CONFIRMATION OF RESPONSIBLE PERSONS

Following the Article No. 22 of the Law on Securities of the Republic of Lithuania and Rules on Preparation and Submission of Periodic and Additional Information of the Lithuanian Securities Commission, we Aidas Ignatavičius, Chief Executive Officer of VST, AB, and Lina Minderienė, Chief Financial Officer of VST, AB, hereby confirm that, to the best of our knowledge, the attached not audited VST, AB Interim financial report for twelve months of 2007, prepared in accordance with International Financial Reporting Standards, gives a true and fair view of the assets, liabilities, financial position and profit of VST, AB.

ENCLOSURE

1. VST, AB Interim financial report for twelve months of 2007 (15 pages).

Chief Executive Officer

Aidas Ignatavičius

Chief Financial Officer

Lina Minderienė

VST, AB Interim financial report for twelve months of 2007

OUR MISSION -

we are working to ensure the supply of electric energy in western Lithuania.

OUR VISION -

we are seeking to become the best provider of regulated services in Lithuania.

OUR ACHIEVEMENTS:

High client service culture – a responsible team of specialists employed by the company, uniform client service standards, modern client service centres, and new services offered to clients. Abilities of employees are regularly assessed, their qualification is upgraded, trainings are organised.

Consistent investments – consistent and substantial investments are made in the modernisation of the electricity network and the improvement of the quality of services rendered.

Constant fight against thieves of electricity, cables and transformers' oil – the line of confidence is accessible free of charge, a modified oil for transformers was developed, cooperation with police officers is maintained, protection of electricity substations was increased.

Openness for the public – constant provision of information to the public on the company, its activity, services rendered, plans, the name and activity of the company is actively promoted, a positive image of the company is formed working under the principles of transparency and quality.

Explanatory letter

The explanatory letter discusses material changes and their reasons in financial statements. Financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS).

Corporate Activities

VST, AB is the owner of electric power distribution network (medium and low voltage power lines, transformer substations and other distribution equipment). The main activity of the Company is the distribution of electricity through medium and low voltage power networks and supply of electric power to its consumers in Kaunas, Klaipeda and Šiauliai regions. The Company is also responsible for the security, reliable performance, maintenance, management and development of these networks.

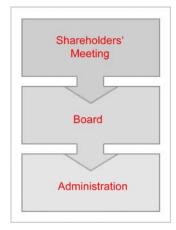

By the end of the third quarter of this year the Company supplied services to 710 686 customer objects.

Management Structure

VST, AB management bodies are:

- Shareholders' Meeting
- Board
- Administration

The Company does not have a supervisory board (see picture N^o. 1 "VST, AB Management Structure")

Picture No. 1 "VST, AB Management Structure"

Revenue and Expenses

During the year of 2007 the Company sold 7,2 percent more electricity than during 2006. Total number amounted to 3 947 million kWh (Table 1).

	Table 1. Electricity sales and expenditure				
Indicators	Units of measure	2007	2006	Variation, MWh	Variation, percent
Electricity purchased	MWh	4 308 241	4 087 774	220 467	5,4
Electricity sold (active)	MWh	3 947 054	3 682 805	264 249	7,2
Network (transportation) losses	MWh	339 246	381 709	-42 463	-11,1
Consumption for own needs	MWh	21 941	23 260	-1 319	-5,7

Revenue from sales of electricity amounted to 1 049 million LTL, which is 14 percent more compared to the last year (921 million LTL). The biggest part of revenue is collected from low voltage users. Low voltage users are residential customers and other legal persons, mostly small and medium enterprises as well as governmental organizations. During the year of 2007 revenues from low voltage electricity (active) users amounted to 783 mln. Lt., or 75 percent of all revenues received. Electricity from medium voltage users during 2007 were 249 million, or 24 percent of total revenues. The remaining part of revenue from sales of electricity (active) accounts for high voltage users.

Electricity purchase cost (in LTL), in comparison with previous year, was increased by 18,4 percent. This was caused by an increase in electricity production cost and an increase in consumption.

The profit before tax of VST, AB in 2007, compared with the last year, decreased by 10 percent from 83,6 million LTL to 74,8 million LTL. The decrease in profit before tax is attributed to the increase in electricity purchase cost.

Balance Sheet

In 2007, 140,0 million LTL were invested into development and maintenance of electric power distribution network (139,7 million LTL in 2006).

The carrying value of the non-current assets increased from 2 079,7 million LTL in 2006 to 2 735,8 million LTL in 2007. The increase was because of the Company's property, plant and equipment (except for construction in progress) was revalued as at 1 January 2007 by external independent appraiser, Ober-Haus Nekilnojamasis Turtas UAB. Valuations were made on the basis of replacement cost, except for other assets (with no business specific features) that were revalued using comparable price method. Some of the objects, that service duration time was reduced to reconstruction date by the Company in 2006, were revalued by the Company itself considering replacement costs and values provided by the independent appraiser. Due to the revaluation of non-current assets, revaluation reserve increased from 830 million LTL in 2006 to 1 345 million LTL in 2007.

