out in items 3, 4, 5 and 6 of paragraph 4 of Article 34 of the Law on Companies or derogate from them in view of the specific nature of their operation and their attempt to ensure uninterrupted, efficient functioning of the company.

CA Providence of a second seco	VEC	
6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders. Prior to the shareholders' meeting, the company's supervisory and management bodies should enable the shareholders to lodge questions on issues on the agenda of the general shareholders' meeting and receive answers to them.	YES	
6.5. It is recommended that documents on the course of the general shareholders' meeting, including draft resolutions of the meeting, should be placed on the publicly accessible website of the company in advance ¹⁴ . It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company. Seeking to ensure the right of foreigners to familiarize with the information, whenever feasible, documents referred to in this recommendation should be published in English and/or other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.	YES	
6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.	YES	
6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies in voting processes by allowing the shareholders to vote in general meetings via terminal equipment of telecommunications. In such cases security of telecommunication equipment, text protection and a possibility to identify the signature of the voting person should be guaranteed. Moreover, companies could furnish its shareholders, especially foreigners, with the opportunity to watch shareholder meetings by means of modern technologies.	NO	The Company thinks that at this time there is no need to organize voting using means of modern technologies. Moreover, such organization of voting would require large amounts of investment.

The documents referred to above should be placed on the company's website in advance with due regard to a 10-day period before the general shareholders' meeting, determined in paragraph 7 of Article 26 of the Law on Companies of the Republic of Lithuania (Official Gazette, 2003, No 123-5574).

Principle VII: The avoidance of conflicts of interest and	their disclosu	re
-		of the corporate bodies to avoid conflicts of interest and as of interest regarding members of the corporate bodies.
7.1. Any member of the company's supervisory and	YES	
management body should avoid a situation, in which		
his/her personal interests are in conflict or may be in		
conflict with the company's interests. In case such a		
situation did occur, a member of the company's		
supervisory and management body should, within		
reasonable time, inform other members of the same		
collegial body or the company's body that has elected		
him/her, or to the company's shareholders about a		
situation of a conflict of interest, indicate the nature of		
the conflict and value, where possible.		
7.2. Any member of the company's supervisory and	YES	
management body may not mix the company's assets,		
the use of which has not been mutually agreed upon,		
with his/her personal assets or use them or the		
information which he/she learns by virtue of his/her		
position as a member of a corporate body for his/her		
personal benefit or for the benefit of any third person		
without a prior agreement of the general shareholders'		
meeting or any other corporate body authorized by the		
meeting.		
7.3. Any member of the company's supervisory and	YES	
management body may conclude a transaction with the		
company, a member of a corporate body of which		
he/she is. Such a transaction (except insignificant ones		
due to their low value or concluded when carrying out		
routine operations in the company under usual		
conditions) must be immediately reported in writing or		
orally, by recording this in the minutes of the meeting,		
to other members of the same corporate body or to the		
corporate body that has elected him/her or to the		
company's shareholders. Transactions specified in this		
recommendation are also subject to recommendation		
4.5.		
7.4. Any member of the company's supervisory and	YES	
management body should abstain from voting when		
decisions concerning transactions or other issues of		
personal or business interest are voted on.		
Division VIII. Comment of the Commen		

Principle VIII: Company's remuneration policy

Remuneration policy and procedure for approval, revision and disclosure of directors' remuneration established in the company should prevent potential conflicts of interest and abuse in determining remuneration of directors, in addition it should ensure publicity and transparency both of company's remuneration policy and remuneration of directors.

8.1. A company should make a public statement of the company's remuneration policy (hereinafter the remuneration statement). This statement should be part of the company's annual accounts. Remuneration statement should also be posted on the company's website.	NO	Statement of the Company's remuneration policy is not made, because, according to the Company's opinion, it is irrelevant and not obligatory according to the legislation.
8.2. Remuneration statement should mainly focus on directors' remuneration policy for the following year and, if appropriate, the subsequent years. The statement should contain a summary of the implementation of the remuneration policy in the previous financial year. Special attention should be given to any significant changes in company's remuneration policy as compared to the previous financial year.	NO	See 8.1.
 8.3. Remuneration statement should leastwise include the following information: Explanation of the relative importance of the variable and non-variable components of directors' remuneration; Sufficient information on performance criteria that entitles directors to share options, shares or variable components of remuneration; Sufficient information on the linkage between the remuneration and performance; The main parameters and rationale for any annual bonus scheme and any other non-cash benefits; A description of the main characteristics of supplementary pension or early retirement schemes for directors. 	NO	See 8.1.
8.4. Remuneration statement should also summarize and explain company's policy regarding the terms of the contracts executed with executive directors and members of the management bodies. It should include, inter alia, information on the duration of contracts with executive directors and members of the management bodies, the applicable notice periods and details of provisions for termination payments linked to early termination under contracts for executive directors and members of the management bodies.	NO	See 8.1.
8.5. The information on preparatory and decision-making processes, during which a policy of remuneration of directors is being established, should also be disclosed. Information should include data, if applicable, on authorities and composition of the remuneration committee, names and surnames of external consultants whose services have been used in determination of the remuneration policy as well as the role of shareholders' annual general meeting.		See 8.1.

