Forward Looking Statements and Financial Projections

Certain information in this presentation and oral statements made in any meeting are forward looking and relate to VIK and its anticipated financial position, business strategy, events and courses of action. Words or phrases such as “anticipate,” “objective,” “may,” “will,” “might,” “should,” “could,” “can,” “intend,” “expect,” “believe,” “estimate,” “predict,” “potential,” “plan,” “target,” “is designed to,” or similar expressions suggest future outcomes. Forward-looking statements and financial projections include, among other things, statements about: our expectations regarding our expenses, sales and operations; our future customer base; our anticipated cash needs, our estimates regarding our capital requirements, our need for additional financing. Forward-looking statements and financial projections are based on the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking statements and financial projections. Although we believe that the expectations reflected in the forward-looking statements and financial projections are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, level of activity, performance or achievements and there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking statements and financial projections. Readers are cautioned that this list of factors should not be construed as exhaustive. The forward-looking statements and financial projections contained in this presentation are expressly qualified by this cautionary statement. We undertake no obligation to update or revise publicly any statements, including forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. Readers are cautioned not to place undue reliance on forward-looking statements or financial projections.

Fund business model

Size

Up to EUR 1 bn

During the first stage the Fund will reach EUR 500 m in terms of size, out of which EUR 100 m has been already contributed by the State while the remaining EUR 400 m will be raised by issuing **bonds under State guarantee**.

The Fund will also seek to attract institutional investors, aiming to raise more than EUR 500 m and reaching EUR 1 bn in total scale at the later stages

Target

Viable businesses

Investments will be made into viable business with sound future prospects, but affected by the Coronavirus outbreak which consequently may affect the sustainability of operation of other businesses or might have significant negative socio-economic consequences.

Secondary aim is to stimulate debt capital markets development, thus most of investments will be arranged via debt securities issuance

Financing structure

Conventional financing structure

Financing will be structured according to the best market practices including financial and non-financial covenants, collateral in the cases where needed and regular reporting and information sharing – in order to provide grounds for investment quality monitoring and security of Fund's investments

Interest payments

Interest payments

Every financial investment that Fund provides is subject to financial return according to its riskiness. Return on investment shall ensure the bond service.

Otherwise, bond interest payments are **guaranteed by the State**

Financial instruments at funds disposal