Inventories during the year of 2007 increased from 6,5 million LTL to 7,6 million LTL because of the increase in amount of operation.

Trade and other receivables increased from 83,0 million LTL to 89,8 million LTL due to an increase in sales of electricity.

Deferred income for the reporting period increased by 37 percent to 187 million LTL due to accrued new customers connection income.

Trade and other payables declined from 94,7 million LTL to 75,1 million LTL mainly because of decrease in payables to contractors (13,4 million LTL).

Advances and accrued charges throughout the reporting period in 2007 decreased from 28,3 million LTL to 25,0 million LTL due to smaller amounts of accrued liabilities.

Liabilities

Long term borrowings in the end of 2007 were equal to 298,9 million LTL, short term borrowings – 80,4 million LTL (in 2006 – 347,1 million LTL and 49,5 million LTL, respectively).

Financial liabilities for banks at the beginning of 2007 were 388,6 million LTL, while in the end of the year – 377,7 million LTL (table bellow shows Company's financial liabilities for banks in the end of 2007 and 2006).

Table 2. Bank loans for VST, A							
Lender	Currency	Value in balance sheet (2006 12 31) million LTL	Payback, million LTL	Value in balance sheet (2007 12 31) million LTL			
Nordea Bank Finland Plc Lithuania	EUR	0	0	34,5			
Syndicated loan	EUR	388,6	45,5	343,2			
Total		388,6	45,5	377,7			

The Company has overdraft contracts with AB bank "Hansabank", Nordea Bank Finland Plc Lithuania and

SEB bank, AB. It is possible for the Company to borrow up to 107 million LTL using overdraft contracts. In the end of 2007 the Company's overdraft borrowings amounted for 34,5 million LTL.

The Company has no currency risk due to the fact that payments for goods and services are made in LTL, and loans are taken out in euros (the national currency litas is pegged to the euro at a fixed rate).

Cash Flows

At the end of the year 2007 net cash flows from the main activities were 313,1 million LTL and increased by 42,6 million LTL, or 16 percent, as compared with the same period last year. The increase in net cash flows is attributed to the increased net profit.

Net cash flows from investing activities increased by 562 thousand LTL to 138 million LTL.

A considerable difference in the lines of loans received and loans repaid as compared to the previous period occurred because in the year 2007 there has been a change in the way the Company calculates loans: in previous periods only the net result was recorded; in 2007, however, both - loans received and loans repaid are entered into the report.

Net increase in cash and cash equivalents can be explained by increased cash flows from operating activities as well as smaller payments in dividends and smaller amount of loans repaid.

Material events

Below are material events announced by the Company from 01/01/2007 till 31/12/2007.

<u>30/11/2007 National Control Commission for Prices and Energy announced electricity prices and tariffs of VST and their application procedure</u>

National Control Commission for Prices and Energy during the session held on November 30th made a decision to announce electricity prices and tariffs of VST, AB and their application procedure. This procedure had been confirmed by the board of VST, AB on the October 29th, 2007 by the protocol number 106. Starting from the 1st of January, 2008 end price for the I group consumers (household-consumers) will be the same as during the year 2007. The end price for the II-III group consumers will increase by 3ct/kWh (0.87 Euro cent/kWh) plus VAT.

29/11/2007 Concerning the meeting of the Board of VST, AB on 29th November, 2007

On 29th of November, 2007 the Board of VST, AB decided to reduce the distribution tariffs for household consumers, therefore the electricity prices for residents shall not be raised from 1st of January, 2008.

28/11/2007 Concerning the meeting of the Board of VST, AB on 29th November, 2007

On 29th of November, 2007 the Board of VST, AB shall consider the possibility at the expense of company's profit to reduce the distribution tariffs, in order the electricity prices for residents would not change from 1st of January, 2008.

31/10/2007 2007 Q3 activity result of VST, AB

Preliminary pre-audit 2007 Q3 activity result of VST, AB is LTL 42 mil. (EUR 12.2 mil.) net profit.

<u>31/10/2007 The National Control Commission for Prices and Energy ratified the end-user energy price cap for VST, AB for the year 2008</u>

The National Control Commission for Prices and Energy during the session held on October 30th ratified the end-user energy price caps for VST, AB for the year 2008:

• The end-user price cap for electricity consumers connected to the 110 kV or higher power grid is 17.28 ct/kWh or 5.00 Euro cent/kWh (currently – 13.76 ct/kWh or 3.99 Euro cent/kWh);

• The end-user price cap for electricity consumers connected to the 6 kV but not higher than 110 kV power grid is 25.51 ct/kWh or 7.39 Euro cent/kWh (currently – 21.13 ct/kWh or 6.12 Euro cent/kWh);

• The end-user price cap for electricity consumers connected to the 0.4 kV power grid is 35.87 ct/kWh or 10.39 Euro cent/kWh (currently – 30.3ct/kWh or 8.78 Euro cent/kWh);

This information can be found on the Commission's web page http://www.regula.lt.