8.6. Without prejudice to the role and organization of the relevant bodies responsible for setting directors' remunerations, the remuneration policy or any other significant change in remuneration policy should be included into the agenda of the shareholders' annual general meeting. Remuneration statement should be put for voting in shareholders' annual general meeting. The vote may be either mandatory or advisory.	NO	See 8.1.
8.7. Remuneration statement should also contain		
detailed information on the entire amount of	NO	See 8.1.
remuneration, inclusive of other benefits, that was paid		
to individual directors over the relevant financial year.		
This document should list at least the information set		
out in items 8.7.1 to 8.7.4 for each person who has		
served as a director of the company at any time during the relevant financial year.		
8.7.1. The following remuneration and/or emoluments-		
related information should be disclosed:		
• The total amount of remuneration paid or due to the		
director for services performed during the relevant		
financial year, inclusive of, where relevant, attendance fees fixed by the annual general shareholders meeting;		
The remuneration and advantages received from any		
undertaking belonging to the same group;		
 The remuneration paid in the form of profit sharing 		
and/or bonus payments and the reasons why such		
bonus payments and/or profit sharing were granted; • If permissible by the law, any significant additional		
remuneration paid to directors for special services		
outside the scope of the usual functions of a director;		
 Compensation receivable or paid to each former 		
executive director or member of the management body		
as a result of his resignation from the office during the previous financial year;		
• Total estimated value of non-cash benefits considered		
as remuneration, other than the items covered in the		
above points.		
8.7.2. As regards shares and/or rights to acquire share		
options and/or all other share-incentive schemes, the following information should be disclosed:		
• The number of share options offered or shares granted		
by the company during the relevant financial year and		
their conditions of application;		
The number of shares options exercised during the relevant financial year and, for each of them, the		
number of shares involved and the exercise price or the		
value of the interest in the share incentive scheme at the		
end of the financial year;		
• The number of share options unexercised at the end of		
the financial year; their exercise price, the exercise date and the main conditions for the exercise of the rights;		
All changes in the terms and conditions of existing		
share options occurring during the financial year.		
8.7.3. The following supplementary pension schemes-		
related information should be disclosed:		
• When the pension scheme is a defined-benefit scheme, changes in the directors' accrued benefits under that		
scheme during the relevant financial year;		
When the pension scheme is defined-contribution		
scheme, detailed information on contributions paid or		
payable by the company in respect of that director		
during the relevant financial year.		
8.7.4. The statement should also state amounts that the		

company or any subsidiary company or entity included in the consolidated annual financial statements of the company has paid to each person who has served as a director in the company at any time during the relevant financial year in the form of loans, advance payments or guarantees, including the amount outstanding and the interest rate.		
		· ·
8.8. Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should be subject to the prior approval of shareholders' annual general meeting by way of a resolution prior to their adoption. The approval of scheme should be related with the scheme itself and not to the grant of such share-based benefits under that scheme to individual directors. All significant changes in scheme provisions should also be subject to shareholders' approval prior to their adoption; the approval decision should be made in shareholders' annual general meeting. In such case shareholders should be notified on all terms of suggested changes and get an explanation on the impact of the suggested changes. 8.9. The following issues should be subject to approval by the shareholders' annual general meeting: • Grant of share-based schemes, including share options, to directors; • Determination of maximum number of shares and main conditions of share granting; • The term within which options can be exercised; • The conditions for any subsequent change in the exercise of the options, if permissible by law; • All other long-term incentive schemes for which directors are eligible and which are not available to other employees of the company under similar terms. Annual general meeting should also set the deadline within which the body responsible for remuneration of directors may award compensations listed in this article to individual directors.	NO	See 8.1. New issue of shares and determination of minimal emission price, according to the legislation, is attributed to General Shareholders Meeting. All questions concerning issue of the Company's shares are met by General Shareholders Meeting.
8.10. Should national law or company's Articles of Association allow, any discounted option arrangement under which any rights are granted to subscribe to shares at a price lower than the market value of the share prevailing on the day of the price determination, or the average of the market values over a number of days preceding the date when the exercise price is determined, should also be subject to the shareholders' approval.		

8.11. Provisions of Articles 8.8 and 8.9 should not be		
applicable to schemes allowing for participation under		
similar conditions to company's employees or		
employees of any subsidiary company whose		
employees are eligible to participate in the scheme and		
which has been approved in the shareholders' annual		
general meeting.		
8.12. Prior to the annual general meeting that is		
intended to consider decision stipulated in Article 8.8,		
the shareholders must be provided an opportunity to		
familiarize with draft resolution and project-related		
notice (the documents should be posted on the		
company's website). The notice should contain the full		
text of the share-based remuneration schemes or a		
description of their key terms, as well as full names of		
the participants in the schemes. Notice should also		
specify the relationship of the schemes and the overall		
remuneration policy of the directors. Draft resolution		
must have a clear reference to the scheme itself or to		
the summary of its key terms. Shareholders must also be		
presented with information on how the company		
intends to provide for the shares required to meet its		
obligations under incentive schemes. It should be		
clearly stated whether the company intends to buy		
shares in the market, hold the shares in reserve or issue		
new ones. There should also be a summary on scheme-		
related expenses the company will suffer due to the		
anticipated application of the scheme. All information		
given in this article must be posted on the company's		
website.		

