On 26 May 2016, the Financial and Capital Market Commission and ABLV Bank entered into the administrative agreement regarding the violations detected under the FCMC inspections, which is aimed at improving the functioning of the Bank's internal control system. Taking into account that ABLV Bank currently complies with all regulatory requirements and continues improvement of its internal control system, a fine of EUR 3.17 million (which corresponds to 2.5% of the Bank's total income for the year) is applied to the Bank and warning is given to the responsible Member of the Bank's Board according to the agreement.
		During the inspections, the FCMC considered that the Bank had not paid sufficient attention to the client's untypically large, complex or interrelated transactions and also had not performed intense supervision of some clients' transactions under the enhanced due diligence. The FCMC conclusions, made during the inspections, regarding the deficiencies in the Bank's internal control system in the field of the prevention of money laundering and terrorism financing concern previously executed clients' transactions and their documentation, and the Bank currently applies necessary measures to eliminate those deficiencies.

This means the ability to turn assets into cash with minimal loss or ensure reasonably priced credit facilities.

3. Currency exchange rate fluctuation risk

ABLV Bank is exposed to negative effects of fluctuations in the foreign currency exchange rates on its financial position and cash flow.

4. Interest rate risk

5. Non-financial risks

During the course of its operations, ABLV Bank encounters also non-financial risks (including operational risk, reputational risk, etc.) with exposure to sudden loss. The cause of such risks may be, for instance, clerical errors or fraud, break-downs in information systems, insufficient internal control and procedures, etc.

6. Competition risk