Principle IX: The role of stakeholders in corporate governance

The corporate governance framework should recognize the rights of stakeholders as established by law and encourage active co-operation between companies and stakeholders in creating the company value, jobs and financial sustainability. For the purposes of this Principle, the concept "stakeholders" includes investors, employees, creditors, suppliers, clients, local community and other persons having certain interest in the company concerned.

9.1. The corporate governance framework should assure that the rights of stakeholders that are protected by law are respected.	YES	Stakeholders can participate in corporate governance in the manner prescribed by law of the Republic of Lithuania.
9.2. The corporate governance framework should create conditions for the stakeholders to participate in corporate governance in the manner prescribed by law. Examples of mechanisms of stakeholder participation in corporate governance include: employee participation in adoption of certain key decisions for the company; consulting the employees on corporate governance and other important issues; employee participation in the company's share capital; creditor involvement in governance in the context of the company's insolvency, etc.	YES	
9.3. Where stakeholders participate in the corporate governance process, they should have access to relevant information.	YES	

Principle X: Information disclosure and transparency

The corporate governance framework should ensure that timely and accurate disclosure is made on all material information regarding the company, including the financial situation, performance and governance of the company.

 10.1. The company should disclose information on: • The financial and operating results of the company; • Company objectives; • Persons holding by the right of ownership or in control of a block of shares in the company; • Members of the company's supervisory and management bodies, chief executive officer of the company and their remuneration; • Material foreseeable risk factors; • Transactions between the company and connected persons, as well as transactions concluded outside the course of the company's regular operations; • Material issues regarding employees and other stakeholders; • Governance structures and strategy. This list should be deemed as a minimum recommendation, while the companies are encouraged not to limit themselves to disclosure of the information specified in this list. 	YES YES YES NO YES YES NO YES YES	All information listed in this recommendation, except information on members of the Company's Board, Chief Executive Officer of the Company and their remuneration and material issues regarding employees and other stakeholders is disclosed in the Company's annual prospectus – reports and Company's announcements. Information on members of the Company's Board, Chief Executive Officer of the company and their remuneration and material issues regarding employees and other stakeholders is disclosed as much as it is required by the legislation. Additional information about the Company is provided on the Company's website.
10.2. It is recommended that consolidated results of the whole group to which the company belongs should be disclosed when information specified in item 1 of Recommendation 10.1 is under disclosure.	NO	The Company discloses only information related to the Company. Information about whole group to which the Company belongs is disclosed by parent company.
10.3. It is recommended that information on the professional background, qualifications of the members of supervisory and management bodies, chief executive officer of the company should be disclosed as well as potential conflicts of interest that may have an effect on their decisions when information specified in item 4 of Recommendation 10.1 about the members of the company's supervisory and management bodies is under disclosure. It is also recommended that information about the amount of remuneration received from the company and other income should be disclosed with regard to members of the company's supervisory and management bodies and chief executive officer as per Principle VIII.	NO	Information about the amount of remuneration received from the Company and other income with regard to members of the Company's management bodies and Chief Executive Officer is not disclosed, as in the Company's opinion, it is irrelevant and not obligatory according to the legislation.
10.4. It is recommended that information about the links between the company and its stakeholders, including employees, creditors, suppliers, local community, as well as the company's policy with regard to human resources, employee participation schemes in the company's share capital, etc. should be disclosed when information specified in item 7 of Recommendation 10.1 is under disclosure.	NO	Information related to stakeholders, the Company considers as necessary to disclose, is provided on the Company's website and in the press releases. The Company thinks that there is no need to disclose the same information in the Company's annual reports or by other special means. Moreover, such discloser is not obligatory according to the legislation.
10.5. Information should be disclosed in such a way that neither shareholders nor investors are discriminated with regard to the manner or scope of access to information. Information should be disclosed to all simultaneously. It is recommended that notices about material events should be announced before or after a trading session on the Vilnius Stock Exchange, so that all the company's shareholders and investors should have equal access to the information and make informed investing decisions.	YES	

10.6. Channels for disseminating information should provide for fair, timely and cost-efficient access to relevant information by users. It is recommended that information technologies should be employed for wider dissemination of information, for instance, by placing the information on the company's website. It is recommended that information should be published and placed on the company's website not only in Lithuanian, but also in English, and, whenever possible and necessary, in other languages as well.	YES	
10.7. It is recommended that the company's annual reports and other periodical accounts prepared by the company should be placed on the company's website. It is recommended that the company should announce information about material events and changes in the price of the company's shares on the Stock Exchange on the company's website too.	YES	
Principle XI: The selection of the company's auditor		
The mechanism of the selection of the company's auc and opinion.	litor should (ensure independence of the firm of auditor's conclusion
